

More About R. E. A.

it will be possible after the war to build 500 miles of additional line to serve an estimated 3000 new consumers. The communities of Marshall, Mars Hill, Burnsville and Bakersville are included in the acquisition.

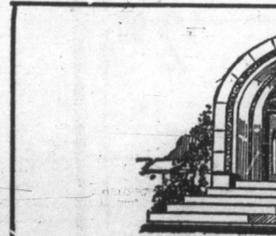

The present distribution system consists of 140 miles serving 585 farm homes in Madison and Buncombe counties in North Carolina and Unicoi county in Tennessee. An allotment of \$235,000 was secured in November, 1941 for the construction of 240 miles of line serving approximately 1287 consumers in Buncombe, Madison and Yancey counties, but the emergency has placed a Stop Order on all new construction.

"Our organization believes that the new members who receive service through this organization will gain lasting benefits," Mr. Robinson said. The French Broad Electric Membership Corporation is built upon the principle that by working together men can achieve goals beyond the reach of independent, divided effort.

"If this co-op accomplishes nothing more, during the war, than the development of a steady trend toward diversification of agriculture, it will have proved its worth. Our first job, of course, is to apply our kilowatts to the war and this can best be done by intelligent diversification of crops. If we pull together and use our resources wisely we will find that when Victory is won we'll all be in a better position to build a prosperous area. Electricity will help us in this job."

Squirting jets of ammonia gas into the soil of fields and orchards is the underlying idea of a recently patented device, ba-

Administratrix Notice To Creditors Having qualified as administratrix of the estate of J. T. Anglin, deceased, late of Yancey County, North Carolina, this is to notify all persons having claims against the Estate of said deceased to exhibit them to the undersigned at Burnsville, North Carolina, on or before the 22 day of May, 1943, or this notice will be plead in bar of their recovery.

LET IT BE WRITTEN: "Everything was done perfectly." Every detail of the funeral service is taken care of, and carried out in a way to make it a fitting tribute to the departed. HOLCOMBE & EDWARDS FUNERAL HOME Burnsville, N. C. Ambulance service Day & Night

SUGGESTS WAYS TO CAN WITH MINIMUM OF SUGAR

Most farm homemakers have received their home-canning sugar certificate, and have been allotted one pound of sugar for every four quarts of finished fruit to be put up. "This may not sound like enough to some people," says Mrs. Cornelia C. Morris, Extension food conservationist of N. C. State College, "but it will suffice if care is used."

The Extension worker makes the following sugar-saving suggestions to home canners: If you pack your fruit hot in its own juice, you will need much less sugar than if you pack the fruit cold, then cover it with sugar-and-water syrup. Remember, sugar is not needed in canning to keep food from spoiling. But it does help the fruit to hold color and flavor. By sweetening the fruit slightly, and then heating it, you can draw out juice from the fruit itself—in many cases make it unnecessary to can any added water.

For juicy fruits, usually it's best to separate the riper fruits from those less ripe. Then you can crush the riper fruits, heat them, and extract juice from them. Preheat the less ripe fruit, which you have set aside, in this juice. Add sugar to sweeten slightly if necessary. Fill the jars. Make sure there is plenty of juice to cover the fruit. Process in a water bath.

Certain varieties of peaches and pears may not yield enough of their own juice to make the canning liquid. You'll get more juice from these fruits if you slice them and add a little sugar before you pre-cook them. If there isn't enough juice to cover the fruit in the cans, use syrup to fill the jars—a syrup made from one or more cups of sugar to one quart of water.

FARMERS... Make every market-day BOND DAY!

For our fighting men, for our country's future and for freedom we must meet and beat our county War Bond quota and keep on doing it. Pick up your War Bonds and Stamps on your second stop in town... right after you've sold your eggs, milk, poultry, stock or grain. No investment is too small and no investment is too large... the important thing is to buy every time you sell!

HAVING Qualified as typist and having my own typewriter, I am prepared to do either copy or dictation in home or office.—Mary Covey, Burnsville.

FOR SALE: Will have few more certified July potato seed than will plant. Will sell. L. E. Briggs.

SUGAR BOOKS

Sugar stamp number 5 is good for two pounds of sugar from June 28 to July 25, and stamp number 6 from July 26 to August 22 is good for two pounds. This will keep the half pound per person per week ratio but purchase will be made for four weeks instead of two.

Commercial users (cafes, etc.) may come to the ration board office to register

Durham county poultrymen are showing more interest in vaccinating their flocks against fowl pox this year than ever before, reports J. A. Sutton, assistant farm agent.

Notice of Sale of Land Under Mortgage

TAKE NOTICE, THAT WHEREAS, Charles Hutchins and Effie Hutchins, his wife, executed a certain mortgage to John Yancey, which was recorded in the Office of the Register of Deeds of Yancey County, North Carolina, in Book 25, pages 241 and 242, to which reference is hereby made, conveying the lands therein and hereafter described, as security for an indebtedness therein described, which mortgage contained full power of sale in the event of default in the payment of said indebtedness at maturity.

AND WHEREAS, there has been default in the payment of said indebtedness; NOW, THEREFORE, the undersigned, John G. Yancey, Sam M. Yancey, and William R. Tighe, as Executors of the Estate of John Yancey, deceased, will on

Monday, July 20th, 1942, at 12 o'clock noon, at the Court-house door in Burnsville, Yancey County, North Carolina, for the purpose of satisfying said indebtedness, offer for sale, to the highest bidder, for cash, the following described land, lying and being in Burnsville Township, Yancey County, North Carolina, and described and defined as follows, to-wit: FIRST TRACT: Adjoining the lands of J. H. Higgins, W. A. McCracken, and others. BEGINNING at a stake 66 feet East of the Northwest corner of lot formerly owned by H. P. Robertson and runs West and with line of said lot 24 poles to stake in the line of J. H. Higgins; thence North 20 poles to a stake; thence East 24 poles to a stake; thence 20 poles to the beginning, containing 3 acres, more or less, and being the property known as the Hospital Property.

SECOND TRACT: BEGINNING on a chestnut oak and sourwood, R. M. McCracken's corner on top of Boone Ridge, and runs up said Ridge to Delzie Styles' line; thence North with said line to a stake; thence West with said Styles' line 40 poles to a stake; thence with the main height of Boone Ridge to the top of Big Knob at Robert Honeycutt's corner; thence with the main height of Green Mountain to the height of Calvin Fox's line; thence with Calvin Fox's line and the top of Green Mountain to Delzie Styles' Water Oak corner on top of mountain; thence a South course with said Styles' line to Nancy Deyton's line; thence with Nancy Deyton's line the same course to a stake which was known as the Spanish Oak corner; thence East with Deyton's and Styles' line to the public road; thence with the road to Adler Byrd's corner; thence with Byrd's line and the public road to Delzie Styles' corner; thence with Styles' line to the top of Boone Ridge; thence up said ridge to the beginning, containing 100 acres more or less. Being the lands known as the S. M. Bennett lands.

The terms of the sale will be cash, subject to the confirmation as provided by law. This 13th day of June, 1942. JOHN G. YANCEY, SAM M. YANCEY AND WILLIAM R. TIGHE, EXECUTORS OF ESTATE OF JOHN YANCEY, DECEASED. June 18, 25, July 2, 9, 16

BURNSVILLE—"So They Say"

The weather: One fine shower, greatly needed. Would appreciate clear skies for July Fourth, though.

About town: Arrivals this week—the camp folks. It's fine to have them back again, and we're glad to see that it's larger-than-ever groups who are here for the season. Many counselors and directors who've come back so many seasons that they seem just like home folks.

Proud of John Robinson. Knew that he knew all about radioing and surely enough he's one of the 50 selected from \$50 to take special "Pre-Radar" radio communication (what ever that may be) training at N. C. State College. and Sam J. Huskins, Jr. is now an aviation cadet in San Antonio. Billy Banks improving after that hard fall he had last week. Merritt Robertson back to school at U. of Maryland. New man in town: B. W. Ellis of Boone who's managing Yancey Theatre while Iliff and Jessie Clevenger are away on vacation. Another "quote" from Furman Souther's letter: the big Fontana Dam now being built near Bryson City will mean relocation of about 2,000 persons. Most of these will want to buy farms in other sections. So if you have a farm for sale we'd be glad to give you information about how to get in touch with the Bryson City office. Mary and Clarence Berryman's new daughter is named "Mary Patricia". We've been asked several times. Marjorie Allison is improving and doesn't look a bit ill though she's in bed for two months because of rheumatic fever. If you didn't attend the benefit supper you missed a treat in more ways than one. The short program was very good and George Blake's reading most excellent. One thing we've always longed for: radio reception without static. Listen sometime to station W41MM located on Clingman's Peak if you wish to hear just that. Marjorie Parnell and new husband visiting here during week end. They were married Sunday in Charlotte. John English working at Robertson's Drug Store and Dick Bailey at A & M Cafe. Suel Anglin and others back in uniform from camp for brief stay.

A short drama in one act but several hours—"Orin Rufely to the Rescue". Troy and Bob Ramsey out fishing and their boat hit a snag along about dark. It was ten o'clock before they were heard and rescued. Will this cure them of fishing? Wait till they can get another hour or two off and see!

War time picnic on Saturday at school house sponsored by the Farmers Federation. Music, speeches, watermelon, etc., etc. Then, "Miss Yancey County" will be selected, so bring your best girl along and be ready to vote for her. And our suggestion for picnic: Along with the family, basket lunch, the trusty fiddle if you plan to take part in music program, etc.—along with all these we suggest you pile in all scrap rubber that you haven't already sent to your nearest service station! It's a "Victory" picnic, and this is the one, most important way right now that we are urged to help!

FARMERS WILL RECEIVE LOANS ON SOYBEAN CROP

North Carolina farmers who grow soybeans this year as part of the "Food for Freedom" program will be eligible for federal loans on the soybeans stored in approved bins on farms, according to E. Y. Floyd, AAA executive assistant, at State College.

Soy beans of any class grading No. 3 or better with respect to factors other than moisture content, and having a moisture content not above 4 per cent and which were produced in 1941 will be eligible for loans, Floyd said. Soybeans grading weevily, or which are musty, sour, heating, or have any objectionable foreign odor, will not be eligible.

Floyd said the basic loan rate for North Carolina No. 1 and No. 2 soybeans will be \$1.55 per bushel for medium oil content soybeans of Class I (yellow) and Class II (green). The rate for the same classes having a high oil content will be \$1.65 per bushel. All yellow and green soybeans produced in this state will be considered as having medium oil content unless it is determined on the basis of representative samples that beans produced in any county have an oil content of 17-1-2 per cent or more. In this case, all soybeans grown in that county will be considered as having a high oil content. All determinations of oil content will be made on a 10 percent moisture basis.

Soybeans of Class III (brown), Class IV (black) and Class V (mixed) will have a loan value of \$1.55 per bushel for high oil content and \$1.45 for low oil content. Soybeans of any class grading No. 3 and having not more than 14 percent moisture, will be discounted three cents per bushel below the basic loan rate for soybeans grading No. 1 and No. 2.

The loan rate, Floyd said, includes a storage allowance of five cents per bushel which may be earned by the producer. The loans will bear interest at three percent, and will be available through March 31 1943. All loans mature on demand, but not later than June 30, 1943.

Adolph, Benito and Hirohito—the three blind mice. Make them run with ten percent of your income in War Bonds every pay day.

The nearness of the tobacco harvesting season combined with the shortage of farm labor has Harnett county farmers worried, reports T. D. O'Quinn, assistant farm agent.
