Miss Steina Tomberlin spent last week visiting relatives in Tennessee. She was accompanied by Mr. and Mrs. Monroe McIntosh of Gane River.

Miss Irene Hill is at home after spending the past two weeks with her sister, Mrs. Cleve Mower in Madison County.

Mr. Cleve Hill, of Madison County, was visiting his parents, Mr. and Mrs. Sam Hill here Tuesday.

Mr. General Stovall of Mars Hill, Mr. and Mrs. Harmon Edwards and children of Press Creek, were visiting Mrs. Gella Stovall Sunday.

Miss Grace Briggs, who has been teaching in the Bakersfield school, is at home for the summer.

Mr. and Mrs. James Young of Windom, spent the week end with Mrs. Young's parents, Mr. and Mrs. Howell Briggs.

Mr. and Mrs. Clyde Robinson and children, attended the graduation exercises of their nephew and cousin, Glen Carver Mars Hill College last week.

Mr. Cleve Allen is home after having spent the past several months in the CCC camps at Lake Lure and Tryon.

Mr. Hershey's Viewpoint

Mr. Hershey, chocolate manufacturer of Hershey, Pa., has had a lot of fun providing orphan boys with educational opportunities. He started with two boys and now has built an industrial school which will accommodate 1500 pupils. At the new building which was recently completed Mr. Hershey said: "I had no idea what would happen or how it would grow. I thought that if it grew to provide for 100 boys would have been a good job. I hope to see this school carry on to new heights. After a man dies he cannot spend his money, and it has been a pleasure for me to spend mine as I have done."

Flags Will Wave On Mothers Day

Washington, May 7.—President Roosevelt today reminded the country next Sunday is Mother's Day.

He said: "On the ninth day of May, 1914, President Wilson, in response to a joint resolution of the congress, issued a proclamation directing government officials to display the United States flag at their homes or other suitable places on each second Sunday in May as a public expression of our love and reverence for the mothers of our country."

"In the intervening years the observance of Mother's Day has assumed a deep and growing significance. It is not my purpose this year to issue a special proclamation on this subject as I believe that the attention of the American people will be so devoted to the cause of that day that repeated formalization on the part of the chief executive is unnecessary."

"I prefer to think that the tributes which will be paid to mothers will come simply and spontaneously from our hearts."

North Carolina to Vaccinate Dogs

North Carolina takes a great forward step for the protection of both life and property in the adoption of its new state-wide law requiring all dogs to be vaccinated against rabies.

This bill, which became effective April 1, provides that every dog over six months old must be vaccinated and must wear a tag to prove it. The cost to the dog owner, however, will be no more than the present dog tax. This is reduced from \$1 to 50 cents, the remaining 50 cents being used to cover costs of vaccination and tag.

Each dog must be vaccinated once each year (within 90 days after April 1st). All puppies must be vaccinated as soon as they become six months old.

The administration of the act is to be under the State Department of Agriculture veterinarian, who is to be responsible for the quality and purity of the vaccine. A rabies inspector is provided for each township; it is his duty to vaccinate dogs on payment of the fee and take up any dogs running loose without tags. He must try to find the owner of each dog he takes up, but if the owner refuses to have the dog vaccinated, it will be killed.

For his persistence in securing the adoption of this measure we take off our hats to Representative W. E. Fomer and we trust that other states will soon follow North Carolina's wise example.—Progressive Farmer.

BOLENS CREEK.

Quite a number of weeks have passed since any news from this community has been published. However, very little has happened that was of much importance.

Our farmers have been very busy planting their crops.

Messrs Edger and Bascom Hensley made a trip to Asheville last week.

Mrs. John Bennett was taken to an Asheville hospital a few days ago for treatment.

There has been established a little definite work for those who are working on relief work in our community. Glad the tide is coming this way and the women have a chance to work closer home.

Mr. Frank Ray, who has been recuperating from operations performed a few months ago, hasn't been doing so well lately and decided to go to Florida, leaving last Monday, with the hope of a speedy recovery. He was accompanied by Messrs. Clarence and Ben Lee Ray, of Pensacola.

Mrs. S. D. Tipton, of Burnsville, was visiting relatives here last week end, also Miss Della Tipton and Frank Horton, of Asheville, were guests of Mr. Frank Ray Sunday afternoon.

Mrs. Vernon Silver, of Black Mountain, is visiting her parents, Mr. and Mrs. W. W. Ray.

STANLY STARTS PLAN FOR RAISING MULES

Stanly County farmers believe that continued buying of horses and mules from other sections to satisfy local demands is a weak spot in North Carolina's agriculture.

"Thousands of dollars are going out of this county every year for a product that can and should be raised on our farms," says John W. Artz, Stanly County farm agent.

"This condition can be gradually remedied by every landowner replenishing his stock when necessary with good blood mares purchased from local dealers, and breeding to a stallion or jack, both of which are available locally.

"A program of this kind, followed over the State, would eventually repopulate our farms with work animals, supplying both local and outside demands. Not only would this save our farmers much money, but in cases it would give them opportunity to increase their cash incomes by selling mules."

"Over most of the State, with its abundance of corn, oats, lespedeza hay, good summer pastures, the condition for raising horses and mules are almost ideal. The opportunity of increasing the farm income from this source should not be neglected.

"The old folks in this county say that their fathers managed to raise their horses and mules without difficulty, but a colt trotting along by its mother is an exceedingly rare sight nowadays.

"Here in Stanly County, however, we hope to have our local colt production raised to a much higher level within the next few years."

Body of Young Man Is Found In Lake James.

Marion, May 4.—The body of Paul Smith, 29, of Cliffhollow, drowned last Saturday evening in Lake James while fishing from a boat, was recovered today after a week of dragging the lake by searching parties.

The boat, in which Smith and a companion, Misher Curtis, had been fishing was capsized when struck by a heavy wave, according to Curtis, who reported the accident to McDowell County officers several hours later.

A reward of \$50 for the recovery of the body was posted by Mrs. Aldie Clamper, mother of the drowned man, after all efforts of searching parties had failed. Just before noon today, Gene Dohy, of Cliffhollow, with a companion discovered the body floating on the lake near the scene of the accident. The reward was not claimed. Death was due to accidental drowning, a coroner's jury reported after an inquest.

Preacher Ahead

Doctor's Son—When my father performs a major operation he gets \$500 in pay for his skill.

Lawyer's Son—That's nothing. When my father tries a big case he gets a fee of \$1,000.

Minister's Son—Huh! When my father preaches they take up an offering and it takes eight men to carry the money to the altar.

PLANTS FOR SALE

Have all kinds of plants, Cabbage, Tomato, Pepper, Celery, Egg Plants etc., now ready for transplanting. These plants are grown from the best seeds obtainable. In Sweet Potato plants I have the Early Triumph and the Portia Rio. My prices are right. Come and get them.

JOHN BODRDO, Windom, N. C.

Farmers in the piedmont section say the land is hard to prepare for planting—hard on top and wet beneath.

TIMELY PARAGRAPHS

Five billion dollars is quite a bit of suit to put on the tail of prosperity.

Business is better. Checks are again coming back marked "No Funds" instead of "No Bank."

If you help a criminal escape the law, it's a crime; if a lawyer does it, he is still a good citizen.

The world will also want a pathway to your door if you build a better day trap than your neighbor.

Those who used to sow the wind and reap the whirlwind now sow the wind and reap government relief.

It is said the average American family pays the doctor \$75 a year. This will be news to the doctor.

The doctor is a useful man, of this there is scant doubt; he helps us get into the world and later helps us out.

It's midday true that a lot of our troubles come from workers who don't think and thinkers who don't work.

It isn't on record, either, that the sorry-troubled Job ever tried to shave around a cold sore or fever blister.

Religion that doesn't abide with a man 24 hours a day and 7 days a week isn't worth taking home from church.

If Governor Talmadge, of Georgia, thinks President Roosevelt a radical, what does he think of Senator Long?

The NRA is something like the prohibition amendment. A lot of people approve it without any intention of obeying it.

The average member of congress doesn't represent the people so much as he represents the bunch that scares him most.

The first thing congress will do after the deposit disappers will be to stage a \$100,000 investigation to find out where it went.

Latest reports indicate that dust now covers the western farms, water covers the Mississippi Valley farms, and mortgages cover the rest.

No matter how little the average man knows about operating his own business or running his own affairs, there are two things he is certain he could run perfectly—his government and his newspaper.

Messrs. Clarence and Ben Lee Ray left Monday for Florida, on the lookout for work.

Miss Ethel Young of Burnsville, attended the baptizing and church services here Sunday.

Som few of the women of the community are employed this week by the Relief in making quilts at the school building. The work will continue through May.

Youth Arrested in Death of Girl

Gastonin—Bill Burton, of Kings Mountain, was placed under bond after a coroner's investigation of the strange death of Lessee Barnette, 20-year old Kings Mountain girl, on the railroad tracks near Bessener City.

Barton, who said he and the girl had been drinking together, told officers he found the girl dead, apparently killed by a train, after he left her sitting on the track while he went to a nearby filling station to get some water.

He was placed under arrest because he told conflicting stories of the circumstances, and because blood was found on his clothing.

The coroner ordered a \$500 bond for the youth pending completion of the investigation.

The girl met death about 4 a. m., at the time of the passage of a Southern Railway freight train.

Can Grow Pigs For Home Consumption

Farmers who have signed adjustment contracts to limit their corn production, but who have not been raising hogs, will be allowed to raise one liter of pigs this year for home consumption, according to a new ruling announced recently.

To encourage the production of more hogs for home use, a number of other modifications have also been made in the hog-contract, said W. W. Shay of State College, who has charge of the corn-hog program in this State.

Further details about the new rulings may be obtained from local county agents, Shay pointed out.

POTATO GROWERS "Peruvian Gold."

Through the courtesy of the Barger Sesone Co., the Piedmont Theatre will show 2000 feet of special film called "Peruvian Gold." This is a talking picture that deals with the history of potatoes, their diseases, plant life etc., and tells how to raise more potatoes on less ground thru proper care and cultivation. Every grower of potatoes, from small home garden to the large farm is urged to see "Peruvian Gold" at the Piedmont Theatre, Friday and Saturday May 10th and 11th.

When inclined to worry about what fate holds in store; we might just remember, as someone has said, that most things we worry about never happen. We read of a sailor who roamed the seas for many years, always hunted by the fear of being drowned. He finally met his end by falling of a camel in the Sahara desert and breaking his neck.

17 SOLONS OF W. N. C. OPPOSED LIQUOR MEASURE

Raleigh, May 4.—The 16 far western counties furnished only three votes in both Houses for legalized liquor control—Representatives Sullivan of Buncombe, Sherard of Henderson and Morphew of Graham.

Five senators and 12 representatives from the mountain section voted against the Day liquor control measure—Senators Johnston of Buncombe, Blanton of McDowell, Gibbs of Yancey, Browning of Swain and Ramsey of Transylvania, and Representatives Wilson of Madison, Hyde of Cherokee, Bowers of Avery, Ray of Macon, Jones of Swain, Mrs. Charles Hutchins of Yancey, Peterson of Mitchell, Bailey of Haywood, and Bryson of Jackson. Representatives Gray of Clay, Cloud of Polk, and Head of Rutherford were absent.

The liquor control measure was passed by the house by a single vote; the presence of one of the absent trio could have changed the result.

While the recorded vote in the senate stands at 27-22, the real vote was 25-24 as two senators changed their votes from yes to no when they saw a chance to reconsider. If one of the five western senators had voted for the measure, it would have passed.

Last minute efforts to change Senator Johnston of Buncombe were unavailing.

The recent freeze in Avery County injured the cherries and plums but did not hurt the apple crop to any extent, reports the farm agent.
