Oscar Show Expected To Draw Big Audience

By O. J. MORROW, Theatre Manager

The greatest cast of the brightest amusement stars of the world on stage, screen, radio or television will be seen by what is expected to be the largest audience ever—Monday, April 6.

No matter what the words in the above paragraph sound like, they are true and not an exaggeration.

The show is the 31st Annual Awards Presentation of the Academy of Motion Picture Arts and Sciences. It will be presented in the United States on the NBC-TV and NBC radio networks. Canadians will hear and see the show on the CBC-TV and CBC radio networks. Englishmen will see it via film 20 days later on the BBC network. And this is only the beginning.

It can almost be said that wherever a TV station exists the Academy show will be presented and wherever radio can be heard it will be listened to... broadcast by short wave and on local stations via tape recordings. Last year's audience was said to be the largest on record up to that time.

Interest this year seems much greater and plans are set for more TV and radio stations.

How many stars will there be on the show? Actually no one knows, because no one knows how many individual Oscar winners there will be. But aside from the winners who will receive the bronze statuettes for their "Best Performances" there are now 110 announced stars to provide the entertainment portion of the program.

The combined TV and radio world-wide audience is expected to be over a billion persons.

The big "Oscar" show will be seen locally at 10:30 p.m. on WITN-TV Channel 7.

Howard Hawks' Rip Bravo, filmed in technicolor, starting Sunday at the Morehead theatre, is an undiluted, straight-from-the-shoulder drama in the best tradition of the Old West, with an outstanding cast headed by John Wayne, Dean Martin and Ricky Nelson.

The story builds up terrific suspense, unfolding the courageous efforts of the sheriff of a small border-town to keep a wanted murderer in jail despite the prisoner's powerful and unscrupulous brother.

For John Wayne, Rio Bravo is a logical and worthy progression from such other western triumphs as Stagecoach, Red River, and Hondo. With the exception of one picture, Dean Martin's previous film work had been with his comedy partner Jerry Lewis, but in his present role, as Wayne's ex-deputy sheriff, Dino's career as a dramatic star appears assured.

Anxiously awaited by America's teenagers is the appearance of 18-year-old Ricky Nelson in the role of Colorado, youthful gun-slinger who comes to the aid of John Wayne when his enemies close in. Although his motion picture background is limited to two films made when he was a small boy, Rick's years of experience in front of television cameras have made a seasoned actor of him—a fact which becomes evident in Rio Bravo.

Anna Lucasta, which ran for more than 1,000 performances as a Broadway play, will open Sunday at the City theatre, with Eartha Kitt and Sammy Davis Jr. The motion picture marks Davis' debut as a motion picture actor in
