Farm Board Quits Buying Cotton as Well as Wheat—New Government Securities Marketed—Doings in Geneva.

By EDWARD W. PICKARD

Carl Williams, vice chairman of the board, announced that no further purchases of wheat or cotton would be considered under any circumstances.

PRICE fixing by stabilization has finally been abandoned by the federal farm board, as a great many citizens believe it should have been long ago.

The board's cessation of wheat buying had previously been announced, but the states, producer one by one, withdrew from the cotton market.

E. A. Cudaby, Jr., president of the Cudaby Packing company, gave notice that his company would invest 10 per cent of its southern sales up to December 1 in cotton bought on the open market.

WHATEVER the poor farm board does seem to anger a lot of Americans.

The trade of wheat for coffee, with Brazil, has been a wise move, but first the shipping interests waited because the grain was to go in Brazilian ships.

FARM BOARD GIVES UP STABILIZATION IDEA

It Will Not Buy Any More Wheat or Cotton.

Washington—Vice Chairman Carl Williams of the federal farm board announced that no further purchases of cotton or wheat would be considered under any circumstances.

"Stabilization," said Mr. Williams, "is a means of reducing wheat or seasonal surpluses. But the board has discovered, and it hopes that the American people have discovered, that continued purchases in the face of continued production is not a remedy for the agricultural situation."

One observer remarked that the farm board actually discovered this fact some time ago, but having the bear by the tail at that time, was not in a position to make admissions.

He said "summer tillage" was practiced to a considerable extent now below the 25-inch belt, adding that "summer tillage" was cultivating the soil and keeping it free of weeds without planting it to any crop.

A new wave of protests over the action of the federal farm board in trading 25,000,000 bushels of wheat to Brazil for 1,050,000 bags of coffee came from the milling business to the White House immediately after it was learned that Brazil had declared an embargo on imports of flour from the United States.

NATION SCOURED FOR VICTIMS OF POWERS

Confessed Slayer of 5 May Have Killed More.

Clarksville, W. Va.—The nation was scourred for trace of women with whom Harry E. Powers corresponded, to learn if more yielded to his lure of wealth and social position and died as did Mrs. Asta Elcher of Chicago.

Officers here checked and rechecked papers found in the possession of the podgy, forty-two-year-old student of "scientific crime," and admirer of Rudolph Valentino.

Meanwhile digging progressed about the Powers death garage near here for trace of any further victims, and the office discussed the possibility of a special term of court to try Powers for the five killings he has admitted, and interest heightened in the suggestion that Powers might have been responsible for the mysterious slaying in Washington of Mary Baker, Navy department clerk.

Search of an old well near Powers' garage revealed no further bodies, but police were not satisfied. Still doubting Powers' statement that the five he strangled and beat to death "are all there are," they made plans for using a steam shovel to tear up the acreage about the place and prepared to search the bed of a nearby creek.

CONFERENCES between Criminal Court Judge John E. Southern and Will E. Morris, Harrison county prosecutor, continued. Demands for prompt disposition of the Powers case pointed to the possibility of a special term of court to try Powers for the five killings he has admitted, and interest heightened in the suggestion that Powers might have been responsible for the mysterious slaying in Washington of Mary Baker, Navy department clerk.

SENATOR JOHNSON

Senator Hiram W. Johnson of California, in addressing the state convention of the American Legion at Long Beach, attacked the Hoover administration, declaring that it was "futile and inept" in its lack of policy for relief of the unemployed situation.

REVISION OF TAXES IS HELD UNCERTAIN

Hoover Program Not Yet Ready for Congress.

Washington.—The fact that the administration is unprepared at the close of summer to say whether it is looking toward tax revision in congress next winter was attributed to several factors, including the financial instability of Great Britain and Germany.

RELIEF PLANS GIVEN O. K. BY GOVERNORS

Owen D. Young Will Manage Funds Mobilization.

Washington.—The administration's plan for unemployment relief received approval from eight state governors as the national organization selected leaders in American industry to mobilize resources in local communities to meet the situation this coming winter.

Comments of the plan being carried out by Walter S. Gifford, national relief director, were received at the White House from five governors, while three previously had signified their hearty approval.
