Cash Prizes to be Offered

Former County Official Calls Impending Hospital Debt Unwise

The county board of commissioners should reconsider their decision to build a county hospital, according to Skinner A. Chalk Jr., former county commissioner, who was serving on the county board at the inception of the proposed county hospital program. Mr. Chalk has closely studied hospital operation, both governmentowned and private. He reviews in the article below the hospital needs and facilities in this county, as compared with other locales.

Mr. Chalk urges reconsideration of county hospital construction because of the change in needs in this county since 1960, when voters approved borrowing of money for a hospital. The change in need has come about because of the addition of 40 beds at Sea Level hospital and other factors, the former commissioner says. His comments:

The Duke Endowment annual report for 1961 (latest year available) shows the number of beds and admissions per 1,000 of population as follows:

Number **Beds Admissions** North Carolina 3.3 137 South Carolina ... 2.8 United States 3.6 128

Carteret county's population, according to the adjusted 1960 US census, was less than 28,000. This means we need 92.4 beds if we equal the state average. We have now 75 beds at the Morehead City hospital and 50 beds at the Sea Level hospital. The proposed 75bed hospital for Morehead City (assuming closing of the present hospital) and 90 beds at Sea Level on completion of the present addition, would provide 165 beds for Carteret county.

This means we will have 78 per cent more beds than the state average and almost 64 per cent more than the national average.

North Carolina ranks 47th in the 50 states in per capita income and 50th (on the bottom) in hourly rate manufacturing income. We are 60 per cent worse off in low income families than the most prosperous counties in our state, with 35 per cent of all families in Carteret having an annual income of \$3,000 or less, according to the 1960 US census report.

The number of admissions to the year ending Sept. 30, 1962 are 6,232. plan for overall economic develop-This means that we had an admis- ment. sions rate of 222 compared with 137 for the state and 128 for the United States.

Is this because we have more sickly people? No. This indicates EXTENSIVE OVERUSE of existing facilities. Several studies made by independent research groups indicate such unnecessary overuse is general throughout Michigan, New York and other states. It is difficult to see why we should be so much less healthy, or more ac-

At first, when heavy storm tides front, bull dozers attempted to for failing to see if a movement in build a wall against the ocean by traffic could be made safely. pushing sand from behind the beach on to the beach. It was found, Mr. Hassell says, that these dunes just melted away.

Then he started putting bulldozers on the beach at low tide and pushing sand landward to the shore. One change of the tide filled up, with sand from the ocean, the tremendous hole that was dugand the dunes that were built stay-

Groins, heavy rocks jutting out into the ocean, and better known as jetties, are a good way to build up the beach-possibly the best, but such work is tremendously expensive, Mr. Hassell points out.

Jetties are good because they cut tide action, relieve pressure of currents on the beach and thus keep the tides and currents from cutting the land away.

Beach reconstruction and projects designed to keep the state's outer banks from washing away will be discussed at a hearing at 10 a. m. Saturday in the Craven county courthouse, New Bern. The hearing is being conducted by a sub-committee of the Outer Banks Seashore Park commission.

By TOM SLOAN

The nation and Carteret county began the observance of Civil Service Week Sunday, commemorating the 80th anniversary of signing of the Civil Service Act in 1883.

Over two million workers, the largest force in the world, are employed by the Federal government. The civil service worker is an important factor in the economy of this county, with a relatively high percentage of the citizens employ-

ed by the government.

SPA to Discuss **Southport Work**

Ports Authority **Meets Today**

 Director Confers With Beaufort Group

The State Ports Authority, meetng today at Wilmington, will hear a report on how half a million dollars should be spent to develop port facilities at Southport.

The money was earmarked for Southport in funds appropriated for ports by the legislature six years

James F. Latham is head of a special SPA committee which has been working on recommendation for spending the Southport funds which have been lying unused for so long. There was a public meeting at Southport yesterday afternoon to discuss the committee's recommendations.

The committee has been considering a marina for small boats (many state-operated ports in other states have found this to be a rewarding venture), a fuel oil terminal or a cold storage plant.

It is also hoped that federal funds can be enticed into the project on a matching basis.

J. W. Davis, state ports director, met Saturday afternoon in Beaufort with Beaufort businessmen, at a meeting planned and arranged by mayor W. H. Potter. Accompanying him was Walter Friederichs, operations manager at Morehead City state port.

The state's proposals, relative toise of Radio island in port deelopment, were discussed.

Officers Report **Three Wrecks**; sorship of the agricultural extension service, will be supervised by **Drivers Cited** State troopers investigated three

recent accidents in the county. Charged Sunday with drunken driving was Bennett C. Kyle, Havelock, who in his 1954 Plymouth, piled into the rear of a 1960 Ford

The accident happened at the Masontown road and highway 70 intersection, west of Newport.

Driving the Ford was Miss Dianne Garner, Newport. The officer tion club with Mr. and Mrs. Bobby said Miss Garner had stopped on highway 70, headed west, waiting behind and failed to stop.

Kyle, 52, bit through his bottom lip and was taken to Morehead

Damage to the Ford was estimated at \$300 and the Plymouth was judged beyond repair. Neither the Jan. 25. Atlantic Home Demonstra- driver nor passengers in the Gartion club, expected to be held at ner car was injured.

John D. Nelson, route 1 Beaufort, was charged with drunken driving and hit and run at 6:15 p.m. Wednesday after the 1960 Pontiac he Chevrolet on the Lennoxville road.

The accident happened in front of Mack's place. According to trooper W. J. Smith Jr., Nelson was backing out from Mack's and when he crossed the center line of the Lennoxville road, collided with the Chevrolet, which was driven

by Steve Zucha, route 1 Beaufort. The officer said when Zucha went to notify police, Nelson "took said, save money, provide better off." Damage to the Pontiac was nourishment for families who have estimated at \$75 and to the Chev-
