

Civil Defense Radiological Course Starts

Through the efforts of Harry G. Williams, county civil defense director; Gerald Woolard, civil defense director for Beaufort, and Robert C. Slater of Machine and Supply Co., a course in radiological monitoring is being given at the US biological laboratory, Pivers Island.

The laboratory staff of the radiobiological program is assisting with lectures on basic radiobiology. Mr. Slater is instructing in the use of radiation instruments.

U. S. biological laboratory members participating are Dr. T. R. Rice, chief of the radiobiological program, George H. Rees, Thomas J. Price, Thomas W. Duke and David W. Engel.

Participants in the course were selected by Mr. Williams to represent various areas of the county. They will meet for two hours each Monday for three weeks, and at completion of the course should have sufficient training to measure and report radioactivity throughout the county in the event of an emergency, he said.

The first meeting was held Monday night. G. B. Talbot, director of the laboratory, welcomed the participants and introduced the speakers. Mr. Rees presented a lecture titled Basic Aspects of Radioactivity.

A film, A is for Atom, was presented, and Mr. Slater lectured on An Introduction to Nuclear Radiation Detection Instruments. At the close of the meeting, individual instruction was given by staff members on the use of radiation detection instruments.

Participants at Monday's class were: Raymond H. Hall, Alvah North Willis, Dr. John Gainey, Mr. and Mrs. David C. Willis, all of Morehead City.

Joseph Minatel, John Thrower Jr., Henry E. Crank, J. A. Holcomb, all of Newport.

Gerald Woolard, Dr. David Farrior, John G. Jones Jr., R. M. Williams, Dr. M. T. Lewis, all of Beaufort.

Miss Georgina Yeatman and Mrs. Mildred W. Mulford, Open Grounds; Lester L. Hall Jr. and Leedy B. Lewis of the National Guard.

Leon K. Thomas, Marshallberg; Jimmie Leonard, Atlantic Beach.

Club Endorses 4-H Program

The Emeritus club, in session Monday night at Webb Memorial civic center, Morehead City, endorsed the 4-H Development fund and the county program to establish a 4-H camp here.

The club authorized writing of letters to the chamber of commerce, suggesting that ships calling at the state port be opened to visitors, that a log race be added to crab derby events, and that headquarters for an inland waterway association be established at Spooner's Creek harbor.

The letter about the crab derby is also to include congratulations to the chamber for its participation in sponsoring the derby. The derby was held at Morehead City this past summer, and is scheduled to be held at various coastal cities annually.

The log race would involve two men riding a log, propelling it at each end by paddling. The race would involve more than one log, of course.

The proposed waterway association would be organized for the purpose of publicizing the waterway. G. F. Waddell reported that improvements are being made at the city park which will make it more attractive to visitors.

The club's next meeting will be a ladies' night Monday, Dec. 18.

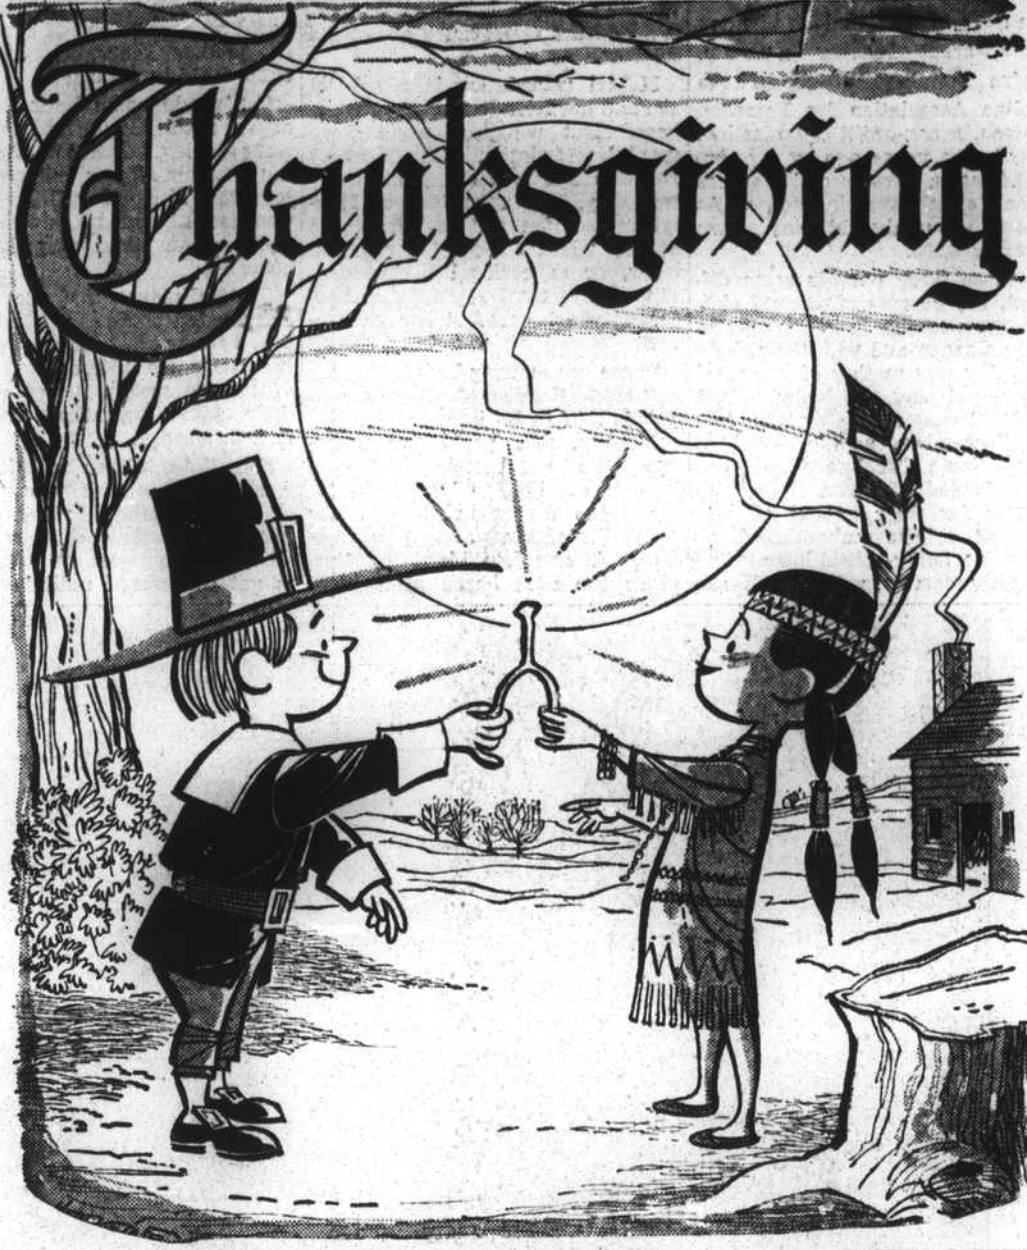

Grayden Paul Speaks to Club

Former Rotarian Grayden Paul spoke to the Beaufort Rotary club Tuesday night. The club met at Dora dinette. Mr. Paul was the guest of program chairman James Davis.

Mr. Paul's talk was on the folly of building fallout shelters. He remarked that Noah's ark was the first "fallout shelter" and he mentioned numerous times in history when men have reverted to shelters of one kind or another to escape holocaust.

The speaker commented that all those men except Noah, who acted on Divine advice, were foolish and should have put their efforts towards eliminating the cause of the disaster.

Visiting Rotarians were Dr. John Morris, Morehead City, Ben Humphrey, Whitesboro, Va., and Walter Spaeth, Medford, N. J.

School Will be Scene Of Big Auction Dec. 5

An auction to put all auctions in the shade will be sponsored at 7 p.m. Tuesday, Dec. 5, at Beaufort school.

"White elephants" as well as services by noted persons will be auctioned off by Grayden Paul, who has been retained by the sponsoring organization, the PTA, as auctioneer.

Intermission entertainment at the affair will be under the supervision of Mrs. William Murray. Admission will be 15 cents. Refreshments will be available.

Besides the white elephants, many home-baked items will be auctioned.

Up for grabs will be sheriff Robert Bell's instructions on how to smash a still; chief of police Guy Springle, an hour's baby-sitting; street commissioner John Jones Jr., driveway sweeping.

Postmaster J. P. Betts, licking 100 stamps; principal Albert Gainey, a pecan pie baked with his own hands; Miss Faye Mason, a lesson on doing the twist.

7-Year-Old Boy, Car Collide

Seven-year-old Delmar Piner Golden, route 2 Beaufort, suffered cuts on the face at 7:45 a.m. Wednesday when he ran into a car driven by John C. Hamilton, Atlantic, on highway 70.

R. H. Brown, state trooper who investigated, said that Mr. Hamilton was driving toward Beaufort in a 1962 Mercury. The driver told the officer that he saw the boy on the left side of the road and slowed down.

By the time the youngster darted into the path of the car, the car had almost come to a stop. The driver took the boy to the Morehead City hospital where he was given emergency treatment.

The accident happened near the boy's home, between Beaufort and Hardesty's corner.

Low Bid Announced

Wilmington — Col. R. P. Davidson, district engineer, Corps of Engineers, has announced that J. A. LaPorte, Inc., of Arlington, Va., is the low bidder, \$172,100, for the removal of approximately 600,000 cubic yards of shoaled material from the Atlantic Intracoastal Waterway between Alligator River, N. C., and Little River, S. C.

County Experiences Fall's First Heavy Frost

County residents awoke Wednesday to find the year's first heavy frost on the ground. The overnight frost was accompanied by a low reading of 36 degrees, according to information recorded at the Atlantic Beach weather station.

The station also recorded the following temperature ranges and wind direction for Monday and Tuesday.

	High	Low	Wind
Monday	50	42	NNW
Tuesday	52	33	Ves

No Meeting

The Morehead City Rotary club did not meet last night, because of the Thanksgiving holiday, according to Rotarian Albert Gaskill.

Santa Will Arrive in Beaufort At 5 P.M. Friday, Dec. 1

Christmas Seal Letters Go Out This Week

The 55th annual Christmas Seal campaign for the tuberculosis association got under way this week with the mailing of Christmas seal letters. Volunteer groups who prepared the mailing were from Morehead City and Beaufort high schools.

The typing of address labels was done by 23 members of the second year typing class in Beaufort and was under the direction of Mrs. Harriet James, typing instructor.

The rest of the mail preparation was done by the Future Business Leaders of America of Morehead City High School. Christmas Seal chairman Patricia Harrelson led the club of approximately 50 members in pursuing one of the main objectives of their organization, community service.

County president Grover Munden has said, "Christmas Seals on holiday mail makes it FEEL like Christmas, and the big job of getting the traditional Christmas seal mailing ready is done entirely with volunteer help."

"The assistance given by these generous friends of the association saves hundreds of dollars and thousands of hours of staff time. Your donations are then put where they will do the most good—into TB control activities right here in our county."

The 1961 Christmas Seal was picked from several hundred entries submitted by persons from all over the United States, and features a family happily engaged in Christmas activities.

Paper Out Early

Although this paper is dated Friday, it went to press Wednesday. Where the word "today" is used throughout the paper, it refers to Friday, the date appearing on each page. Early publication is due to the Thanksgiving holiday.

Prizes Will be Given Pets, Parade Units

Santa Claus will arrive in Beaufort in a gala Christmas parade at 5 p.m. Friday, Dec. 1.

At that time lights in the town's Christmas decorations will be turned on. Firemen started last week to put the decorations up.

Port Calendar

Morehead City State Port

Shizuoka Maru—Docked yesterday to load tobacco for the Far East.

Tuebingen—Due today to load tobacco and lumber for Europe.

Fernstate—Due today to load cargo of tobacco for the Far East.

Esso Raleigh—Due today with petroleum products from Standard Oil.

Wurttemberg—Due Sunday to load tobacco for Europe.

Mandeville—Due Monday with import tapioca cargo.

Ohshima Maru—Due Nov. 27 to load tobacco for Japan.

Tagaytay—Due Nov. 28 to load tobacco cargo for the Far East.

Negrosan Maru—Due Nov. 30 for tobacco for Japan.

Kokoh Maru—Due Dec. 1 to load tobacco for Japan.

Shizuoka Maru—Due Dec. 1 to load tobacco for the Far East.

Driver Cited After Car Turns Over Wednesday

Juan Rafael Munoz Jr., Cherry Point, was charged with speeding yesterday after the car he was driving ran off the Salter Path road and turned over.

The accident happened in front of the Coral Bay club at 9 a.m., according to R. H. Brown, state trooper who investigated.

Munoz, in a 1961 Falcon, was headed toward Atlantic Beach. He lost control of the car. It went into a skid, and landed on its top. Damage was estimated at \$500. Munoz hurt his left arm.

How It Would Look

This is an architect's drawing of the proposed state 4-H camp in this county. The site is in the Merrimon section at Adams creek and Nense river. Funds are now being raised for the camp. Persons interested in contributing should mail their checks to Earl Lewis, c/o Belk's Store, Morehead City.

Survival Plan Being Prepared, Director Says

Harry Williams, county civil defense director, announces that a county survival plan is in the process of being prepared. Until it is submitted to the state civil defense office, the county will not be eligible to receive surplus property, Mr. Williams said.

Nineteen persons who are in charge of the different phases of civil defense are cutting the stencils needed to reproduce the full plan. Fifty copies of the 453-page plan will be required.

Mr. Williams said, "We have in Carteret County, four towns who have their own Civil Defense Directors. They are, Newport, Morehead City, Atlantic Beach and Beaufort. These towns are required to submit an appendix to the basic county plan. This appendix consists of from one to six pages."

"The directors of all these towns with the exception of one, have offered to help draw up the county plan. In the event of an emergency, the civil defense in these towns would operate under the control of the Carteret County Civil Defense agency."

Menhaden Run Off Hatteras

Menhaden boats found some fish this week off Hatteras, but things are running late this year.

The season is 10 to 12 days late, according to menhaden factory operators. The fall was too warm and when the weather turned cool, boats couldn't get out because of rain and wind.

Approximately 40 boats are in Carteret waters. They fished Tuesday and Wednesday. Beaufort Fisheries processed its first large, fat menhaden Tuesday night, the kind of fish that are rich in oil.

Last year they processed their first big shad Nov. 9. Whether the late season means that fishing will continue through Christmas is questionable. Boats from other states usually leave by Christmas whether the season starts early or late.

The boats will fish Thanksgiving Day, weather permitting.

Port Workman Hurt Tuesday

Willis Byrd, 35, Harlowe, was improving at the Morehead City hospital yesterday after being injured Tuesday when a fork lift ran over him at the state port.

Mr. Byrd was backing his machine when it collided with a truck that had just unloaded and was moving out of No. 2 transit shed. (A fork lift is a machine that moves hogsheads of tobacco.) The accident happened Tuesday morning.

The impact of the collision knocked Byrd backwards off his fork lift. Because it was in reverse, it ran over him. He could be freed only by the lift's being driven off.

He suffered fractured ribs on his left side, cuts and abrasions, plus other undetermined injuries to his left shoulder, arm and chest.

Still conscious, he was taken to the Morehead City hospital by ambulance. Mr. Byrd is employed by the State Ports Authority.

Two Radios Stolen Out of Window

Two transistor radios were stolen from the display window of Blanchard's at 1 o'clock Tuesday morning.

Capt. Joe Smith said the display window was smashed by a piece of cement hurled through it. The rock, about 5 pounds in weight, hit a third radio and damaged it.

Capt. Smith said the patrol car had just left the business section and was on its return trip when it received a message by radio that the window had been smashed.

The theft is under investigation.

Meeting Called

A meeting of the county ministers' association has been called for 10 a.m. Monday, announces the Rev. Charles Kirby. The meeting will be held at the civic center, Morehead City.

Woman's Club Seeks Gifts For Morehead City Park

Woman Hurt In Collision

Extensive damage was caused to two cars at 1:30 p.m. Tuesday at the intersection of highways 101 and 70, Beaufort. Drivers involved were Mrs. Fanny Martin, Beaufort, in a 1960 Falcon and Brady Gillikin, Otway, in a 1957 Ford.

Mrs. Martin suffered a shoulder injury, according to W. J. Smith Jr., state trooper who investigated.

According to the officer, Gillikin, headed east, turned left on to 101 from 70 and struck Mrs. Martin's car on the left front. She was headed toward Beaufort on highway 70.

Gillikin was charged with failing to see that he could make a movement on the highway in safety.

The Morehead City Woman's club will sponsor the second annual city park day Wednesday at the municipal park on Arendell street. Mrs. M. J. Loutit is chairman of the project.

This year the club is trying to get playground equipment for the park. Mrs. Gus Davis, Woman's club president, said anyone who has play equipment in good repair they will give to the park may contact her. The Civitan club voted last week to buy some equipment.

Also badly needed at the park are shrubs and topsoil. Persons having either one to give are invited to come by the park between 1 p.m. and sunset Wednesday. Members of the Woman's club and Jaycees will be on hand to plant anything offered.

Mrs. Loutit said flower beds are available to Girl Scout troops who would like to take the upkeep of a bed as a project. Interested troops should contact Mrs. Loutit.
