

## Menhaden Boat Hearing Will Be at 2:30 Today

● Time Postponed From Yesterday

● Plaintiff's Attorney Wants Map in Court

The hearing on menhaden boats at the Moore dock, Beaufort, was postponed from yesterday to 2:30 p.m. today.

According to C. R. Wheatly, attorney for Mrs. Ann Duncan Brown, plaintiff seeking removal of the boats, the postponement was granted by Judge Clifton Moore at the request of Judge Luther Hamilton, attorney for the Moores, who own the dock.

Judge Hamilton said he could not be at the hearing yesterday afternoon because he had to attend a funeral, according to Mr. Wheatly.

The hearing will be held before Judge Moore in the Craven County courthouse.

The hearing date has been changed twice. Residents in the vicinity of the Moore dock object to the boats tying in a residential area in violation, they allege, of the town zoning ordinance.

Judge Moore signed an order Nov. 14 prohibiting the boats from docking there. The order was voided later when the judge was informed that papers were not served until Nov. 17.

The hearing today is being held to give both plaintiff and defendant in the case an opportunity to present evidence. On the basis of that evidence the judge is expected to rule on whether boats may dock at the Moore dock, located in front of the postoffice.

Mayor C. T. Lewis was served a court order Saturday requiring him to present at the hearing the zoning map of the town. The map disappeared from the Beaufort town hall over the weekend.

Mayor Lewis informed THE NEWS-TIMES that he gave the map to Leslie Moore and that either Mr. Moore or Mr. Moore's attorney had it.

The map is part of the zoning ordinance. On it, in color, are marked the business, residential and industrial areas.

## Beaufort Firemen Answer Three Calls

The Beaufort Fire Department answered three alarms Friday and Saturday. Two were Friday morning within 15 minutes of each other.

The first fire was at 11 a.m. behind Mrs. Lela Willis's house on Ann Street, where a pile of rubbish was burning. Just as the firemen were going back to the station at 11:15, they got an alarm from Front and Seaview, where a brush fire had started. Firemen had the brush fire out in 15 minutes.

The third fire was at 11:30 a.m. Saturday behind Elmer Dudley's house on the Lennoxville Road. Brush was burning. Firemen had the blaze out in less than a half-hour.

## 16 of 121 Cases Cleared From County Court Docket

Only 16 of the 121 cases on the docket were disposed of in county recorder's court Thursday. Four defendants forfeited bonds and 101 cases were continued.

Elsie Mae James got the only jail term. She was sentenced to six months in woman's prison for cutting James D. Lee with a razor blade. A case charging Lee with engaging in an affray was dismissed.

Frank J. Locchetta was fined \$115 and ordered to pay court costs after he was found guilty of driving drunk and hit and run. Carl L. Williamson was charged \$100 plus costs for driving drunk and driving without his glasses.

Bernard C. Willis, who had been charged \$10 plus costs, appealed his conviction to superior court. He had been charged with driving on the wrong side of the road.

William Blange and Charles Fenner drew \$50 fines for stealing a tom weight and were ordered to pay one-third costs each. The case of a third defendant, Will Teel, was continued.

J. D. Small Jr. was found guilty of non-support. He was ordered to pay court costs and \$10 per week for the support of his children.

V. T. Fedrie was fined \$25 and ordered to pay court costs after he was convicted of speeding 70 mph.

Three defendants paid \$10 fines and court costs. They were Mary C. Tyson, speeding and running a stop sign; Albert E. Haskell, park-

## Turkeys and Tears!

Photo by Bob Seymour

Little Kimberley Oglesby, held by her grandmother, Mrs. R. P. Oglesby, Crab Point, is fretting already over the fact that she'll eat so much turkey on Thanksgiving Day she'll have a tummy ache! The big gobbler at the left is just one of 300 turkeys raised by Kimberley's grandfather, R. P. Oglesby. Kimberley is the daughter of Mr. and Mrs. Thomas Oglesby.

## Churches Will Open Doors Thursday For Thanksgiving Worship Services

### Six-Month-Old Boy Smothers

Ted Van Johnson, six-month-old son of Mr. and Mrs. Freddie Johnson, North River, smothered Sunday night. Coroner Leslie Springle ruled the death an unavoidable accident and said there would be no inquest.

According to the coroner, the child was put to bed about 8 p.m. About 10:30 the parents went into the bedroom and found the little boy dead with his head under a pillow.

Mr. Springle said a doctor was not called, since the child was dead when the parents found him.

### Coast Guard Refloats 49-Foot Ketch Sunday

Ron, a 49-foot ketch from New York City, ran aground near the Fort Macon Coast Guard station Sunday morning. A Coast Guard boat went to assist at 9 a.m. but found the tide was too low.

The Coast Guardsmen returned at 4:30 p.m. and towed the boat into deeper water. Members of the Coast Guard crew were EN/1 Ronald Guidley, YN/3 Kerry Lewis and SN Aulcie Farmer.

"Enter into His gates with thanksgiving, and into His courts with praise . . ."

Churches have scheduled special services in observance of Thanksgiving. Announced by the pastors, they are as follows:

Beaufort congregations will join in a community service in the First Free Will Baptist Church, Broad and Turner Streets, at 10 a.m. Thursday.

The Rev. W. A. Hales, pastor, will preside. The Rev. Alec Thompson, pastor of the First Baptist Church, will give the sermon. The scripture reading will be by the Rev. C. Edward Sharp, rector of St. Paul's Episcopal Church, with prayer by the Rev. John Cline, pastor of Ann Street Methodist Church.

The combined choirs will sing Thanksgiving music under the direction of Mrs. Sid Willis, Ann Street Methodist Church, and Miss Norma Hales, of the Free Will Baptist Church.

At Newport a Union Thanksgiving service will be held in St. James Methodist Church at 10 a.m. Thursday. The Rev. Ralph Fleming Jr., pastor, will preside. The sermon will be given by the Rev. M. O. Sears, pastor of the Newport Missionary Baptist Church.

The Thanksgiving service in St. Timothy's Lutheran Mission, Havelock, will be at 7 p.m. Wednesday. Announces the pastor, the Rev. Aaron Lippard. The offering will go to the Lutheran Children's Home of the South, Salem, Va. The church is located west of Havelock on highway 70 in the building formerly known as Moore's Barbecue. The building has been renovated

as a sanctuary and includes Sunday School rooms.

First Methodist Church, Morehead City, has scheduled no service, but the church will be open during the day for individual or family worship.

There will be Holy Communion and sermon at 10 a.m. Thursday in St. Andrew's Episcopal Church, Morehead City. The offering will go to the Thompson orphanage, Charlotte, announces the Rev. F. Guthrie Brown, rector.

A Practical Thanksgiving will be the topic of the sermon by Dr. J. L. Carrick at 9 a.m. Thursday in the First Baptist Church, Morehead City. The choir will sing the anthem, Harvest Hymn of Praise. Mrs. Ralph Wade will sing a solo. Thanks to God.

Morehead City and Wildwood Presbyterians will meet for a Thanksgiving service at 8 a.m. Thursday in the First Presbyterian fellowship hall. Dr. A. F. Chestnut and the Rev. Alvis Daniel, pastor of the Wildwood Presbyterian Church, will conduct the service.

The service will consist of hymn singing, prayers and scripture reading. Donuts and coffee will be served after the service in the fellowship hall.

The Sea Level Free Will Baptist Church will have its fourth annual homecoming on Thanksgiving Day. Services will begin at 11 o'clock. A dinner will be served in back of the church at noon.

Special music will be presented by the church choir, the Stacy FWB church choir and the Cedar Island church choir.

Everyone is cordially invited to the homecoming, announces the pastor, the Rev. J. E. Floyd Sr.

Members of the faculty of the Institute of Fisheries Research, University of North Carolina, Morehead City, have been named members of the faculty of the UNC graduate school.

Notification of the new status was sent to Dr. A. F. Chestnut, director of the institute, by Dr. J. R. Gaskin, assistant to the dean of the graduate school.

As members of the graduate school faculty, the institute faculty can expand its activities in geology, botany and chemistry. Dr. Chestnut commented. Since the institute has been open, however, any student in zoology who obtains special permission, has been permitted to work at the fisheries institute under the direction of one of the professors there.

Faculty members now holding the new official graduate school status are Dr. Chestnut, Dr. Austin Williams, Dr. William Fahy, Dr. Gerald Posner and Dr. Earl Deubler.

and others which have requested that their interests in relocation or new sites not be disclosed.

Norman Harris of Carolina Grain Co. was introduced. He said that his firm is looking forward with "great anticipation" to success in the present grain export enterprise.

They succeed P. H. Geer Jr., Walter Morris and George Whittle.

The directors will meet Dec. 1 to elect new officers. The new officers will assume their duties Jan. 1.

Bud Dixon, president, presided at the dinner meeting which was attended by 106 persons. Of that number, 72 were chamber members, the largest number ever to attend an annual meeting, according to J. A. DuBois, chamber manager.

Chairmen of major committees spoke briefly on their projects and answered questions from chamber members. Mr. McNeill was moderator.

W. E. Chalk spoke on industrial development and listed firms with which contacts have been made in the recent past: Southern Railway, P. R. Markley, Union Carbide, William L. Marshall Co., Imperial Chemical, Youngstown Steel

and others which have requested that their interests in relocation or new sites not be disclosed.

Robert Gaskill, manager of Trumbull Asphalt, was introduced as a representative of a Morehead City firm which has made major expansions here since its location in March 1950. Mr. Gaskill introduced John Hopkins, assistant general superintendent of Trumbull in construction and maintenance.

Trumbull, according to Mr. Gaskill, had nine tanks with an asphalt storage capacity of 3½ million gallons in 1950. Now it has 29 tanks with a storage capacity of 7½ million.

Josiah Bailey asked Mr. Chalk

## SPA, C&D, Engineers, Highway Officials Meet

### Port Calendar

Morehead City State Port

Durymore—Due today with petroleum products for Standard Oil Co.

Azure Coast—Due tomorrow with asphalt for Trumbull Asphalt Co.

Birkenstein—Due Thursday or Friday to load tobacco for northern European ports.

Schiedyk—Due Friday or Saturday to load tobacco and logs for northern European ports.

## Mercury Climbs To 74 Sunday

Weather observer Stamey Davis reports that the warm weather of the past week continued over the weekend. The mercury climbed to a high of 74 Sunday afternoon. The coldest it got over the weekend was a 43 recorded early Saturday morning. The minimum temperature recorded on Sunday was 53.

Mr. Davis reports the first rain in about two weeks fell Sunday night. There were brief showers through the night. Maximum and minimum temperatures and wind direction for the weekend follow:

	Max.	Min.	Wind
Thursday	71	50	NE
Friday	69	47	W
Saturday	68	43	S
Sunday	74	53	E

## Faculty Receives New Status

Members of the faculty of the Institute of Fisheries Research, University of North Carolina, Morehead City, have been named members of the faculty of the UNC graduate school.

Notification of the new status was sent to Dr. A. F. Chestnut, director of the institute, by Dr. J. R. Gaskin, assistant to the dean of the graduate school.

As members of the graduate school faculty, the institute faculty can expand its activities in geology, botany and chemistry. Dr. Chestnut commented. Since the institute has been open, however, any student in zoology who obtains special permission, has been permitted to work at the fisheries institute under the direction of one of the professors there.

Faculty members now holding the new official graduate school status are Dr. Chestnut, Dr. Austin Williams, Dr. William Fahy, Dr. Gerald Posner and Dr. Earl Deubler.

Involved in location of a bridge is depth of the channel which is maintained by the federal government. In answer to a question by Kirkwood Adams, SPA member, Col. H. C. Rowland, district engineer, said that he thought the federal government would look with favor on an "improved channel" if the port grows.

Mr. Adams asked if the highway commission would be willing to go ahead with bridge plans, without waiting for the federal government to commit itself on channel improvements.

Mr. Babcock said, "Our problem is to find out what your problem is in this bridge matter. If the SPA doesn't speak in regard to

## Banks Sponsor Farming Course

Two young farmers from this county who intend to remain on the farm will have an opportunity to attend the seventh annual short course in modern farming at State College. The course will be conducted Feb. 2-13. It is sponsored by the North Carolina Bankers Association.

While these farm boys are receiving this training, they will learn how the school of agriculture at State College functions; how it obtains information in farming efficiency and how the school of agriculture can serve farm people.

New recommendations in the making and new techniques that increase farm profits are some of the valuable information that will be put in this two weeks' intensive course of lectures, discussions, and tours.

A considerable amount of the information learned at this time will deal with poultry, marketing field crops, farm planning, soil and fertilizer, insect and disease control, horticulture, livestock and forestry.

Rufus Butner, cashier of Commercial National Bank, has been designated as the county key banker to represent Carteret banks. He and R. M. Williams, farm agent, are now receiving applications for the short course. Should there be any Carteret boys interested in attending, either Mr. Butner or Mr. Williams will consider their application if it is turned in soon.

## Hungry Octopus Caught

Hank Merrell, Beaufort, holds a 3-foot octopus caught by Mrs. B. H. Moore on a crab line Friday off Radio Island. Mrs. Moore was with her husband, Sergeant Moore, USAF, when the octopus took the bait. The Moores live at 1807 Arendell St., Morehead City.

## Child Finds Centennial Bottle on Azores Island

After months of silence, word has been received again of the finding of a Morehead City Centennial bottle, more than a year after it was thrown overboard off Atlantic Beach.

Mrs. Leslie (Sally) Moore, Moore's Motor Court, Atlantic Beach, informed THE NEWS-TIMES Friday that she had received a letter from the Azores. Mrs. Moore was secretary-treasurer of the Atlantic Beach Businessmen's Association which staged the "floating bottle" stunt in observance of the centennial in 1957.

The letter came from Lajes do Pico, Azores and was addressed to the Carolina Queen, Headboat, Atlantic Beach. (Each bottle contained a dollar—two had hundred dollar bills—and each bottle contained the address of an Atlantic Beach business.)

The letter from the Azores, bearing Portuguese stamps, was turned over to Mrs. Moore by Vernon Guthrie, Morehead City, who received it. It follows:

Nov. 1, 1958  
This is from the Azores island of Pico, just six miles from the

Atlantic ocean about 850 miles west of Portugal.

The Atlantic Beach Businessmen's Association carried two of the bottles, each containing a hundred dollar bill, to the Gulf Stream and threw them overboard. The others were thrown overboard just off Atlantic Beach.

## Beaufort Band Solicits Funds

The Beaufort Band Booster Association has sent out letters requesting contributions for the school band.

Persons who would like to contribute are asked to mail checks to Gerald Hill, secretary of the association.

Mr. Hill says, "Our band is growing and its needs are many. The band has made several trips, and others are planned for the year. To fail to mention the pride we have that our school can offer this opportunity to its students would surely be in error also."

"The band is a community project, and its sole source of income is through voluntary contributions of its friends and patrons."

Director of both the beginners and senior school bands is Charles Jones Jr.

island where is a volcano who is known all over the world. My boy, 6 years old, found a bottle while swimming with a dollar and this address on a piece of paper.

I had not any chance to find someone to write. Now I took the opportunity of my neighbor next door, from New Bedford, Mass., visiting the island for a short time.

My boy is anxious to go to USA, but no chance. We work very hard to have a poor living. What we can do? Just exist and nothing else. Hope this reach you in short time and we can hear from you again.

Yours sincerely,  
Maria da Piedade Lima  
Canada de Franca  
Lao Loas Pico  
Azores

The Azores are located in the Atlantic ocean about 850 miles west of Portugal.

The Atlantic Beach Businessmen's Association carried two of the bottles, each containing a hundred dollar bill, to the Gulf Stream and threw them overboard. The others were thrown overboard just off Atlantic Beach.

The purpose of his trip, sponsored by the United Kingdom Atomic Energy Authority, is to compare notes on the disposal of atomic waste into the sea.

The United States and England are working closely on the problems involved and Mr. Templeton says the countries share information to avoid overlapping research.

Mr. Templeton began his tour at Chalk River, Canada, then came to Beaufort, via Woodshole, Mass., and John Hopkins University, Baltimore. He left Saturday enroute to Oak Ridge. From there he will go to labs in Florida, Washington state and Wisconsin before returning home Dec. 15.

Mr. Templeton, who is a graduate of St. Andrew's University, Scotland, says that the biggest problem in disposal of radio active wastes in the sea is in getting adequate dilution and dispersion. There must not be enough radio active materials in one location to affect fish which may be eaten by man, he explains.

This was Mr. Templeton's first trip to the United States. When asked for his first impression of the country he said, "I spent four days as a tourist in New York. The thing that impressed me most was the way that life goes on around the clock."

"Even in London, the largest city in the world, one has to walk for quite a distance to find a place open early in the morning. In New York the streets were alive at 3 and 4 o'clock."

Attend Meeting  
James D. Potter, county auditor, and Prentiss M. Garner of the county auditor's office, attended the tax supervisors' meeting Thursday through Saturday at Chapel Hill.
