The revolutionary new Ford four-door sedan for 1949 is lower, wider, roomier and provides nearly 25 per cent more visibility.

NEW FORD GIVES OUTSTANDING PERFORMANCE

The 1949 Ford, which reveals a radical departure from traditional Ford styling and engineering, was made public today by the Ford Motor Company.

"New standards of beauty, comfort, economy and performance in the 1949 Ford passenger cars advance them far ahead of others in the low-priced field," J.

R. Davis, vice-president and director of sales and advertising, said. "Styling of the new Ford definitely establishes it as the car of the year."

To develop and produce the 1949 Ford passenger cars, Ford Motor Company has expended more than \$37,400,000 in tools, dies, jigs and fixtures.

In styling, comfort, economy, safety, and performance, the new Ford is outstanding.

There are two lines of cars, the Ford and the Ford Custom. Body styles in both lines include the four door sedan, two door sedan and club coupe. Convertible and station wagon models are obtained only in the Custom line and the three passenger coupe only in the Ford line.

Mrs. E. F. Watson of Spruce Pine had the misfortune to fall and break her leg recently.

Summer in the Mountains. . . and the Black Mountain Range (above) that was dark and formidable looking during the winter months, is now clothed in the green of forests, and the bright colors of summer flowers. Masses of mountain laurel and rhododendron present never-to-be forgotten scenes, and the many clear mountain streams add their beauty. Visit the great outdoors as often as possible during these summer months, and enjoy the matchless scenery and climate of this section of which the Black Mountains are typical.
