"SLIGHTLY DANGEROUS" STARS TURNER AND YOUNG IN COMEDY

"Slightly Dangerous," showing at the Yancey Theatre, Sun.-Mon. Oct. 15-16, brings Lana Turner and Robert Young together "for laughing purposes only," although they also figure in a romantic love story.

It provides the maddest, merriest farce either has ever been seen in. Miss Turner plays a soda clerk in a store of which Young is manager. He reprimands her for mixing sodas blindfolded so she leaves town and goes to New York—poses as an amnesia victim, and convinces a millionaire there that she is his long lost daughter.

Walter Brennan plays the millionaire. Young is blamed for her "suicide," and must produce her to save his job. Therefore he sets out to expose her amnesia ruse, and amid turbulent and laughable episodes they discover that they're in love.

FERTILIZER

The WFA urges early buying and delivery of fertilizer to avoid peak labor loads at fertilizer plants, to prevent over-loading of transportation facilities, and to relieve storage conditions.

BURNSVILLE - "So They Say"

The weather: Continued very dry till last night when a light "spring" rain fell. . . . We know rain is needed for farms and forest fire protection, but we regret to see the last of these marvelous Indian summer days.

About town: John Lee Hensley and attractive bride here from Texas. . . . D. R. Fouts up from South America for brief visit. It's a great country down there, he says. . . . Note from Loretta Stout who teaches in Indian school, Shiprock, New Mexico saying "Give regards to all friends" . . . and card from Clyde Bailey (plans to be home in about ten days, he writes) saying that Stanley is now "Somewhere in British Isles" . . . Buster Stamey writes that he's landed safely in the Pacific area and that he could enjoy some cool breezes we're having now! . . . The World Series over, with Yanks winning 3 to 1 . . . Several groups of listeners—in a round town during the exciting games, and we missed some of the ardent fans who used to gather round the radio—including the ball playing Anglin brothers, Kenneth Robertson, the Banner boys, etc., etc.

Several times during past week when the United War Fund was being discussed, we've heard this remark: "If people only understood about it, we wouldn't have to have any 'workers'." All we'd need would be some one to count the money. Maybe you're one of the folks who haven't thought much about it. Maybe you think it's just another drive—not even one for the Red Cross which we've learned to support more whole heartedly each year. It's easy to understand this drive. It's called UNITED because in one drive you give to sixteen agencies. It's called WAR because every dollar goes into war relief—at home and abroad, among our own and others who, through no fault of their own, are homeless and hungry. Of all Greek children born since 1940, less than one in seventy is alive today because of starvation conditions in that country. . . . Scattered over the world are 30,000,000 refugees from Axis terrors—homeless. You can not give them all a home, but you can help them live until liberation is theirs. Part of your contributions will go to them.

Then, a cause that comes even nearer to our hearts—the prisoners of war aid. There are more than 6,000,000 men in that "barbed wire legion". An official report of the work being carried on among them is published on page 1 of this issue. Read it for yourself, and remember that Stalag 3B (which means camp 3B) has a special significance for at least one family in the county. . . . These are only part of the agencies. . . .

Think it over. Perhaps you'd planned to give a dollar. That's o. k. If 2500 people in the county gave a dollar we'd exceed our quota. But divide your contribution up. That makes it less than a dime for each of the agencies. . . . One of

a better place, even if it is back in the hills. I could enjoy myself very much if I had the opportunity to be there.

Maybe I should tell the people who haven't seen Texas something about it. The part I am in at the present isn't so good, but I am sure there is plenty of good places to be found. I can grant you that we can't find better people, as I have become acquainted with a great many of them of the surrounding towns. A certain part of Texas is noted for beautiful scenery. While I am writing this I would like to say hello to all my friends, hope they are enjoying life, and are in perfect health.

I am wishing you all the best of luck, as we the soldiers are waiting the day when we victoriously return to our homes and loved ones. "To God, thy country, and thy friend be true."

Thanks again for the paper. Joseph Fred Beaver, Med. Det. 1851st U. Sth SC S.a. Hospital Camp Barkley, Texas.

F. R. Farnham of Asheville, district farm agent, was in the county office Wednesday to confer with the Yancey county farm agents.

WALNUT LOGS HELP

By furnishing black walnut logs that can be made into gunstocks to carry the fight to Hitler and Hirohito Western North Carolina farmers have found a new way to contribute to the war effort.

James Ray Orr, assistant farm agent in forestry for the State College Extension Service, reports that farmers in Jackson county have already cut and sold 131,879 board feet of black walnut logs for this purpose.

This record production was made between May 29 and September 25, and Orr believes that it will reach the 200,000 mark before Christmas.

Their harvest has given the farmers a return of \$48,886, or an average of \$67.37 per thousand board feet for the logs they have already delivered.

The campaign slogans is: Let your heart decide what you should give, then double your contribution.

And don't, please, any of you say that nobody asked you to contribute! Every one is busy and time is limited. Consider yourself a committee member. Send your contribution to the principal or teacher at your school, take it to your post master, give it to your rural mail carrier—the one man who never fails to get around in the rural sections—the farm agent or your Sunday School superintendent will be glad to bring it in—or mail it to C. P. Randolph, Burnsville. . . . We'll start the Honor Roll of contributors in the paper next week and if there's a thousand names we'll print 'em! Only—don't wait till the last minute. The drive opens Monday, but if you come to town Saturday, there's not a bit of objection to your being early at the game!

Just remember—it's wonderful to be ABLE to give instead of to receive!

Brevard, Oct. 12.—John Lee Ray, son of Mr. and Mrs. L. H. Ray, of Burnsville, is a member of the freshman class at Brevard college this fall.

John Lee graduated from Burnsville high school last spring.

There are nearly 300 students at Brevard college this year and the girls outnumber the boys nearly four to one.

LARD

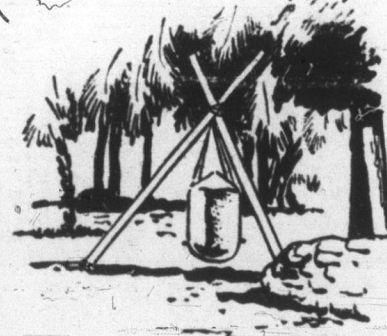

Recent tests indicate that large hogs not only have yields more lard than fat of smaller pigs.

Between 1906 and 1917 the United States built 14 battleships of the dreadnaught type and, at the outbreak of the First World War, the Navy possessed 37 battleships.

What You Buy With WAR BONDS

Water Camel

Thirst is one enemy of armies and navies that may be frustrated by a generous supply of water. Typhus, another dreaded plague is another enemy that must be subdued in Africa, in the jungle islands of the Pacific.

So the "Lister Bag," more often called the "water camel," or just "camel," is used. The "Lister Bag" is a khaki colored canvas bag having a capacity of about 30 gallons. It will require many War Bonds to provide enough "camels" for our fighting forces at home and abroad. Yours too! "Back the attack with War Bonds." U. S. Treasury Department

HOW YOU CAN GET

1/3 MORE FOR YOUR PULPWOOD

Cut Pulpwood for Victory.

There is a great shortage of pulpwood, vitally needed for rayon parachutes, nitrocellulose explosives, surgical dressings, blood plasma containers and hundreds of other war uses. Cut every cord you can. Your country needs it.

And that's when you will need a nice nest egg to buy the things you want—like a home, a car, or a radio.

This is a pulpwood-producing community. Pulpwood is our own war industry; our opportunity to serve our war-time responsibility.

Put Your Pulpwood Money

into War Bonds. Pulpwood is bringing good prices now, but you can get even more by putting the money you get for it into War Bonds. Every \$3 will come back to you as \$4 after the war.

Let's all get busy with our axes—do our patriotic duty today and lay by a reserve of war bonds that will insure continued prosperity for all of us through the post-war years.
