Forceful Film Tells Epic Story of America

"YOUR TOWN," a stirring short sound motion picture, coming to the Yancey Theatre next Wednesday, unfolds the epic story of America. A sleepy little one-street hamlet becomes a thriving modern community that has everything.

What is the secret of this magic? What motivating force is behind this amazing development? These and numerous other questions are answered as the reel unwinds.

A forward-looking citizen had a dream. He saw a factory rise from a field overgrown with weeds; saw a bustling community, its paved streets teeming with happy people. The old one-room school house where he learned the 3 R's was transformed into a handsome masonry structure with many rooms overrun by happy children.

Another man with a little money caught the vision. Together they built a modest plant and started the wheels of industry turning. The plant expanded, the community grew by leaps and bounds—the dream came true. As the transforming pictures flash upon the screen a grandfather, who was part of it all, tells the dramatic story of his grandson.

In large measure the entire life of the community

DAIRYMEN ARE TOLD HOW TO PREVENT MILK FEVER

Milk fever annually causes the loss of many good milk cows, especially in the herds of small dairymen, says John A. Arey, Extension dairy specialist of N. C. State College. "Such losses are usually unnecessary," he says, "because milk fever can be prevented easily by correct feeding and management."

Using the methods employed in one large high-producing Holstein herd as an example, Mr. Arey said that the following ration should be used for cows after they are dried off: Wheat bran, 200 pounds; ground oats, 100 pounds; ground corn, corn meal or hominy, 100 pounds; linseed meal, 100 pounds; and steamed bone meal, 15 pounds.

ORPHANAGE DAYS

At the Yancey County Baptist Association which was recently held with the Indian Creek Baptist church it was agreed to set apart two days during this autumn as the dates for carrying produce to the Baptist Orphanage at Thomasville. The first date set will be Tuesday, October 8. At this time special emphasis will be on canned goods and apples, however you may send any kind of produce that you have ready to go.

The second date set is Tuesday, November 19th. At this time we will want to concentrate mainly on potatoes and corn but as above stated, anything you have that they can use at the orphanage will be gladly accepted.

We are asking that each Sunday school and church begin now to make plans in order that we may do a commendable job on these two dates.

The plan is for the produce to be gathered and, if possible, loaded on Monday night and that all the trucks meet at Micaville at 8 o'clock on Tuesday morning and go in a group from there to the orphanage.

It is hoped that all who go will spend the night with the orphanage. You will get a new inspiration if you do so.

The association has named H. Grady Bailey of Burnsville as county chairman of this most worthy cause. —(Committee).
