Your Health

By DR. BERL R. LEWIS
Chiropractor
Morehead City, N. C.

In summer we make many adjustments in our living habits for the sake of comfort. We use our wits to "beat the heat." It is natural and fitting to do this. But our search for comfort should not be the end of our efforts. How about the matter of health? Oftentimes health is injured by things people do in order to be comfortable. Comfort and health should go together. But since our "chats" deal with health we shall confine our discussion to it. From a health viewpoint summertime has its hazards as well as its benefits. To enjoy the benefits and to avoid the hazards we should profit by scientific knowledge, which comes from others, and by intelligence and self-control, which we must exercise for ourselves. Swimming is healthful exercise but it should not be done soon after a heavy meal, as paralyzing cramps may strike suddenly and result in drowning. And newspapers still carry stories of

broken necks and fractured skulls from diving in shallow water. Fishing is one of the most healthful of sports. For those who enjoy it, fishing relaxes mind, muscle and nerves as few other pastimes do. Victory gardens do more than supply additional quantities of food. They contribute to the gardener's health. Gardening promotes deep breathing of fresh air, exercises muscles, and improves the circulation of the blood. Summertime health activities are a matter of individual choice. What appeals to one person will not appeal to another. But everyone should have some kind of recreation, preferably in the open air and in the sun. If everyone will eat intelligently, avoid the hazards mentioned above, and follow some interesting outdoor pastime, summer will prove to be a season of good health.

WANTED!

"200" loyal citizens of Beaufort and vicinity to invest \$5 per year for the next four years during the "Civil War" centennial celebration to keep the Beaufort Historical Association alive so that we may keep the whaling museum open, re-enact the Spanish Invasion each year, and get started on establishing a permanent museum in and around the old county jail.

This building, which was built in 1832, was the first building built on the Courthouse square after it was set aside as county property.

We cannot do any of these things unless you salaried people — government employees, school teachers, pupils and even retired people, are willing to help. The businessmen will pitch in when you show your willingness and support.

We have set individual voting membership dues at \$5 per year, family groups or businesses \$25 per year.

You can pay your dues to Joyce Fulford at First-Citizens Bank, Beaufort, Grayden Paul at Paul Motor Co., Beaufort, or mail to Box 218, Beaufort, N. C.

Come on folks, let's cash in on the publicity we got last year and make our town and county attractive to the thousands of tourists passing through. It would be a shame to throw away all of last year's effort.

It will be easy if you do your part. We are not offering any "Admiral's Commissions," but we do need a lot of "First Class Seamen" and a few "Ensigns."
