

**ANNOUNCEMENT OF
GEN. JULIAN S. CARR
FOR UNITED STATES SENATOR.**

To the Democratic Voters of North Carolina.

At your last State Convention you declared through your delegates, in the platform adopted, in favor of a primary election on November 6th, 1900, to decide your preference for Senator of United States, for the term beginning March 4th, 1901. I favored this action then and I heartily endorse it now. The primary will be held; our party is not afraid to trust the wisdom of the people. All the supporters of our cause in the August election are invited to participate in the primary. For many years the conviction has come home to many of the best thinkers of the country, that the election of United States Senator should be committed directly to the people—the source of all political power. In the absence of the necessary and needed constitutional change the primary affords the nearest possible approach to an election of Senators by the vote of the people.

I hereby announce myself a candidate for United States Senator and ask your support in the primary. My record as a citizen and a Democratic is fairly well known to many of you. I ask for it no greater consideration than is justly accorded the records of those able and honorable gentlemen whose names have been mentioned for this high position. In this contest I shall not attempt in any way to detract from the merit of any competitor. We are all Democrats; we are all members of the same great political household; we have fought side by side its great battles; we have by united effort and undivided strength achieved its great triumphs.

In the recent election the great uprising of Anglo-Saxon manhood we achieved a notable victory, fraught with far-reaching and important consequences; imposing upon you the entire responsibility and burden of State government, and as a part of this imperative duty of providing adequate educational facilities for the boys and girls of our State. You will meet these greater responsibilities bravely and fearlessly and discharge their duties patiently and wisely. We are no longer, as in the past, to be kept busy with the cares of preserving our homes, but will reach out to participate more freely in the policies of the nation. We shall now strive on the higher plane of effort and statesmanship.

My political principles are those of the Democratic party; they find excellent and thorough expression in the National and State platform; I need not summarize their declarations. To each of them and both of them I yield most ready and unswerving support. They are the voice of my party speaking in its appointed channels. I obey that voice, and if your choice shall fall on me I shall in every way endeavor to have those declarations become the law of the land by appropriate statutes.

The industrial and educational progress of North Carolina will command my earnest attention and anxious services. Its agricultural interests will receive my watchful care and I will ever strive to foster and protect the same from hostile legislation. I have endeavored, as best I could, to aid in the agricultural, industrial and educational development and advancement of our State. I have endeavored to aid the public and private schools as far as I could. I believe, with confidence, I can accomplish more in these directions in the enlarged field of high official position, and aided by my experience and knowledge attract greater attention to the resources and opportuni-

ties offered by our state. The general upbuilding of Commonwealth will command at all times my earnest and loyal endeavor. I shall strive to protect our people from the dangers and disasters of Force Bills and preserve from Federal interference our New Constitutional Amendment, the submission and adoption of which by such an overwhelming majority adds new glory to the "Old North State."

The earnest solicitations of my old comrades in arms have influenced me no little in deciding to submit my name for your suffrages. The old Confederate Veteran realizes that the young men of a new generation will soon have charge of the old Ship o' State; a few years more and the last one of them with a halo of precious memories around him, will have fought his last fight and departed from the scene of action. But while he yet lives and lingers in sweet and sad memories of the past, he will feel a brighter satisfaction to be again represented in our highest Council by one of the "Boys that wore the Gray."

Fellow Democrats: My services have been yours in every campaign since I became of age; services gladly given without desire for, or expectation of reward, save only the gratification of a deep and abiding love for my native State, my people, my party and its glorious principles. My only ambition is to serve better my native State, aid more in its agricultural end industrial upbuilding and its educational advancement; to promote the welfare and happiness of its people, and should you choose me to serve you in the Senate of the United States my loyalty and devotion to my State in the past, in war and in peace, can give you assurance that you shall have the same measure of both in the future.

Yours very truly,
J. S. CARR,
Durham, N. C., Aug. 25, 1900.
