BURNSVILLE — "So They Say"

The weather: Really cool, and perfect Indian summer days and nights! Some bright color in the leaves and the golden rod and wild asters blooming in profusion.

About town: College students leaving for school these days and the town will soon look a little less lively. . . It's grand, however, to learn that Burnsville has final approval for establishing an Off-Campus center here, so we'll have a number of students studying right here. . . Registration will take place on Sept. 23, and all students, veteran or non-veteran, will register then. A representative from the University will be here to aid in getting everything lined up and started. A wonderful opportunity to earn a full year's credit for college work! . . . Big order for books for the library was sent off last week. Inquire about these all along! They should arrive just in time for sit-by-the-fire reading. . . The auction sale at the Bald Creek Gym on Saturday evening sounds most interesting. . . Sorry we haven't heard anything else this week. Really, folks should "say more!"

Ruth McIntosh who recently received a discharge from the Marine Corps is now at home visiting her parents, Mr. and Mrs. J. C. McIntosh.

Mrs. M. C. Honeycutt has returned from a visit with relatives in Washington and New York. Beth Honeycutt accompanied her home for a visit.

REWARD: For return of Wheel and Tire taken from trunk of 1941 Model Packard Clipper Sedan at Nu-Wray Hotel. Impossible to replace wheel, therefore \$25 Reward for wheel and tire complete. See Edward S. Shorter at NU-WRAY HOTEL, Burnsville.

FOR SALE: One New Concrete Block Machine and mixer complete. Machine is at my house in Pensacola. C. D. Wilson.

Behind Your Bonds

Lies the Might of America

MISSISSIPPI'S CONTRIBUTION

The U. S. Waterways Experiment Station, near Vicksburg, Miss., solves problems arising in the improvement of rivers and harbors throughout the Nation. Over 10,000 women in the state can three million quarts of food a year; a Pascagoula factory makes beach slippers from wood, and 80 per cent of the Nation's shrimp is caught and shipped there. Their contribution to the National wealth behind Savings Bonds will increase in coming years.

CIGARETTES

From the day that sweeter, brighter tobacco, adaptable to cigarettes, was discovered in Caswell County, in 1852 and Washington Duke installed a Bonsack machine in his Winston-Salem, N. C., plant for making them, the cigarette business has expanded tremendously. A half billion dollar industry when World War II opened, it will continue to enrich the Nation and add resources to guarantee Savings Bonds.
