FISHOMATICS
By Uncle Fud

When reporting the size of that big fish you caught, you know your friends will subtract at least twelve inches to compensate for your exaggerated honesty, therefore, add an extra twelve or fourteen inches.

To adjust actual size to a fisherman's conception of length, add another twelve inches.

To compensate for normal shrinkage after rigor mortis sets in, add another eight inches.

Since a few inches more or less makes little difference where large fish are concerned, add another five to six inches just for good measure.

Note: The above formula applies to fish caught in your local area. When reporting the size of fish caught in areas beyond the range of any possible check up on your stories—**LET YOUR CONSCIENCE BE YOUR GUIDE.**

BOOKMOBILE SCHEDULE

The Yancey County Bookmobile schedule for the coming week has been announced as follows:

THURSDAY, August 9:
Double Island Road, home of Mrs. Cora Ray, 10:00 a. m.;
Lowe Thomas' Store, 10:45 a. m.;
Brush Creek, home of Mrs. Howard Garland, 11:30 a. m.;
home of J. B. Wheeler, 11:45 a. m.;
Nell Johnson's Store, 1:00 p. m.;
Tipton's Grocery, 1:30 p. m.;
Pig Pen Road, home of Miss Osma Newton, 2:00 p. m.;
Toledo Post Office, 2:30 p. m.;
home of Mrs. C. H. Warrick, 3:00 p. m.;
Mine Fork Church, 3:45 p. m.;
home of V. L. Edwards, 4:15 p. m.
FRIDAY, August 10: Burns-

Greensboro Man Appointed Freedom Crusade Chairman

Raleigh.—John Harden of Greensboro, Vice President of Burlington Mills Corporation has been appointed North Carolina chairman for the 1951 Crusade for Freedom—the national program headed by General Lucius D. Clay to fight Communism through propaganda behind the Iron Curtain.

Reuben B. Robertson of Canton, chairman of the board of directors of the Champion Paper and Fibre Company and a member of the National Committee for a Free Europe, announced the appointment and said that the second annual drive for contributions would be opened in September.

Louis M. Connor, Jr., of Raleigh, will serve again this year as state director for the program.

Harden stated that more freedom-stations to expand the Radio Free Europe network, made possible by the 1950 Crusade, are "badly needed to counteract the lies and distortions spread by the gigantic Soviet-directed propaganda machine."

"Every North Carolinian has the opportunity—through the 1951 Crusade—to help provide at least two more powerful transmitters for Radio Free Europe and to establish a freedom-station in Asia to stop the spread of Communism in the Far East."

Funds contributed in the 1950 Crusade were used to build the new Munich transmitter of Radio Free Europe, which went on the air May 1 with its directional antenna beamed to Czechoslovakia in direct competition with Radio Prague and Radio Bratislava. Crusade agents inside Czechoslovakia report that its signal is being heard three or four times louder than anything on the Czech dial.

ville, George Lee Griffith's Grocery, 9:30 a. m.;
Micaville, home of Mrs. Leona Mumpom-er, 10:30 a. m.;
Newdale, home of Mrs. Woodrow Howell, 11:30 a. m.;
Parsley's Grocery, 1:30 p. m.;
Crabtree Grocery, 2:30 p. m.;
Arbuckle Road, home of Mrs. Gus Young, 3:00 p. m.;
Boonford Church, 3:30 p. m.;
Robinson's Dairy, 3:45 p. m.;
Windom Post Office, 4:15 p. m.

The North Carolina Council of Churches is continuing its work literally in the fields this month with a religious and recreation ministry, for some of the state's approximately 10,000 agricultural migrants now in western North Carolina. The Rev. James G. Crowder of Hood Theological Seminary, Salisbury, with his mobile unit full of program equipment, has been in the Hendersonville area this month, and will continue his work among 1,000 migrant workers there through September 5. Sponsored by the Hendersonville ministers, in cooperation with the North Carolina Council of Churches,

the work consists of religious and recreational programs and personal counseling. It is the first year such a program has been carried out, and is planned as an annual part of the Council's activity. The Rev. Mr. Crowder's aptly-named "Harvester" is actually a combined church, school, music and recreation center, library, medical center and movie athletic equipment, a portable organ, altar and communion set, hymnals, Bibles and gospel portions, books, games and athletic equipment, a portable record player and public address system, first-aid kit, and movie projector.

Milk Handlers To Secure Health Certificates

At the quarterly meeting of the Avery-Mitchell-Yancey District Board of Health, held on July 16 in the Spruce Pine health office, the following supplement to the Public Health Service Standard Milk Ordinance was approved:

"For the better protection of public health, be it ordained by the District Board of Health that it shall be unlawful for any person to work in a producer dairy (wholesale), retail raw, pasteurizing plant, or to drive a truck, or any sort of vehicle in which milk is transported, without first having secured a health certificate, which shall consist of a blood test, chest X-ray, and other such examination as the Health Officer may require from time to time, and which in his opinion is necessary for better protection of public health."

The District Board of Health members present also gave a unanimous vote of confidence to Dr. McRae and his staff.

Make Strawberry Chiffon Dessert Before Fresh Berries Bow Out

The strawberry season is much too short for everyone who likes luscious desserts so you can't serve them too often during their limited engagement at the market. Put your next pint of the beautiful berries, via gel-cookery, in a Strawberry Chiffon Dessert like the one in the picture. It's made with unflavored gelatine and whipped evaporated milk so it staves an honest claim for thrifty dessert honors. Only one pint of berries, but it serves 8!

Like all dishes made with unflavored gelatine, Strawberry Chiffon Dessert can be made hours in advance of serving time. If you'd like to serve Strawberry Chiffon Pie, turn the mixture into a baked 10-inch pie shell instead of a mold.

- Strawberry Chiffon Dessert
- 1 pint strawberries
 - 1 envelope unflavored gelatine
 - 3/4 cup water
 - 2/3 cup sugar
 - 1 teaspoon salt
 - 3 tablespoons lemon juice
 - 1 teaspoon lemon rind
 - 1 tall can icy cold evaporated milk

Crush strawberries with a fork reserving 3 for garnishing. Soften gelatin in water; place over boiling water and stir until gelatine is dissolved. Remove from heat; add sugar and salt and stir until dissolved. Mix in strawberries, lemon juice and rind; chill until the mixture is the consistency of unbeaten egg white. Whip chilled evaporated milk until stiff; beat in gelatine mixture. Turn into 1 1/2 quart mold. Chill until firm. To serve, unmold and garnish with whipped cream and sliced strawberries.

YIELD: 8 servings.

HIGHWAY PROGRAM SPURTS FORWARD

Raleigh.—Nearly two-thirds of Governor Scott's requested 12,000-mile paving goal on secondary roads under the \$200,000,000 bond program had been completed by July 1, Highway Chairman Henry W. Jordan reported today.

Cumulative figures from the 10 highway divisions show that 7,585 miles of farm-to-market roads have been hard-surfaced in North Carolina since January 1, 1949. During the same period, 10,696 miles of roads have been stabilized for all-weather travel.

Chairman Jordan said the total mileage of paving on county roads represents 63 per cent completion of the secondary road building program provided by the bond issue.

At least 11 counties have passed their projected paving goals since the program got under way. They are Johnston, Wayne, Davidson, Harnet, Hoke, Moore, Robeson, Scotland, Anson, Montgomery and Richmond.

The mid-state Sixth Highway Division, for which George S. Coble of Lexington is commissioner, continued to lead all other sections of the state in miles of road paved. The Sixth reported 1,323 miles of secondary roads hard-surfaced through June 30. Next came the Seventh Division, under the direction of Commissioner M. Otis Poole of Candor, with 1,093 miles of paving completed.

Figures on county road paving in other divisions since the bond program started are: First Division, 684 miles; Second, 709; Third, 926; Fourth, 964; Fifth, 501; Eighth, 450; Ninth, 578; and Tenth, 356 miles.

The figures do not include resurfacing. In the first six months of the year, total paving under the program increased from 5,811 miles to 7,585, a spurt of 1,774 miles.

Through June 30, the Commission had made allotments for \$131,378,193 of the \$200,000,000 bond issue, and actual expenditures on bond roads had totaled \$94,731,931.

A group of Vance County home demonstration club women has just completed a 16-lesson course in the fundamentals of sewing.

NAMED IN CAGE SCANDAL

Chicago.—Eli George Kluchofsky (above), a New York bookmaker was named by All-American basketball ace Gene "Squeaky" Melchiorre as the "pay-off man and arranger" in the Bradley University basketball scandal. The four Bradley players involved were Bill Mann, Aafon Preece, Charles Grover and Melchiorre.

Dearborn, Mich. — During World War II, Ford Motor Company built B-24 Liberator bombers for the government on the first progressive assembly lines used in aircraft production in the United States. Ford produced 8,685 of the B-24s in two years and ten months. Most of the mass methods of production, including use of assembly lines, were pioneered by Ford Motor Company.
