Disgruntled Man Takes 'Winnings' From Boss

Miami, Fla. (AP)—Lincoln Zonn, the detector expert, was called in to examine a hotel clerk accused of taking \$42 from the cash register.

It developed, Zonn said, that the clerk wanted to bet \$2 on a horse, didn't have it and asked his boss for it. The boss said no.

So when the horse won and paid \$42, the clerk figured he had that much coming to him. So he just took it from the register.

Farm Fish Ponds Provide Fun, Fish for the Table

By M. H. OWENS
Soil Conservationist

Although Carteret county is noted for its salt water fishing, several farmers have farm ponds and are stocking them with bass and bluegill.

Ponds stocked with fish provide fun and recreation for the farm family as well as fish for the table. Farmers request bluegill and bass fingerlings from the Fish and Wildlife Service. The request can be made through the Soil Conservation Service office in Beaufort.

Several farmers, cooperating with the Lower Neuse Conservation district, stocked their ponds last fall with bluegill. The bass arrived the first of June. Those receiving fish were George Creech, Lonnie Howard and Johnnie Smith.

Farmers receive bluegill fingerlings in the fall. By spring they have started laying eggs. The bass, which feed on the young bluegills, are received in the late spring.

About one year later, the bass are spawning and you can then start fishing the pond.

Farm fish ponds are best if you fish it from moderate to hard. If you don't fish it, the pond will become overpopulated and the fish will stop growing. A pond can only support a limited poundage of fish and if there are too many fish, they will be small.

Fertilizing fish ponds is important. You can only catch about 30 pounds of fish per acre per year from unfertilized ponds. If the pond is well fertilized, you can harvest about 200 pounds of fish.

Ponds differ in the amount of fertilizer needed; however, about 1,000 pounds of 8-8-2 per acre per year is generally satisfactory. Although the fish do not use the fertilizer directly, it does them a lot of good. Here's how it works:

Fertilizer makes the microscopic plants grow better. Insects feed on these plants. Bluegills feed on the insects. Bass feed on the bluegills and also on young bass. If you have any questions or

problems about your farm ponds, the Soil Conservation Service will be glad to work with you on it. Here's wishing all of the farmers with stocked ponds "good fishing."

FBI Asked to Enforce Unusual State Laws

Cincinnati (AP)—Ed Mason, FBI agent-in-charge of the southern Ohio area tells of these new laws that the FBI has been asked to enforce:

Only one-armed persons can carry a switchblade knife across a state line; wild horses cannot be shot from a moving vehicle; it is illegal to transport across a state line a refrigerator that cannot be opened from the inside, and it is illegal to use a replica of Smokey Bear. (Smokey Bear is the insignia of the US Forestry Service.)

Straight Talk

I will stand on my oath to defend the constitution of the United States.

I will use every influence of the governor's office to KEEP OPEN the public schools of North Carolina.

A safe, sane, sound financial policy is absolutely necessary to industrial promotion and progress in every field in North Carolina.

Now...New LOW RATE

for ELECTRIC HOUSE HEATING

Planning to build, buy, rent or remodel?

Then CP&L's new, low rate makes safe, flameless, electric house heating more practical and economical than ever before!

This rate is available only when electricity is the exclusive source of heat for the entire home and for the hot water supply.

For you who prefer the modern way to "climatize" your home the year 'round, the electric heat pump is the ideal solu-

tion. The same, compact unit which cools your home in summer, will heat it in winter. Or if modern heating is your prime interest, you can select from a variety of electric heating installations the one which best suits your plans.

Whichever you choose, your family will enjoy the safe, flameless clean heat which only electricity can provide. Just call or write your nearest CP&L representative for the facts on this modern way to heat by wire instead of fire. Or mail the coupon below—no obligation of course.

FREE FOLDERS

on the Electric Heat Pump, Electric Heating and the Medallion Home are available at your CP&L Office or just fill out the coupon shown here.
