MOST EFFICIENT COOLING SYSTEM with jet-directed water stream to valve areas.

TOCCO-HARDENED CRANKSHAFTS - finest known - used in every GMC.

FULL-PRESSURE LUBRICATION with rifle-drilled connecting rods which forces oil to full-floating piston pins.

MILES PER ENGINE - the number of trouble-free miles you can expect from a truck engine is mighty important to know - especially now.

GMC valve-in-head engines are designed and built for truck service - there's not one lightweight "converted" part in even the smallest GMC engine!

GMC engines are tough and powerful. They have high sustained pulling power at normal operating speeds - don't have to race themselves to death like lighter-duty, geared-up engines.

Check GMC's many other extra engine features and you'll see why you get most Miles Per Engine in a GMC - with less maintenance and repair. Come in today and let us give you the facts.
