## Republican Caravan Travels County

### H. L. Joslyn Will Run for Assembly

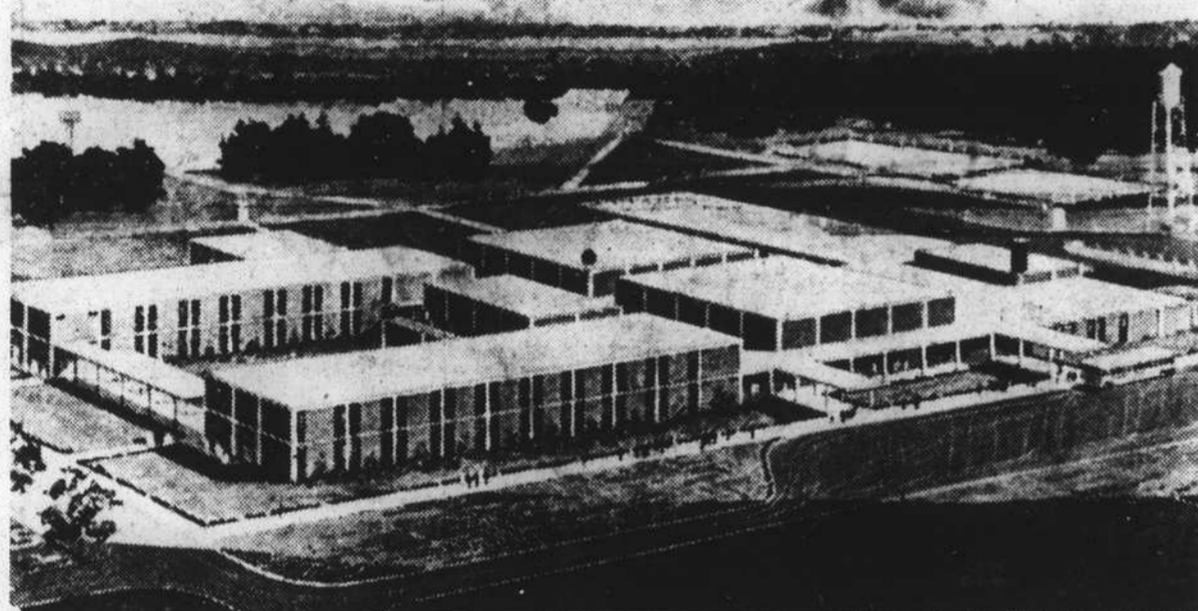

#### West Carteret School Plans Approved

This map shows the location of the West Carteret high school. The site is 25 feet above sea level and well suited for the extensive school and campus that is planned, according to A. R. Davis, architect. (Map furnished by Leslie Bercegeay, Newport.)

**Planners Note Cooperation Of Officials**

- OEDP Application Being Prepared
- Dr. L. J. Dupree Re-Named Chairman

This is the architect's drawing of West Carteret high school, as it will look when all five phases of construction are completed. Phase 1, which will be constructed now, includes the wing that projects farthest left in this picture; at the right end of that wing where a round black dot appears on the roof is the gymnasium. Just to the left of that black dot is the section housing the library. The section farthest to the right in the picture houses the heating plant and cafeteria; adjoining that section will be the vocational department.

The long wing that extends closest to the bottom of the picture will not be built in this phase, except for a portion to the right, next to the library, which will contain offices. The large block section immediately to the right of that is the auditorium, which will not be built in the present phase.

In the background is Newport river. The building is situated in a southwest-northeast direction to take advantage of prevailing southwest winds. It will also be constructed to permit air conditioning if desired, at a future date.

At the lower left, where trees are seen, is the parking area for students and visitors. To the right, near the water tower, is parking area for the faculty. Athletic fields, including a track, are in the upper left, upper center, and upper right of the picture.

The school buses will stop in the area at the lower right. The covered walks to the bus area will not be built until the auditorium is constructed.

#### Board Reviews Debt Status

Presented to Beaufort town commissioners Monday night was a statement of the status of the town's bonded debt.

Budgeted for payment this fiscal year on the total debt of \$325,500 is \$45,000. Of that \$45,000, \$7,000 has been set aside. Purchase of \$53,000 in bonds is anticipated, and of that amount \$27,500 has already been used to buy bonds. In addition to the \$45,000 budgeted, there is a sinking fund \$20,367. (The debt, prior to purchase of \$27,500 in bonds was \$352,500.)

According to the debt retirement plan, the town will be free of debt in nine years, in fiscal 1970-71.

The monthly financial report showed the town's total income for September as \$4,397.51, as compared with \$18,372.10 in August. The large August income was due to taxes. Because tax bills went out late this year, tax income was still heavy in August.

Received from the state in intangible taxes also in August, was \$2,196.03. ABC store payments in August were \$486.15, as compared with \$700.34 in September.

The town's income to date in this fiscal year is \$48,499.87, as compared with receipts of \$18,789.31 by the end of September 1961. The bank balance as of Oct. 1 was \$5,959.06 and all accounts owed by the town were paid.

The financial report is compiled monthly by Ronald Earl Mason.

#### Honored by Club

Mrs. John Johnson, Beaufort, who recently retired after 35 years with Carolina Telephone and Telegraph Co., has been selected by the Carteret Business and Professional Women's club as the Business Woman of the Year.

The selection is made each year during National Business Women's week, which was observed last week. Mrs. Johnson will be honored with a certificate, to be presented at the November meeting of the B&PW club, of which she is a member.

Former winners have been Miss Maybelle Neal, Beaufort; Mrs. Lovie Fulcher, Atlantic; and Mrs. Lucile Arthur Smith, Morehead City.

More than a hundred persons, most of them from the Morehead City and Newport areas, attended the meeting Thursday night at the courthouse to see the plans for the West Carteret high school.

Toward the end of the meeting, proposals that steps be taken immediately to proceed with construction, met with applause. A legal notice requesting bids appears in today's paper.

Archie Royal Davis, architect, projected on a screen the drawing of the finished school and floor plans.

The school is designed to be constructed in five phases, the first of which will be built now and cost \$800,000.

The first phase will include a gymnasium which will seat 2,000, contain locker rooms for boys and girls and visiting teams. The gym will be used as an auditorium until the auditorium is constructed in a future phase.

The first phase will also include a boiler room, with space for expansion, a cafeteria, a portion of which will contain two classrooms later to be removed as more cafeteria space is needed, a science wing, shop area for vocational instruction, administration offices, a football field and baseball field, both equipped with lighting for use at night.

The school will have its own water system with a 25,000-gallon tank. The heating will be by a hot water circulating system. Estimated cost of the total plant is \$1½ million and it is designed to accommodate 1,500 to 1,800 students.

Mr. Davis said the plans have been approved by the State Dept.

(See SCHOOL Page 2)

H. L. Joslyn, county superintendent of schools, received an overwhelming vote for general assembly candidate in the Democratic executive committee meeting yesterday morning at the courthouse.

The vote was 41-3, according to A. H. James, chairman of the committee. A faction in favor of Skinner Chalk Jr., Morehead City, placed Mr. Chalk's name before the committee. The ballot was taken on the two.

Mr. Joslyn is a resident of Morehead City. For 25 years he was principal of Morehead City school and then accepted the position of county superintendent of schools, succeeding J. G. Allen.

Selection of a general assembly candidate was necessitated by the death Monday, Oct. 8, of D. G. Bell, Democratic candidate. County ballots for Nov. 6 had not been printed and were held up pending action of the Democratic committee yesterday.

Absentee ballots, already printed and bearing the name of D. G. Bell, will have to be reprinted. Charles Willis, chairman of the county elections board, said yesterday.

Mr. Joslyn's opponent in the November election will be Thomas Bennett, Morehead City Republican.

Republicans whooped it up from Cedar Island to Newport Saturday with a motorcade, climaxed by a barbecue at Newport where the speaker was John D. Wilkinson, Washington, D. C.

The motorcade, carrying Republican candidates, started at Beaufort at 8 a.m., went east to Cedar Island, through Beaufort and Morehead City, followed highway 24 through the western precincts and ended at Newport.

Close to 400 attended the barbecue at the Newport school cafeteria. Mr. Wilkinson, noted Republican and humorist, was introduced by C. R. Wheatly Jr. E. D. Willis, chairman of the county Republican committee, presided.

Candidates spoke briefly. They were Kenneth Wagner, Gordon Hardesty, Gerald Murdoch, Jim Hux, and Headen Willis, for county commissioner; Thomas S. Bennett, general assembly; Shelby Freeman, clerk of court; Mrs. Ruth Richardson, register of deeds, and E. D. Willis, sheriff.

There will be another motorcade Saturday, ending with a free fish fry at Cedar Island beach.

A large crowd attended the Republican rally Friday night at Atlantic. Candidates spoke, stressing the freedom of the individual to vote for whomever he chooses Nov. 6.

The Harkers Island Republican headquarters opened Saturday. From 7 to 8 p.m. Friday, Mrs. Richardson was guest of honor at a party at the home of Mrs. Nannie Willis, Harkers Island. Several other Republican candidates were also present.

Mrs. Ben Alford will be hostess at a coffee for Republican women at her home this morning and Mrs. Richardson will be honored at 7 o'clock tonight at Salter Path, at a party given by the women of Salter Path.

#### Elections Board Makes Changes

The board of elections went over the weekend, to Sea Level and Atlantic, set a new division line between the two precincts, and named two new registration places.

The new registration place at Atlantic is the theatre building and at Salter Path the community building.

#### Two Arrested On Theft Counts

Charged with committing recent break-ins in the Cedar Point section of the county are Charles Edward Carpenter, 25, and Donald Lee Rudd, 19, Camp Lejeune.

The two are being held in Onslow jail for trial there on charges of entering places in Onslow county, according to Carteret deputy sheriff C. E. Bunch.

Carpenter and Rudd allegedly entered Angelo's drive-in Oct. 3 and the Rip-Tide Drive Inn Oct. 5. Both are located at Cedar Point.

At Angelo's the juke box and cigarette machine were broken into and at the Rip-Tide, nine silver dollars and a radio were taken. There also the juke box and cigarette vendor were entered.

The youths were apprehended in Jacksonville Saturday, Oct. 6. In a pickup truck allegedly owned by Rudd, the stolen merchandise was found by members of the Onslow county sheriff's department, deputy Bunch said.

#### Salvation Army Drive Starts

The annual Salvation Army fund drive is now under way, announces Sam Adler, chairman.

Mr. Adler reminds folks that the Salvation Army unit of Morehead City and Beaufort provides food for the hungry, clothing, and a home-hospital for unwed mothers-to-be.

Contributions to the Salvation Army enable the continuance of this work, Mr. Adler points out.

Mr. Adler attempted to retire as chairman of the drive a couple years ago, but has been prevailed upon to continue. Contributions may be mailed to Mr. Sam Adler, Salvation Army Chairman, Morehead City, N. C.

#### Floridian Cited Following Crash

A North Miami, Fla., resident was arrested in Beaufort Sunday, and charged with drunken driving and hit and run after her car struck a parked car at the intersection of Ann and Craven streets.

Frances E. Parker, 55, was placed under \$250 bond to await trial, police said.

The parked car, a 1957 Dodge, belonged to William R. Ross, Beaufort, and was struck in the left door and fender. Damage was estimated at \$75.

The Parker car, a 1957 Olds, was damaged on the right hand side. The accident occurred at about 3:45 p.m. Both the parked car and the Olds were headed west at the time of the accident.

#### H. Deaver Held For Forgery

Horace Deaver, Morehead City, waived preliminary hearing in Morehead City recorder's court yesterday and was held for grand jury action on a forgery charge. Deaver reportedly forged two \$80 checks.

According to police, Deaver entered the office of Tarheel Grain Co., where he was formerly employed, Saturday, Oct. 6, and used the check-writing machine to make out eight checks payable to John Bordeaux, an employee. The name of Leon Clifton, manager, was forged on the face of the checks and Mr. Bordeaux's name was written on the back.

Deaver was arrested Thursday after two of the checks were cashed, one in Beaufort and one in Morehead City. Deaver, who reportedly has admitted committing the felony, says that he destroyed the remaining six checks.

Bond was set at \$1,000.

Grayden Paul, Beaufort, and Mrs. Jack Barnes, Shell Landing, display campaign literature at the Republican headquarters, Front street, Beaufort.

Advice to voters is splashed over the front of the campaign headquarters in Morehead City, just east of the D. B. Webb store.

#### Speaker Reports on Cancer Congress Held in Moscow

Dr. Rachel Davis, Kinston, who spoke to the county cancer society Wednesday night in Morehead City, reported on the seventh International Cancer congress at Moscow, which she attended this summer. She was introduced by Dr. Herbert Webb, Sea Level, vice-chairman of the county cancer society.

Five thousand doctors attended the meeting, which was held in the Hall of Congress in the Kremlin. The six-story building covers a city block, she reported.

Each chair in the auditorium, which seats 6,000 persons, is equipped with earphones and 12 language buttons, permitting the listener to have the program translated in the language of his choice.

Throughout the six days of meetings the Russians emphasized their desire for Peace, Peace, Peace! According to Dr. Davis, it seemed to be their primary concern that everyone know that the United States, not they, are the war mongers.

Despite the propaganda, and despite the fact that most of the scientific papers were reported as being something that the Russians had already accomplished several years ago, Dr. Davis said she gleaned much from the discussions. It was a correlation of scientific data collected all over the world in the field of cancer for the past four years.

Some progress has been made, but nothing spectacular, the speaker said. The greatest progress was made in instruments and examination equipment for early diagnosis, early treatment, and prevention. Individuals are known to have a body chemistry which makes them prone or resistant to cancer.

By the use of polarized light it can be determined whether cells are prone. This is used primarily in research centers. The Japanese have perfected a movie camera 1/3 inch long which will take a

(See REPORT Page 2)

#### Two Cars Involved in Minor Accident

Two cars were involved in a minor accident Friday at about 1 p.m. in Morehead City.

Walter Gray Kittrell, route 1 Morehead City, was pulling out of a parking place in front of the E.J.W. Tackle Shop on Arendell street at the same time Charles Benjamin Walton was backing out of another parking space beside the shop, police said.

The cars collided, damaging the Kittrell car about \$50 in the right front door, and the Walton car about \$25 in the right rear body. Kittrell was driving a 1960 Corvair and Walton a 1958 Volkswagen.

No charges were filed by police chief W. H. Griffin, who investigated.

#### Coast Guard Aids Cruiser, Outboard

The Coast Guard aided two craft with engine failure over the weekend.

The Lualaba, a 38-foot cabin cruiser, was towed Saturday to Morehead City from the No. 4 buoy in Bogue Sound. Six persons were aboard.

Manning the Coast Guard boat were George Garrett, BM2, Gary Plough, EN3, and Larry Medlin, SN.

A 16-foot outboard with three persons aboard was towed in Sunday from the Beaufort inlet buoy No. 4. The boat was owned and operated by Vernon F. Pope, Durham.

Making the assist were Howard Jones, BM1, Claude Moon, DC1, and Steven Sheppard, SN.
