THREE WAYS TO PROTECT YOURSELF AGAINST CANCER

1. See a Doctor When— Consult a doctor immediately when any of the following danger signals occur:

Any sore that does not heal— particularly about the tongue, mouth or lips.

A painless lump or thickening, especially in the breast, lip or tongue.

Progressive change in the color or size of a wart, mole or birthmark.

Persistent indigestion.

Persistent hoarseness, unexplained cough, or difficulty in swallowing.

2. Observe These Vital Health Rules

Keep the mouth, tongue and throat clean.

Keep the teeth clean and free from cavities and jagged edges that scratch the tongue or cheek.

Avoid clothing that is uncomfortably tight fitting or chafing, especially to the breasts and abdomen.

Avoid the use of food or drink that proves irritating to the stomach.

Keep the skin clean.

3. Give to Fight Cancer

Your most vital gift—is the amount you give to fight cancer. Make that gift now!
