Entered as second-class matter November 11th, 1936, at the Post Office, at Burnsville, North Carolina, under the Act of March 3, 1879.

"HONOR ROLL"

In this issue we publish an "Honor Roll"—the names of those from Jacks Creek township who are now in service.

The county as a whole, and the township in particular, is proud of this roll of honor. It is a fine record of service for any community and these men who serve will reflect honor and credit upon the section of the land from which they come.

One impressive fact is that in so many instances there are more than one member of a family; from a number of homes three are now serving. It is indeed a great contribution which they make in the cause of liberty and the way of life we cherish.

It is a fine thing for each community, each church, each school or organization to have its own roll of honor. Let us give recognition to those who are now serving throughout the world.

REVIVAL MEETING TO BE HELD AT ELK SHOAL CHURCH

The fall revival meeting will begin at Elk Shoal Methodist-Baptist church next Sunday morning and continue for one week. Rev. C. B. Way, who is pastor of the Methodist congregation of that church, will do the preaching. The service Sunday morning will be at 10 A. M. eastern war time. The Sunday night service will be at eight o'clock. The series of services will continue through next week, with services each night at eight o'clock, eastern war time.

Elk Shoal church is located two miles from Cane River Postoffice, on the Erwin and Johnson City highway. An invitation is extended to the public to attend the services.

INFORMATION, PICTURES OF SERVICE MEN ARE WANTED

There is, at present, no absolutely accurate list of men from the county who are serving in the armed forces of the United States. This number is now approximately 700.

With the help of the selective service board, a complete list is being compiled but for a great deal of this information we must depend on the citizens of the county and families of the men in service.

Please send this information to the Record office. Within a few weeks an issue of the paper will be dedicated to these "Men In Service" and the list as completed to that date will be published. Remember that the names of the men who have been in service for several years will probably be hardest to obtain.

Also, we should like to have pictures of service men. These will be returned.

ELK SHOAL NEWS

Zeb McAllister of Baltimore is visiting his parents Mr. and Mrs. Johnnie McAllister.

Fulton Hughes of Breward was home for the week end.

Sgt. Jack Higgins who has been in the Army for 3 years is visiting his parents, Mr. and Mrs. Hiram Higgins.

Zeb Randolph who is employed near Asheville was home for the week end.

Pvt. Arvil King of Fort Bragg is home for a few days.

Clyde Higgins who is employed in West Virginia spent the week end at home.

Wellington McIntosh has left for the Army.

Clay Edwards spent a few days with home folks.

FSA GETS "GO AHEAD" FOR 1943 SUPERVISOR RAY SAYS

The "green light" has been given Farm Security Administration by Secretary of Agriculture Wickard to proceed with necessary loans and farming assistance to small farmers for "1943 food and fibre production," according to Mack B. Ray, County FSA Supervisor, Burnsville, who has returned from a two-day area conference in Asheville.

Mr. Ray said that plans and procedures were worked out at the conference to help the small farmer make the best possible contribution to food for freedom within the limited funds allotted. Following the Secretary's directive, the first consideration in making all loans will be the production of food and fibre necessary to win the war, he pointed out.

"Farmers desiring loans necessary for assuring this maximum production should make their applications early this fall," the supervisor said, "in order that sound farming plans may be worked out." Farm Security assistance, as heretofore, will be limited to farmers who are unable to secure necessary loans and assistance from normal credit channels.

Supervisor Ray quoted Secretary Wickard's current instructions as authorizing and directing the FSA "within the limits of available funds—to bring into full production the manpower and resources of all farm operators who are unable to achieve their full output through their own efforts, or through existing normal channels of assistance." Definite things Farm Security has laid out in order to help borrowers in this county to take their full part in the war effort were outlined by County Supervisor Ray as follows: 1. The immediate job concerns, canning, storage and marketing. Food that has been produced must not go to waste. Supervisors will teach families how to do this.

2. Help families plan production of food for next year's use, and next year's market.

3. Lay stress on fall and winter gardens, seeding of small grain and seeding fall pastures.

4. Study 1942 performance ascertain the degree to which families and communities have attained the goals set up.

5. Get next year's farm plans prepared right away in order that families may be getting acquainted with next year's practices and enterprises.

6. Prepare to fight disease, to be healthy, both as individuals and as a community.

7. Help farmers to make substitutions necessary on account of war shortages—plant legumes to save fertilizer, save and grow out calves and pigs, improve and enlarge pastures to feed these extra cows and hogs.

8. Repair and use discarded machinery and equipment to increase food and food production. Exchange use of machinery and equipment with neighbors for labor and other services, purchasing jointly, for joint use, where practical, new equipment which must

NOTICE

The annual Thomas Reunion which was to have met with Double Island Baptist church on Saturday, September 12, 1942 has been postponed for the duration.

This step has been taken to help conserve essential materials needed in meeting the war effort. We want to save for Victory. —L. D. Thomas.

BURNSVILLE SOFT BALL TEAM WINS

The Burnsville high school soft ball team has won each of the three first games played this season. They won over the Burnsville All-Stars, 6 to 5; and over Clearmont, two games 4 to 1 and 6 to 3.

Team members are Drate Banks, Champ McMahan, James Hamby, John B. Westall, Edwin Wilson, Charles Ray, Will Covey, Ward Price, Junior Robinson, Gerdine Williams. The subs, Nealy and Carl Lee McIntosh, J. D. Harris, Ben Banks, Robert Westall.

LARGEST

The 1941-42 wool production in Australia was the largest ever recorded, the heavy clip resulting from the sharp increase in the number of sheep shorn due to a decline in meat exports.

9. Help farmers improve their tenure, as a step toward a better job of farming.

10. Aid FSA families through supervision to use improved practices recommended and approved by County Agents and Extension Specialists.

What You Buy With WAR BONDS

It's not a pleasant picture to contemplate, but War calls for "blood and sweat and tears." And the Army Medical Corps, with its efficient nurses and its volunteer Red Cross "Angels of Mercy," needs thousands of surgical beds for field and base hospitals on every front.

These beds cost approximately \$22 each. They are the latest thing in modern hospital beds, with elevating springs. In some instances surgical cots are used in temporary field hospitals and there is a folding bed which may be used in ambulances. Your purchase of War Bonds and Stamps can buy many of these beds for the Army. You'll sleep better if you know our boys have every hospital comfort. Buy War Bonds every pay day. Invest ten percent of your income.

What You Buy With WAR BONDS

The 50-caliber Browning machine gun is one of the most efficient short range weapons used by U. S. Fighting forces. It is effective at ranges up to 2,000 yards and fires about 600 forty-five caliber bullets per minute.

One of these guns costs about \$1,500, while a thirty-caliber machine gun costs approximately \$600. Our fighting forces need thousands of these rapid-fire guns. Even a small town or community can buy many of them by uniting in the purchase of War Bonds. At least ten percent of your income in War Bonds every pay day will do the trick.

BURNSVILLE

16 Years Ago (Sept. 17, 1926)

Burnsville public school has an enrollment of 350. Among those leaving for college are Bill Anglin, J. P. and Charles Huskins, Lena and Dorothy Ray, Mary Cecil, Ruth and Ruby Burton, Grace Anglin, Grace Honeycutt, Gladys Chase, Lucille Erwin and Sarah Hyatt.

In a ball game between the "Grangers" of Swiss and the Bald Creek high school team, the Grangers won, 2 to 0.

Kenneth Robinson and Arcemus Simmons of Celso are attending Micaville high school.

Mr. and Mrs. Harmon Peterson and baby have returned from visiting relatives in Tennessee.

Rudolph Valentino in "The Eagle" will be shown at the Courthouse Monday and Tuesday.

A. L. Silver brought to town a stalk of corn grown in his garden. It was 15 feet high and had four fine full grown ears of corn.

Mrs. J. A. Watson spent a day or so this week in Kingsport, Tenn.

T. H. Phoenix took his son to Asheville Friday to have his tonsils removed.

Mrs. J. B. Gibb has returned from a visit with J. B. Jr., in Grayson, Ky.

PLANS BEING MADE FOR FURNISHING AAA LIME

Plans now are being made by County AAA committees for furnishing ground limestone to North Carolina farmers as a grant-of-aid material under the 1943 AAA program, according to G. T. Scott, chairman of the State AAA committee, with headquarters at N. C. State College.

Orders for limestone under the 1942 program already have exceeded 300,000 tons, and orders will be accepted under this program until September 15, Scott said.

County AAA committees now are soliciting bids for hauling limestone from railroad points in the various counties to farmyards, he said, and arrangements are expected to be completed before the end of the month so that orders under the 1943 program can be taken by October 1. Bid forms may be obtained at county AAA offices.

Delivery prices of limestone under the 1942 program vary from \$2.40 to \$3.90 per ton, depending on freight charges. Prices under the 1943 program will be announced as soon as arrangements for delivery are completed, the chairman said.

"With farmers engaged in their biggest production program in history, it is expected that use of AAA limestone under the 1943 program will be more than 400,000 tons. Our production goals call for more livestock, among other agricultural products. This means more pastures, and limestone is needed to insure a good growth. At the same time, it is likely that commercial nitrates will be hard to get next year. This makes it necessary for farmers to produce as much nitrogen as possible through use of winter legume crops, and limestone will

FARMERS TO BOOST FALL OAT ACREAGE

Present indications are that slightly more than 250,000 acres of oats will be seeded in North Carolina this fall, an increase of 5 percent over the 1941 acreage, says Dr. Gordon K. Middleton, agronomist of the Agricultural Experiment Station at N. C. State College.

Best possible returns from this quarter million acres will be obtained only by those growers who materially increase their per acre yields, the agronomist explained.

That an improvement can be made, he went on, is suggested by the fact that while the average yield in North Carolina was 22.6 bushels for the three years, 1938-40, the average in Experiment Station tests was from three to three and a half times as great.

The Lee variety has been popular in the Piedmont counties for 18 to 20 years, largely because of its resistance to cold, while Fulgrain has been more widely grown in the Coastal Plain

be used extensively to promote better growth of these crops," Scott said.

O. W. Wilson is returning this week to East Lansing, Mich. after a vacation with relatives at Bald Creek.

and to some extent in the Piedmont.

Lee and Fulgrain are still good varieties for these two areas, Dr. Middleton said, but chief interest now lies in a group of new varieties carrying resistance to both smut and rust, and with the cold resistance of Lee.

Among the most promising are selections originating from a cross of Lee and Victoria. North Carolina has distributed two varieties from this cross, one known as Letoria and the other as Lelina.

Winter hardness tests showed Letoria to be a harder variety than Lee, and Lelina about equal to Lee. Both carry good resistance to rust and smut, but are not absolutely immune to all strains of either.

Dr. Middleton suggested that Letoria, Lelina and a third new variety, Stanton, be tried extensively this fall in the place of Lee in the Piedmont, and Victorgrain, Lelina and Stanton in the Coastal Plain.
