

More About — FARM NOTES

nting next spring. All cover crops should be turned at least 10 to 15 days before corn planting time regardless of the growth they have made.

If you are interested in getting some of these seed, see Mr. Ramsey in the A AA office or your County Agent soon. These seed can be used to build 1942 units or if a farmer has built all 1942 units, he can use it now to build 1943 units.

NOTICE

To make one pound of aluminum requires the use of as much electric current as is used in the average American home over a period of more than three days.

NOTICE

IN THE MATTER OF THE REORGANIZATION OF NORTHWEST CAROLINA UTILITIES, INCORPORATED.

To Creditors and Stockholders: You are hereby notified, pursuant to an order of the District Court of the United States for the Western District of North Carolina, that all creditors and stockholders of Northwest Carolina Utilities, Incorporated, and all holders of any claim or claims of whatever character against Northwest Carolina Utilities, Incorporated, Debtor in the above entitled proceedings, shall file proofs of such claim or claims or interests with John W. Perry, Trustee of Northwest Carolina Utilities, Incorporated, Burnsville, North Carolina, on or before the 30th day of September, 1942.

NOTICE IN THE MATTER OF THE REORGANIZATION OF NORTHWEST CAROLINA UTILITIES, INCORPORATED.

To Creditors and Stockholders: You are hereby notified that as creditors and stockholders of Northwest Carolina Utilities, Incorporated, Debtor, you may submit to O. M. Mull, Trustee of the Debtor, at Shelby, North Carolina, suggestions for the formulation of a plan of reorganization or proposals in the form of plans on or before September 10, 1942.

EXECUTOR'S NOTICE Having qualified as executor of the estate of John E. Hall, deceased, late of Yancey County, North Carolina, this is to notify all persons having claims against the Estate of said deceased to exhibit them to the undersigned at Erwin, Tenn., on or before the 12th day of July, 1943 or this notice will be plead in bar of their recovery.

LET IT BE WRITTEN:

"Everything was done perfectly." Every detail of the funeral service is taken care of, and carried out in a way to make it a fitting tribute to the departed.

More about — NAVY

Colored men are desired to enlist in the Navy also, Chief Smart announces that during the past few months many colored men have been enlisted through the Asheville station, and from those who have returned on leave, they are unusually well satisfied with the Navy. They state that the food, pay and environment agree with them.

CONSERVATION MATERIALS NOW AVAILABLE FROM AAA

Conservation materials—lime superphosphate, and winter legume crop seed—now are available to North Carolina farmers from the AAA, according to G. T. Scott, chairman of the state AAA committee, with headquarters at State college.

All these materials may be purchased from the AAA without an outlay of cash, Scott said. They are distributed as grant-of-aid materials and costs are deducted from any soil conservation payments due the farmer at the close of the program year.

Crimson clover seed, he said, may be ordered now for fall delivery at a cost of 12 1/2 cents per pound, delivered to the county AAA office or to seed dealers handling sales for the AAA. Hairy vetch and Austrian winter peas will be available at a later date, he said.

Due to difficulties in obtaining materials by suppliers, it is unlikely that 20 percent superphosphate will be offered this year, Scott said. Nineteen percent superphosphate will be sold to farmers in 17 counties in Western North Carolina at \$16.72 per ton, and will be available to other counties at \$14.25 per ton. This differential, he said, is due to freight costs. Prices of ground limestone range from \$1.30 to \$2.90 per ton, depending on the freight costs, but this rate does not include delivery to individual farms. Costs of these materials in each county may be obtained at the county AAA office.

"Seeding of winter legumes and grasses, and application of lime and phosphate to insure a better growth are more important than ever this year," Scott said. "The indicated shortage of commercial nitrates for fertilizers makes it doubly important that farmers produce as much nitrogen as possible for their own soil by growing legume crops. In addition, farmers may earn conservation payments by use of the materials and growing legume crops."

BURNSVILLE — "So They Say"

Court week and heaps of folks in town—some visitors but mostly citizens from out in county who came to see who else was in town and what was going on—glad to see them all.

First blackout on Monday night and very successful—air raid wardens right on the job and T. G. Ellis and his scouts helped out greatly too—and this is as good a time as any to voice our regrets: the Ellis family is leaving and we don't like that a bit! They'll be sincerely missed in many ways and we hope that they can travel back and forth from Andrews occasionally to visit us. Moving around: Bernice and Hubert Justice to Micaville and Clyde and Doris Young to the house they left here. And this Doris says that she is not the Doris Young teaching at Micaville. Several farewell dinners and parties this week. Dr. Joneses dinner at Nu-Wray before he leaves for El Paso where he will be stationed. Peg and girls will be here for a few weeks—Then Lena Tilson entertained for John and Annie before John leaves for army—the Smoot Bakkers for college students, and Mary Covey for young folks before she leaves for school. Already preparation and bustle before boys and girls get off to school, and if you know of any who are going, let us know who and where they'll go.

Weddings this week: Edna Honeycutt and Wm. Hugh Taylor in Washington—and Nina Evans and Norman Barnett married last week end. No wonder the Lawrence Butner family is all smiles! Two letters from Henry in one week. He's in England, and likes the country fine but is having difficulty learning to count his money—the Zeb Kings also had a letter from Bruce and he's "somewhere in England" too. We would not believe Lonnie Allen's big fish yarn if he hadn't brought the fish in for inspection. Weighed 18 pounds and looked like a whale while he was trying to get it to river bank. Sorry that Trena is in hospital (Biltmore) and Kathryn Ramsey in Mission for operation—Hope they'll soon be home. Folks agree that Grady can talk enough to hold down two jobs and he seems to be getting along fine at Farmers Fed. and Appliance Co. He's also agreed to be chairman of Scrap Collection drive. We'll have to get down to good, hard work and let him know about our scrap materials. Plans are under way for JUNK RALLY DAY—more about later—Schools all started Wednesday and more children attending than ever. Interesting plans for the organization of the Victory Club for Erwin. Girls don't wait here. A second invitation but be at club house Tuesday night while your parents attend P.T.A. meeting.

Hitler is reported to have created a special decoration for inhabitants of occupied countries who collaborate with the Nazis. Called, no doubt, The Double Cross.

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten percent every pay day.

Bomb 'em with JUNK

JUNK NEEDED FOR WAR Scrap Iron and Steel. Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel. Other Metals—Rubber—Rags—Manila Rope—Burlap Bags. Needed for making bombs, fuses, binoculars; planes; tires for jeeps; gas masks; barrage balloons; wiping rags for guns; parachute flares; insulation for electric wiring. WASTE COOKING FATS—Strain into a large tin can and when you get a pound or more, sell to your meat dealer. NEEDED ONLY IN CERTAIN LOCALITIES—Waste paper and NOT NEEDED (at this time)—Razor blades—glass.

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!
