

Indonesian Fishery Specialists Visit Laboratories in This Area

Science Fair

(Continued from Page 1)

Herbert won first place in the junior division of the physical sciences.

Jerry Bowers won second place with an electric eye exhibit. He explained the operation of an electric eye and demonstrated his exhibit to the judges. When a judge broke a beam of light in the exhibit, the electric bell rang until his hand moved.

George Styron won third place with a chart of constellations of the northern sky.

Jimmy Thompson and Billy Piner submitted the winning exhibit in the junior division of the biological sciences. Their exhibit showed an ant colony and included a large, lighted model.

Duncan Lewis, Sylvia Thompson, and Winston Wade entered an exhibit entitled Reptiles Inherit the Earth which was good for third place. Second place went to Patty Kale, Susan Dill, and Jacquie Roberts, who entered Know Your Body and How to Protect it.

The Wonderful Ways of the Ocean was the prize winning exhibit in the elementary division of the physical sciences. Billy Fahy and Paul Bray submitted the entry.

Second place went to Dianne Williams, who entered an exhibit on fuels. George L. Dill's telegraph set won third place.

A. Clarke Gaskill Jr. entered a collection of local gastropods to take first prize in the elementary division of biological sciences. The judges, all of whom are well versed in marine life, recognized the gastropods at once. They are shells which may be found on the local beaches.

Robert McLean and Cecil Nelson entered the second place exhibit, Dinosaurs of the Mesozoic Era. Joyce Femia, Dianne Roberts, and Jeannette Graham won third prize with Insects of Carteret County.

Mrs. Lois Venters' third grade won first prize in the primary division with an exhibit showing fish and their uses. An exhibit, the Great Oak Tree, entered by Mrs. Ella Morgan's second grade class was second. Third place went to Miss Sally Thigpen's first grade class for a weather exhibit.

In class competition, grades four through six, Miss Flora Davis's sixth grade class won first place with a weather exhibit. Mrs. Bessie Wade's fifth grade won second place with a plant collection. An exhibition of life in the bogs won third place for Miss Jane Stroud's sixth grade.

In grades seven and eight, Mrs. Mamie Taylor's eighth grade had an elaborate exhibit tracing the development of transportation from 1700 to the present, which was good for first prize.

Mrs. Doris Scott's seventh grade won second place with an exhibit of machines, and Robert Baldree's eighth grade took third place with an exhibit showing generation and distribution of electricity.

Dr. Chestnut said that the judges were amazed to see how well the students had done. He said that in many divisions it was nearly impossible to determine a winner. "This is a fine experience for the students and for adults who visit the fair," he said, "I think it should become a yearly project."

School principal Lenwood Lee gave Mrs. Anne Harvell credit for the success of the fair. "She coordinated the entire event and her enthusiasm and spirit spread to the students and caused them to work even harder," the principal said.

Prizes were \$5, \$3, and \$1 for the first three winners in each division. Each student who participated in a project got a certificate of recognition. The certificate stated that the student had successfully completed a science project which was recognized as an official entry in the Science Fair of the Morehead City Graded School. The certificates were signed by Mr. Lee.

Eighteen of the winners will show their exhibits in the district fair next month at Greenville. Winners at the district fair will advance to the state finals.

Those who will make the trip to Greenville are George Styron, Jerry Bowers, Doris Phillips, Patsy Nelson, Anne Herbert, Jimmy Thompson, Billy Piner, Duncan Lewis, Sylvia Thompson, Winston Wade, Patty Kale, Susan Dill, Jacquie Roberts, Clarence E. Styron, Barbara Goodwin, Walter S. Morris Jr., George James and Ted Phillips.

Average Weekly Wages For County are Reported

Average wages paid in Carteret County during the third quarter of 1956 were \$47.63 per week. State average for the same period was \$57.36. The average employment in the county during the period was 2,327.

Henry E. Kendall, chairman of the Employment Security Commission, released the report in which he said that the average employment of the state was 839,570 workers. This is employment covered by the Employment Security law.

G. B. Talbot, director of the U. S. Fishery laboratory, Pivers Island, announces that two fisheries men from Indonesia are on a two-week visit here. They are Mr. Maskud (that's his full name) and William Suitela. They arrived Friday.

Mr. Maskud is 41 years of age, a resident of Tjirebon, Indonesia, is regional director of the Sea Fisheries Service in West Java. In his region, there are about 30,000 fishermen on 3,000 vessels.

It is usual for the fishermen to belong to cooperative societies for more effective buying and for disposal of the products, and there are 22 cooperatives in Mr. Maskud's area, commented Mr. Talbot. He is a member of Rotary International in his home city.

Mr. Suitela is a resident of Ambon, in the Moluccas, a group of islands in the eastern part of the Indonesian Archipelago. He is 36 years old and the regional fishery officer in the Ambon area. The area is large and involves 300,000 fishermen.

Both he and Mr. Maskud speak English and Dutch, as well as Indonesian, which is similar to the Malay language.

The men arrived in the United States in late January for a stay

of eight months. Each will be the regional director of the Sea Fisheries Office in a large district upon their return to Indonesia, and hence have broad interests in technology and administration of fisheries, Mr. Talbot said.

It is expected that observations of the way in which Americans carry on capture, processing, transport, and marketing of fishery products will permit them to introduce improved methods in their home country. Particular emphasis will be placed upon development of Indonesian fisheries for home consumption, rather than for export, for the proteins, minerals, and vitamins from the sea are needed in the diet, and have always been in short supply in their country.

While here, they will visit Duke Marine Laboratory, the radiobiological lab on Pivers Island, the Institute of Fisheries Research, and the state commercial fisheries division, Morehead City, which is headed by C. G. Holland.

After leaving Beaufort and Morehead City, Mr. Maskud and Mr. Suitela will visit Miami and Tarpon Springs, Fla., Pascagoula, Miss., and New Orleans before leaving for fishing ports in New England and the West Coast.

Centennial Book Patron Names Still Being Taken

The deadline for obtaining patron names for the centennial souvenir booklet has been extended, Mrs. Truman Kemp, chairman, reported Friday. Phone calls are being made to residents who have not been contacted personally.

Patrons, in addition to those whose names have already been published, are the following:

Mr. and Mrs. Fred Sanders, Mr. and Mrs. David Murray, Mr. and Mrs. Bill Condie and Billy, Mr. and Mrs. N. A. Rouse, Mr. and Mrs. Kemp B. Arthur Sr. and family, Mr. and Mrs. Duffy Rowe.

Mr. and Mrs. Milton S. Roush and family, Mr. and Mrs. A. T. Moore and family, Mr. and Mrs. William D. Gaskins and Judy, Vickery's Pottery Shop, Mr. and Mrs. George R. Wallace and family.

Mr. and Mrs. Robert L. Garner and family, Mr. John F. Nelson and family, Mr. and Mrs. Theodore Economou and family, Mr. and Mrs. K. W. Olsen and family, Mrs. J. W. Jackson, Mr. Jules Peters, Mr. and Mrs. George L. H. White, Mr. and Mrs. W. C. Matthews Jr., Mr. and Mrs. C. B. Wade Jr.,

Dr. Paul F. Whitaker, Mr. and Mrs. James Macy Jr. and family, Mr. and Mrs. Bobby Matthews and Melodie, Mr. and Mrs. W. W. Marks.

Mr. Carlton Robinson, Mr. and Mrs. Ephraim Brickhouse and family, Mr. and Mrs. J. S. McLoon and Maxine, Mr. and Mrs. George Mizesko, Capt. and Mrs. Gib Willis and family, Mr. and Mrs. Lindsay Guthrie, Mr. and Mrs. Richard Sourkasian, Mrs. R. A. Ormond, Mr. and Mrs. Cornelius Guthrie.

In Memoriam Mr. J. W. Jackson, Frederick Sterling and Carrie Arendell Davis, Thomas and Martha Oglesby Arendell, Mason F. Nelson, Mr. G. D. Canfield, Willard Lewis, Jacob F. Wade.

Headen (Jake) Piner, Mr. and Mrs. J. C. B. Morton, Mr. J. B. Morton, Capt. Randolph H. Willis, Capt. and Mrs. John Guthrie.

Premeasurement Extended The county ASC committee has extended the sign-up date for tobacco premeasurement through March 22.

Mayors Proclaim March Egg Month

The mayors of Beaufort, Morehead City and Newport have proclaimed March as Egg Month. Sponsored by the nation's poultry industry, egg month has as its theme, Eat Eggs for Goodness Sake.

Robert Smith, Beaufort, chairman of Carteret's Egg Month observance, comments that this is the season when eggs are abundant, quality good and prices attractive to the consumer.

Mayor Clifford Lewis, Beaufort, Mayor George Dill, Morehead City, and Mayor Leon Mann, Newport, suggest that everyone observe the month by eating more eggs.

School Lunch Menus Listed

Beaufort School

Today—Hot dogs, slaw, onion, mustard, baked beans, potato sticks, milk, doughnut.

Wednesday—Spaghetti with meat sauce, buttered corn, sour pickle, bread, butter, milk, banana pudding.

Thursday—Baked salmon loaf, buttered potatoes, string beans, cornbread sticks, butter, milk, cookies.

Friday—Roast turkey, dressing and giblet gravy, cranberry sauce, salad greens, rolls and butter, milk, grapefruit sections.

Queen Street School Today: Meat loaf, rice and gravy, string beans, bread, butter, milk and dessert.

Wednesday: Pork and gravy, collard greens, scalloped potatoes, cornbread, butter and orange juice.

Thursday: Spaghetti and meat balls, steamed cabbage, hot biscuits and butter, milk and chocolate cake.

Friday: Baked ham, boiled potatoes, green peas, hot biscuits, butter, milk and rice custard.

Morehead City School Today: Shepherd pie, mixed greens, peppered corn, pickle circle, hot biscuits and butter, applesauce, cookies, milk.

Wednesday: Beef-vegetable soup, crackers, peanut butter, pimento cheese and meat sandwiches, carrot strips, grapefruit sections, block cake with butter icing, milk.

Thursday: Barbecue slaw, cheese strips, stewed Irish potatoes, cornbread, butter, cookies and milk.

There will be no school Friday, due to the teachers meeting in Wilmington.

Benjamin Franklin brought the first bathtub to the United States after a visit to France 175 years ago.

West Newport Women Form Good Neighbor Club

The Good Neighbor Club was formed by the women of West Newport Wednesday night at the home of Mrs. Jane Tomlinson.

Mrs. Tomlinson was elected president and Mrs. Ethel Bergey secretary-treasurer.

The club, which will meet the first Thursday of the month, has set as its purpose the promoting of goodwill, welcoming new neighbors and cheering the sick.

Names of new members were suggested at the first meeting and cards were authorized to be sent to the sick.

The hostess served spice cake with whipped cream, nuts, mints and soft drinks.

Attending, in addition to Mrs. Tomlinson, were Mrs. Gertrude Thomas, Mrs. Joyce Lewis, Mrs. Ruth Phipps, Mrs. Louise Cutler, Mrs. Bernice Minatel, Mrs. Ethel Bergey, Mrs. Julia Creech, Mrs. Lucille Garner, Mrs. Nellie Robertson, Mrs. Mary Maness, Mrs. Beatrice Boone, and Mrs. Lois Cox.

The next meeting will be at 8 p.m. April 4 at the home of Mrs. Bergey.

Progress Report

San Diego, Calif. (AP)—The last of the homes owned by Alonzo E. Horton, founder of modern San Diego, is being torn down—to make room for a parking lot. The 2½-story wood and brick structure was the first house Horton built for himself after he came to San Diego in 1867. The house, constructed in 1868, had a fireplace in every room.

Youngster Finds Unusual Frog With Five Legs

La Mesa, Calif. (AP)—Ever see a frog with five legs?

Pat Hennigan, 7, found one in a small pond here. He donated it to San Diego State College in the interests of science. The professors said they had never seen one with five legs before, either.

Restaurant Manager Sets 25-Cent Minimum Charge

Atlantic City, N. J. (AP)—The high cost of living has hit the coffee break in Atlantic City.

The manager of a mid-town restaurant has adopted a 25-cent minimum after 9 a.m. "to break up the two-hour conversations on one cup of coffee."

Port Calendar

USNS Mission San Jose—Due at Aviation Fuel Terminals this morning with a cargo of jet fuel from Paulsboro, N. J.

USNS San Carlos—Due Friday at Aviation Fuel Terminals with a cargo of jet fuel from Venezuela.

USS Fort Mandan — A Navy LSD due at state port Thursday. Another LSD, the USS Casa Grande may make port here the same day.

WOW Log Rollers To Meet at Bethel

The Bethel Lodge of the Woodmen of the World will be host for the spring meeting of the Bright Belt Log Rolling Association tomorrow, R. L. Turnage, Morehead City, is second vice-president of the group. C. C. Fagle, field representative from Morehead City, will take part in the program.

The Bright Belt Log Rolling Association is composed of fifty Woodmen Lodges located in Carteret, Beaufort, Craven, Edgecombe, Greene, Halifax, Jones, Lenoir, Nash, Pamlico, Pitt, Wayne, and Wilson counties representing 4,000 members. There are expected to be over 400 delegates attending the meeting.
