

Judge Hamilton Would Like Good Turnout of 'Home Folks' on May 31

Judge Luther Hamilton, candidate for the state senate, expressed the hope Wednesday that "the home folks" here in Carteret will turn out and give him a big vote Saturday, May 31.

If they don't, it might just be possible that Carteret will find itself sitting high and dry with no one from this county in the state senate.

While some may think that Senator Hamilton will be re-elected without any trouble, the senator warned that over-confidence often breeds defeat.

"It is to our advantage," the senator and former superior court judge declared, "to have someone from this county and this city in the senate. The port situation is always with us, you know."

Senator Hamilton was closely connected with legal work on the port in the 1930's and supported port legislation in the 1957 session of the general assembly.

Running for state senator from this district, besides Judge Hamilton, are Clyde Sabiston, Jacksonville, and J. O. Simpkins, New Bern.

The senator would not commit himself on his favorite as running mate. "I would be very happy to serve with either of the gentlemen seeking the office," he said.

Only two of the three will be elected, of course. For that reason, the judge, who would like a strong vote throughout the district, is also extremely interested in seeing a good vote here in his home county.

Elections officials view the coming primary glumly. They expect very few to go to the polls. One official Wednesday expressed doubt that as many as 1,500 would vote in Carteret. An estimated 8,000 are registered.

Few Register for Primary

"It was poor." That's the way C. Z. Chappell, chairman of the county board of elections, summed up registration in the county for the past three Saturdays.

Persons who are unregistered and want to vote in the May 31 primary were to register between May 3 and May 17. Approximately 16 registered in Beaufort and the ratio in other precincts was believed similar to that, Mr. Chappell said.

Challenge day will be Saturday. At that time anyone who doubts that a registered person is qualified to vote may issue a challenge before the registrar in the precinct.

Sneak Thief Takes \$200 From Shipbuilding Office

A sneak thief took about \$200 from a cardboard box in an unlocked desk drawer at the Morehead City Shipbuilding Corp. office Friday. The theft was reported to the Morehead City police at 3:30 p.m.

Chief of Police Herbert Griffin said the money was in bills, clipped together. It was in a box of change kept for the drink machine.

Mrs. Minnie Pittman, who kept the money in her desk, told the chief that it was there just before she left for lunch. When a worker asked for change about 2 p.m. she realized that the bills were gone. About \$2 in loose change was left in the box.

Chief Griffin says the money must have been taken while Mrs. Pittman was out to lunch. "The back door to the office was left open during the lunch hour and people were walking through all the time," the chief said.

"The person who took the money must have waited until no one was around, put the money in his pocket and walked right out. There were no witnesses, there is no way to get fingerprints and the person who took it surely isn't going to tell anybody," the chief declared.

Despite the odds against finding the thief, the police are conducting a full-scale investigation.

Morehead City Returns Dart Gun After Demonstration

The town of Morehead City has returned the dart gun bought for quieting vicious dogs. At a demonstration conducted by a factory representative, it took two shots and 40 minutes before a small dog was knocked out.

Police commissioner Ted Garner reported on the gun at the town board meeting in the municipal building Thursday night. Commissioner Garner said the dog was in pain for the full 40 minutes before it was quiet.

"When we ordered the gun we thought it shot a small needle or dart. This gun should be used for large stock. The town did not use the gun except one time and that was on a dog that was to be put to sleep," commissioner Garner said.

Ronald Lee Jordan, a street department employee, works in the early mornings and late afternoons picking up stray dogs. He has a trailer which he pulls behind a town truck.

Jordan uses nets to capture the dogs. Friday afternoon there were 11 dogs in the pound.
