REA ANNOUNCES ANNUAL MEET

The French Broad Electric Membership Corporation of Marshall will hold its 1951 annual meeting on April 21, at the Marshall High School, according to an announcement this week by D. M. Robinson, Manager of the cooperative. "In view of the critical times ahead of us," Robinson said, "we consider this meeting one of the most important in the co-op's history. We are fortunate in having most of our major line extensions completed, but shortages will have an effect on our operations in spite of this. The Board of directors feel that a general discussion with a large group of our members would be invaluable at this time."

Harry B. Caldwell, Master of the North Carolina State Grange, will be the principle speaker. Mr. Caldwell is well known in this section and is recognized as one of the South's most influential farm leaders. In addition to his duties with the Grange, he is secretary of the North Carolina Cooperative Council.

Other outstanding features of this year's meeting will be announced at a later date.

The treasurer reported that \$3150 has been given him by campaign workers to the present date. It is expected that the final report will reflect donations of more than \$3300, he said.

HEARING ON DOG LEGISLATION TO BE HELD

Farm Agent E. L. Dillingham announced earlier this week that there will be a meeting of Livestock raisers, dog owners and any other persons who are interested in the legislation under study in the General Assembly concerning dogs. The meeting is being sponsored by the Farm Bureau and will be presided over by George Farthing, Farm Bureau representative for Western North Carolina.

Dillingham pointed out that the Assembly is expected to take action on the proposed bill next week and that it would be well for all interested persons to attend the meeting. The law if passed, will provide for a county "dog catcher" to take care of stray dogs, see that owners list their dogs on tax books, etc.

Representative Atkins and State Senator Banks are expected to attend the hearing.

WASHINGTON, D. C. — President Truman, requested an additional 870 million dollar appropriation for development of atomic energy, part of which will be used to perfect atomic-operated aircraft, ships and power generating facilities. The president made this disclosure in his budget message to Congress in which he said that, "\$1,227,000,000 will be spent for atomic energy development in the coming 1952 fiscal year. Part of this will be financed out of left-over funds." The diagram above shows where the money comes from and where it will go.

Wise Mothers FIND NEW RELIEF!

For STUFFINESS, COUGHS of COLDS

Wise mothers know how really effective Vicks VapoRub is when you rub it on. Now, for amazing new relief when colds cause coughing, upper bronchial congestion, or that "stuffed-up" feeling, modern mothers use VapoRub this special way, too — in steam! It brings relief almost instantly. Put 1 or 2 good spoonfuls of VapoRub in a vaporizer or bowl of boiling water, as directed in package. Then... breathe in soothing, medicated vapors. Every breath eases coughing, relieves that "chokey" feeling. For continued relief—even while you sleep—rub it on, too.
