NAVY

Applications for enlistment as Chief Specialist (A) (Acting Appointment) Class V-6, U. S. Naval Reserve, for duty as physical instructors are again being accepted.

Selected applicants between the ages of twenty-one and thirty-three who hold degrees in education

from approved colleges or universities and who have had practical experience in physical education work are being considered for enlistment in this specialty of the Naval Reserve.

A limited number of applicants are being selected on the basis of their academic background, experience, and leadership qualities.

Lieutenant Commander,

Collection of Scrap Metal Program

A. BACKGROUND

- All metals are needed in defense program.
- Iron and steel are extremely vital.
- Scrap iron and steel is not only desirable for the tonnage thus added to metals for defense but is ABSOLUTELY NECESSARY in the present method of manufacturing NEW steel.
- There are many tons of scrap iron and steel on the farms of N. C. accumulated through the years in the discarded farm machinery, tractors, gas engines, automobiles, fence wire, etc.
- Scrap metal, like most commodities, is graded and classified. Some grades are worth more than others. Farm scrap generally falls into a group known as No. 2 Heavy Melting Steel Scrap. A price ceiling of 77c per 100 lbs., delivered at Atlanta, Ga., and varying prices for delivery at other points has been fixed by OPM. From this price the cost of preparing (that is sorting, cutting and handling) and shipping must be deducted. In N. C. farmers should receive 40c to 55c per 100 lbs. for farm scrap not including sheet metal.
- Scrap metal dealers are licensed by the state and are located in about half the counties. There are also persons who buy junk in most towns and so-called peddlers who go from farm to farm. As these last have no means of weighing the metal is it recommended that wherever possible farmers deliver their scrap metal to the yard of a licensed dealer.

B. PROBLEM

- To get every pound of farm scrap metal which is not serving, or can't be made to serve Agriculture, into proper channels for National Defense.

C. SOLUTION

Farmers should be informed of the situation and urged to:

- Collect usable metal and scrap material of all kinds (iron, steel, brass, copper, lead, zinc, old tires, paper, rags, etc.). This collection will accomplish three things:
 - And tremendously in National Defense.
 - Bring some money returns from its sale.
 - Remove certain hazards to humans and livestock on the farm.
- Take all metal to licensed dealers' junk yards if possible.
- Ordinary farm scrap (No. 2 Melting Scrap Steel) should bring from 40c to 55c per 100 lbs. at the yards. (Less than this is offered for sheet metal, more for copper, brass, lead, etc.)
- Where licensed dealers are not found, arrangements should be made to assemble scrap at convenient points (if possible where wagon or truck platform scales are available) and have representatives of licensed dealers bid on it.
- If sold to peddlers who go from farm to farm, considerably less than the above prices will be received.
- Nothing should be sold for scrap that can be used on the farm, in the home, or in the community: bolts, nuts, washers, rods, braces, angle iron, flat bars or tool steel or any part which might be used to repair farm machinery or for other purposes should not be sold. High School Farm Shops need material of this sort in their school Defense Shop Courses.
- Old papers and magazines should be wrapped in a bundle and sold. Old auto and electric light batteries should be sold. Sheet metal and fence wire should be assembled and sold. Old tires can be sold. Glass and bottles are not desired.
- As in the Farm Machinery Repair Program, communities should be organized and use all possible means to get this Scrap Metal Collection Campaign across.
 - Newspapers, radio programs, etc., should be used.
 - Scrap dealers will assist and should be kept informed of plans and progress.

NOTE: One county is reported to have assembled 200 tons of scrap metal, sold it and GAVE THE PROCEEDS TO THE RED CROSS; their campaign slogan was, "SCRAP THE JAP WITH SCRAP."

DON'T TAKE THIS LYING DOWN . . .

When men are fighting and dying, you must do your part. Be sure you enlist your DOLLARS FOR DEFENSE. Back our armed forces—and protect your own life—with every single dollar and dime you can.

America must have a steady flow of money pouring in every day to help beat back our enemies.

Put Dimes into Defense Stamps. And put Dollars into Bonds. Buy now. Buy every pay day. Buy as often as you can.

Don't take this lying down.

The Yancey Record:

Again I thank you for The Yancey Record, especially at this time when we soldiers failed to get our furloughs Christmas, and visit home. It gives us the news from our home communities which in each issue I greatly enjoy reading.

I am glad our nation has called New Year's for a day of prayer and hope all Americans use it for this purpose. If we have God on our side we will be victorious over the axis powers, who are trying to destroy the freedom and religion of all nations.

It is the duty of all Americans to do all we can to accomplish victory and retain our freedom. I am for the American cause one hundred percent and will do my best to secure victory for my country. This is a duty we all should fulfill to keep America on top.

Yours truly,
Pvt. Marion P. Ballew

P. S. I have been transferred from Dale Maffry Field to foreign service and my address from now on will be as shown in the heading of this letter. My station or place of combat is a military secret.

ZADE RANDOLPH RE-ENLISTS

Zade Randolph of Green Mtn. recently re-enlisted in the army. He had served for several years, and returned to Ft. Hayes, Ohio to rejoin his company.

TO AIR BASE AT COLUMBIA, S. C.

Charles H. Piercy of Day Book who has been at Fort Jackson, S. C. has been assigned to the Air Corps, Quarter master Corps, Lexington County Air Base at Columbia, S. C.

J. J. Tunney, U. S. N. R., will be at the Navy Recruiting Station, Post Office Building, Raleigh, N. C., on the 26, 27 and 28 of February for the purpose of interviewing applicants. The following instructions have been released:

If you are interested in being considered, it will be necessary for you to appear at your own expense at the Raleigh Navy Recruiting Station on one of the dates indicated.

At the time of your interview, you will be required to have an official transcript of your college record, a birth certificate and a small photograph of yourself (about 2 x 2 inches). Do not forward these. Keep them in your possession for the purposes of the interview. Appointments may be arranged by mail in advance.

The interview in no way obligates the Navy Department to accept an applicant for an appointment as Chief Specialist (A) (Acting Appointment), Class V-6, U. S. Naval Reserve, for duty as physical instructor.

WELDON BURLESON

Weldon, our Weldon, son of the hills
Vanquished forever on Hickam Field
Vanquished by death that rained from the sky
Vanquished by a foe unscrupulous and sly.

Weldon, our Weldon, idol of our heart
From your comradeship we now must part
You gave all for your country—all for all time
And forever you are linked with sacrifice sublime.

Weldon, our Weldon, on guard for the ages
Spirit of the hills, alert at all stages.
Keep vigil o'er freedom, keep watch at the portal
You have carved for yourself a name immortal.

—Sinclair B. Conley

ON THE BLUE PACIFIC SHORE

Dedicated to
Weldon Burlison and other heroes of the Pacific

Just at dawning and without warning
The enemy flew o'er,
And our gallant airmen soared to meet them
On the blue Pacific shore.

They died in battle, for light of freedom
To shine forevermore;
And the torch they left us—we'll keep it burning
On the blue Pacific shore.

Hawaiian sunset, dim not the glory of those
Heroes we adore;
And guardian angels their graves be keeping
On the blue Pacific shore.

God of our fathers, and of this nation
Hear us we implore:
May thy spirit rule forever
On the blue Pacific shore.

—Bess Lewis

COTTON

Domestic cotton consumption established a new daily record in November, and consumption may go even higher in the next few months if labor and equipment are available.
