Dr. H. F. Webb, secretary of the Hundreds of these organizations

board in special session Monday night at the town hall and opposed the proposed business-privilege license fees the town wants to adopt for the 1960-61 fiscal year.

The board asked the merchants to draw up a proposed fee schedule and present it at the June 6 meeting.

J. O. Barbour Jr. was spokesman for the merchants association. Mr. Barbour is chairman of the asso-ciation's committee on civic and

legislative affairs.

Mr. Barbour said, "For many years I have had a pet theory that it is impossible for bureaucrats to enter heaven. I do not believe the group responsible for this monstrosity (bureaucracy) can even get into the other place. It is unfair, unjust and unreasonable and is the end product of government by lobby instead of by honorable

Democratic process."

Mr. Barbour pointed out that the proposed "schedule B" fees set up by the state and recommended for town adoption, has one and a quarter pages listing certain businesses exempt from the town business-

privilege license fees.
"Every one of them should pay a reasonable privilege tax." Mr. Barbour said, "because many of them are the highest-paid people in the community." He added that the law may exempt certain ones, but pepole don't have to like it.

Mr. Barbour pointed out to the own board that Beaufort businessmen are taxed on the basis of being in a more than 25,000 town population group and are also taxed on the basis of gross receipts.

Using a hardware store operator as an example, Mr. Barbour said the hardware man's business-privilege tax would amount to \$375 per year if he sold the many things a hardware store is expected to sell.

He pointed out that the hardware

store has to compete with mail or-der houses and catalog stores which pay, in comparison, only a fraction of the tax the local businessman pays.

up a schedule of privilege taxes which it deems fair and equitable.

Present at the meeting were mayor W. H. Potter, commissioners William Roy Vaccinet

clerk Ronald Earl Mason Mr. Mason said that the fifth commissioner, Otis Mades, will be

ASC Explains Support Cuts

Certain varieties of flue-cured to-pacco, Coker 139 and 140, and Dixie Bright 244, will be supported at one-half the rate for comparable grades of other varieties this year

W. E. Matthews, chairman of the State Agricultural Stabilization and Conservation committee, says farmers who have the discounted varieties on their farm will be is-sued a "limited support" marketing card.
The farmer will be asked to iden-

tify the varieties he has planted when his tobacco is measured. Va-riety identification men, employed by the state ASC committee, will also check fields, Mr. Matthew said.

Further information on procedures regarding "limited support" varieties may be obtained by con tacting B. J. May at the county ASC office, courthouse annex, Beaufort.
