Morehead Gives Auditing Job To Josiah Bailey

Josiah Bailey, CPA of Morehead City, was awarded the contract for auditing town books for 1959-60 at the meeting of the town board Tuesday night at the municipal building.

Commissioners Russell Outlaw, Walter Morris and Bud Dixon vot-ed in favor of the move. Commis-sioner S. C. Holloway voted against. Commissioner Ted Garner did not vote.

Commissioner Holloway said that his vote was not a vote against Mr. Bailey, but he was of the opinion that the town's usual auditor Williams and Wall, could give the same service as Mr. Bailey and at a lower price. Mr. Hollow, said cost is something to consider when a town has no more money than

Morehead City has.

Mr. Bailey, who attended the meeting, said that he was interested only in doing an "opinion audit." This means that he would comment on the town's financial affairs and make recommenda-tions. He said he was not interest-ed in doing any other type of audit.

Leigh Wilson, counsel for the League of Municipalities, who was attending the meeting, suggested that Williams and Wall be asked to give an "opinion audit." He said that auditors usually do only as requested and if Williams and Wall had not, in the past, been asked for such an audit, they didn't

Mayor George Dill mentioned that an auditor who bid on the job gave an estimate of \$45 a day for senior auditors and \$35 a day for junior. None of the auditors esti-mated how many days it would

take to do the job.

Mr. Bailey told commissioners his price would be about \$50 a day. He said, after commissioners pleaded for some estimate on how long it might take, that he thought he might be able to do it in 30

He added that if the cost of the work began to get beyond what he though its value would be to the town, he would call it to the board's attention and they could call off the "opinion audit

Mr. Wilson commented that an recommendations of the auditor into effect. He asked if Mr. Bailey would help to effect any changes he might recommend.

The CPA said that he would have to renegotiate with the town on anything of that type.
