### F. S. A. NEWS FOR HOMEMAKERS CANNING CORN

August is the month when most of us think of the vegetables that is a bit hard for many women to save satisfactorily.

Use only absolutely fresh corn that is tender and juicy. If it can be gathered and gotten into the jar within an hour or two it will keep better.

Husk, cut corn from cob and measure. Add half as much boiling water to the corn as you have corn and allow to precook from 3 to 5 minutes. The packing in the jar is very important because corn is starchy and starchy foods must never be packed tightly. If packed too tightly the heat cannot penetrate to the center of the jar during the processing. Make a loose pack and fill the jar only to within one inch of the top. Add the liquid in which the corn was precooked to within 1/2 inch of the top.

A teaspoon of salt and a teaspoon of sugar may be added to flavor.

Corn should be processed in a pressure cooker at 10 pounds of pressure for 60 minutes or in a hot water canner for 3 1/2 hours.

### BURNSVILLE "So They Say"

About town: Busy time for all with school starting, corn, beans, and tomatoes ready to can, and some folks moving about... the Stanley Riddles to the Ralph Laughrun house... the Howard Johnsons to the Bostian house which they've bought... Dr. and Mrs. E. T. Koonce to apartment at Tilsons (he's school dentist)... and the M. O. Alexanders to Baptist parsonage... The Royce Masters and Seth Laughruns back from Maryland... We really need a hospital directory for Burnsville folks this week. Mrs. Chadle didn't stay long at hospital and is home... at the Mission are Jessie Clevenger and new daughter, Zula Bailey, and Mrs. Wray who's improving rapidly and expects to be home Sunday... Zenas Robertson home again... June McIntosh and Kerl Banks still at St. Joseph's where they underwent operations last week.

After thirty years in the shoe repair business Carl Riddle is retiring!... says he made his first pair of shoes when he was 12 and has been busy ever since. Plans to rest up for a few weeks at his farm at Celso. Some of Hubbards here for brief visit, including Edd who's first lieutenant now. Francis Hennessee now at Shepherd Field, Texas as flying cadet... Interesting to wide circle of friends Announcement of Beryl Wilson's engagement to J. R. King, Jr... Major Bulwinkle here, greeting friends... and Uncle Levi plans to celebrate another birthday on Aug. 17th.

There has never been a death in our community more deeply and sincerely regretted than that of Bill English on Sunday. There is little that we can add to what friends have already said personally, but the very numbers of those friends are a tribute to the kindness and friendliness that Bill had always shown. His passing was truly a loss to the community as well as to his family.

### PERSONALS

A birthday dinner was given for Mrs. Kell Fox Sunday at her home on Mine Fork. Over fifty relatives and friends were present from Asheville, Black Mtn., Swannanoa, Buladean, Celso, Elizabeth-Tenn., and from our own community. They all had a very enjoyable day together.

### TOWN AND FARM IN WARTIME

**Third War Loan Drive**  
Fifteen billion dollars is the goal for the Third War Loan which President Roosevelt has proclaimed will be launched September 9. In his proclamation the President said, "Our need for money now is greater than ever, and will continue to grow until the very day that Victory is won; so we must ask far more sacrifice, far more cooperation than ever before."

**Army Photo Service Grows**  
The Army's radio photo service, which made it possible for the public to see newspaper pictures of the assault on Sicily on the same day that the invasion was launched, will be augmented in the immediate future by the same type of transmission from the South Pacific theater, the War Department has announced. Personnel of the U. S. Army Signal Corps, with their equipment, are now in Australia, finishing preparations for the new service.

**Home Canners Warned**  
Home canners have been warned by the U. S. Department of Agriculture against the use of "canning powders" and other chemical preservatives. W. G. Campbell, Commissioner of the Federal Food and Drug Administration, said that use of some of the "canning powders" constitutes a definite health hazard. The safe way for the home canner is to process foods adequately with heat and not to use chemical preservatives. For safety's sake, rely on thorough heat sterilization.

### Gas Coupons Changed For Trips

Motorists can use their "A" ration books for trips into, or out of, the Eastern gasoline shortage area, according to rules recently announced by OPA. Since July 21, Eastern motorists have been using "A-6" coupons, while those outside the East have been using "A-7's". To overcome these difficulties in travel, "across the border" a new amendment to the Gasoline Rationing Regulations permit "A" ration holders to exchange any of their valid "A" coupons for other coupons that may be used in the area in which they expect to travel. Exchanges may be made and further information secured at the War Price and Rationing Board.

War Bonds should mean something more to you than just "a good sound investment." Figure it out yourself.

### Fewer New Tires

Smaller quotas of new passenger car tires for August and larger quotas of used and recapped tires have been announced by OPA, based on rationing allotments assigned for the month by the Office of Rubber Director. The August quota of Grade I tires is the lowest since last April. OPA officials warned that drivers who are eligible for new tires may have to accept used or recapped types as long as the quota of new tires is low.
