Hospital

(Continued from Pg. 1)

Mr. Henderson replied, "There is urgency in doing something there one way or the other." Morehead City town commissioners have taken the attitude that a county hospital is in "never-never land" and they may have to keep the Morehead City hospital operating, perhaps as a non-profit corporation.

The chairman of the city hospital board of trustees conferred with Mr. Hamilton after town commissioners launched an investigation on keeping the hospital operating as a non-profit corporation. The opinion has been advanced, therefore, that the trustees and town commissioners probably don't see eye-to-eye.

The Medical Care commission has stated that the Morehead City hospital must close if and when a county hospital opens its doors. Morehead City hospital is now operating in the black and as such, some municipal officials feel that closing it may not be a wise move.

St. Francis was First To Re-Create Nativity

Re-creating the Nativity Scene at Christmas, with Mary, Joseph, the Infant Jesus and the animals of the manger, originated, many scholars believe, with St. Francis of Assisi on Christmas Eve 1223 in the little mountain town of Greccio, Italy.

Wishing to dramatize the birth of Christ for his parishioners, St. Francis and his helpers set up a realistic representation of the manger scene.

John F. Misdom, Cherry Point, was taken to the Morehead City hospital at 9:45 p.m. Wednesday after his car crashed on the Country Club road at the Forest Hills subdivision. Misdom was charged with driving drunk.

According to J. W. Sykes, state trooper who investigated, Misdom was headed toward the golf club, went off a curve on the right, started skidding, crossed to the left of the road, hit a fence, started turning over, cut a tree in two and the car ended up on its wheels.

It was a 1962 Tempest. Damage was estimated at \$1,500. The fence belonged to J. T. Barnes. Misdom was taken to the hospital by a resident in the area.

1963 Forecast Will Appear In Next Issue

To be published in the next issue of THE NEWS-TIMES is the 1963 business forecast by Roger W. Babson, internationally-known business commentator and investment advisor. An outstanding feature of his philosophy has been his life-long insistence on the importance of both religion and advertising in business.

Born and reared in an old-fashioned atmosphere of hard work

and hustle on a farm in Gloucester, Mr. Babson went to the Massachusetts Institute of Technology. Upon graduating, he turned to financial and business activities in which his father was engaged.

His exertions, however, undermined his health; he contracted tuberculosis and he was sent West "as good as dead." It was while he was convalescing from this illness that he worked out some of the possibilities and problems of business forecasting.

His weekly releases are used by over 400 newspapers and his financial reports by 20,000 corporations and estates. His research work is carried on by a large staff of experts.

Mr. Babson has probably done more than any other man to create among his millions of newspaper readers an interest in simple business problems, and to instill a broader vision in businessmen, enabling them to meet the ups-and-downs of the business cycle.

School Drill Conducted; Firemen Answer Alarm

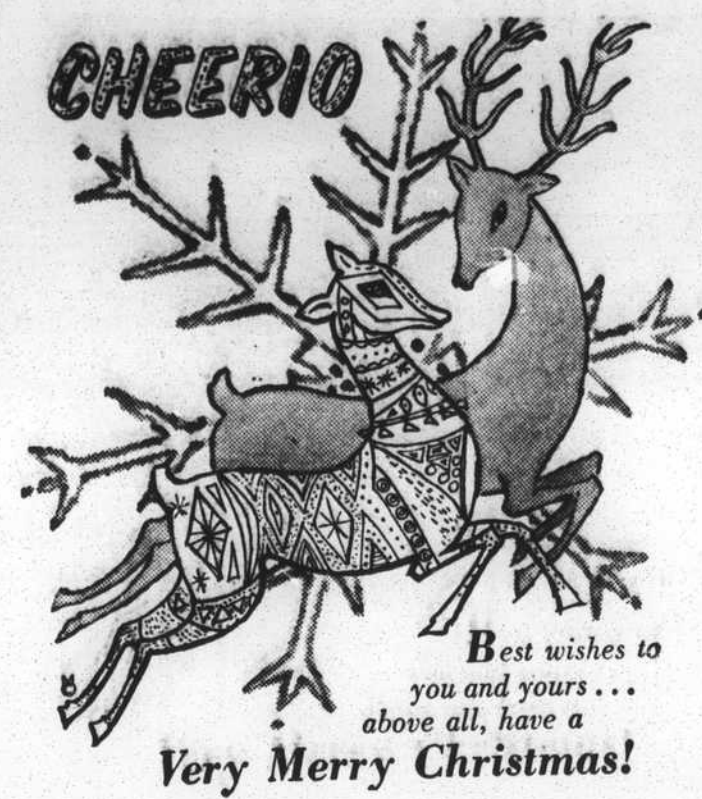

Morehead City firemen conducted a fire drill at the Morehead City school Monday shortly before noon. All students and teachers participated.

The drill was followed by an inspection of the buildings by firemen for fire hazards.

One call was made by the fire department, at 1100 Avery St., Tuesday at 5:30 p.m. An overheated stove was the cause. But the trouble was brought under control before the firemen arrived.
