The county board's first meeting of 1959 was marked by pleas for county zoning and future planning.

county zoning and reture planning. Appearing before the board yes-terday morning at the courthouse were D. G. Bell and Joe DuBois, Morehead City, who advocated zoning and planning; N. L. Wal-ker and Pat Warren, of the Emeri-tus Club, who presented informa-tion they had gathered on county zoning, and W. H. Potter, presi-dent of the Beaufort Community Development Corp. nent Corp.

Mr. Potter, who was appointed to a county resources development authority, informed the board that the group had never met. Others on the authority are county com-missioner Harrell Taylor and Joe DuBois.

Commissioner Taylor called a meeting at noon yesterday to or-ganize and suggest two additional embers. Mr. Potter requested \$800 from the county to make on aerial survey of Beaufort, More-head City, and the Newport River basin, part of the money also to be used for printing brochures.

The primary purpose of the work, he said, would be to help the state decide where to locate the bridge across Newport River be-tween Beaufort and Morehead.

The county board said it would be better for the development au-thority to organize, before talking money. Mr. Potter, who has also been appointed to the Beaufort-Morehead airport authority said he considered it a waste of time to considered it a waste of time to be on such groups unless the county furnished money for them to work with.

Moses Howard, chairman of the board, suggested it might be well for the airport authority to de-termine what the needs are at the airport and persent the proposal to the county.

Prior to Mr. Potter's statements, the borad approved a resolution requested by D. G. Bell, county legislator, which states that the county is interested only in a bridge location that is convenient the requirements for Eagle Scout in September. He is now in the and safe for those using it, a loca-tion; that offers the utmost for future development, and one that will allow for expansion of the Morehead City port,

Copies of the resolution are to be copies of the resolution are to be sent to the State Ports Authority, the State Highway Commission, the Department of Conservation and Development, and Southern Railway.

Mr. Potter said that if the \$800 for the aerial survey is not forth coming from the county, private citizens will finance the work.

Mr. Bell suggested that the Mr. Bell suggested that the county board pass a resolution op-posing the proposal for another ocean fishing pier on Bogue Banks. The commissioners said they had already acted on the matter at the last meeting and they had no au-thority to oppose the pier. Mr. DuBois echoed statements by Mr. Bell which eited the im-portance of planning for the future

portance of planning for the future and zoning Carteret on a county basis. He said that in 25 years, the population of the county will dou-ble.

Mr. DuBois was invited to meet with Mr. Bell and county commis-sioners relative to introducing legislation this year which will enable the county to enact a zoning ordinance.

The board accepted information from Joe Beam of the John L. Crump insurance office and agreed to take it under consideration. Mr. Beam presented a quotation on liability insurance for county and board of education properties.

Sheriff Issues Stern Warning

Sheriff Hugh Salter yesterday warned owners of cattle on the outer banks that unless the live-stock are taken off by Jan. 15, the animals will be shot. According to Jaw, all goats,

pigs, sheep and cows on the outer banks were to be removed by July 1. Some were taken off, but quite a few still remain.

Not only will the livestock be destroyed, but owners are subject to fines up to \$100 or im-
