PRESBYTERIAN NEWS

By Rev. Charles Moffatt

Thirty-three people from the Micaville, Newdale, and Estatao Churches attended the Town and Country Church Convocation which met on Tuesday afternoon and night at Spruce Pine. There were also several representatives from the Paint Gap Church and the Rev. David Swartz came from the Burnsville Church. Much information and inspiration was gained at this meeting which will give valuable aid to our Sunday School and Church.

Mrs. D. R. Beeson of Johnson City, Tenn., will conduct a Training School for the Women of the Church next Wednesday, March 26, at the Newdale Church. The program will begin at 9:30 a. m. and will be concluded at 3:00 p. m. Dinner will be served at the church. We again urge every woman to avail herself of this excellent training opportunity.

The officers of the Newdale Church will meet on Monday night at 7:00 p. m. to plan the new budget and discuss plans to complete the church basement and make repairs.

Services are as follows:

- 10:00—Newdale
- 11:00—Estatao
- 7:00—Micaville

EVEN IN HOMES where laundry is done regularly, there are always some small items which get individual attention in the wash bowl. These may be very fragile articles of clothing, or those which need laundering between the regular "wash days."

Wash bowl laundry can be successful only if you give the clothing proper cleaning and attention, not just the soap or detergent and water treatment.

With hard water, use a softener or a conditioner, as dirt always comes out more speedily in soft water. Add these before soap or detergent so you'll get proper suds. Clothing dried indoors and quickly will yellow much faster than

RECIPE OF THE WEEK
Molded Ginger Ale Salad (Serves 4-6)
¾ cup ginger ale
1 package lemon-flavored gelatin
½ cup cubed, canned pineapple
½ cup broken walnut meats
½ cup dates, cut in pieces
Lettuce
Heat 1 cup ginger ale and pour over gelatin. Stir until completely dissolved. Add remaining ginger ale (cold) and cool mixture until of the consistency of molasses. Add fruits and nuts and pour into individual molds. Chill until firm. Unmold and serve with lettuce, with mayonnaise thinned with pineapple juice.

those dried out in air and sunshine. For this reason it's advisable to use a bluing, even if slight, as it will counteract yellowness.

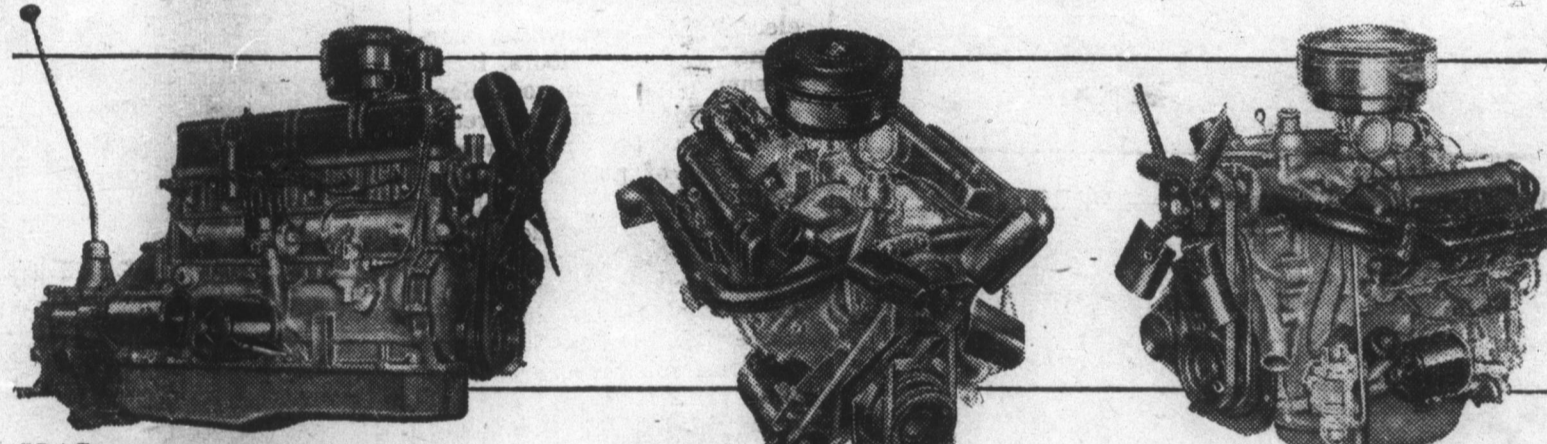

Bleach should be added to the white cottons when washing so they do not turn gray. Always use the amount directed on the package or bottle, as too much may prove too strong and thus cause the clothes to fall apart.

Quick starches are valuable, too, in making the clothes crisp. Use a bottled type which is always ready or an instant type which just needs stirring into the water.

Rinsing is as important as washing, whether it's done as part of the big laundry or in a wash basin. Two of three rinses are essential, and the water should be the same temperature as that used for actual washing.

For '52 Ford cuts Truck Running Costs Again!

Now...Three new HIGH compression LOW friction Engines in FORD TRUCKS for '52!

F.D.A.F. 101-H.P. COST CLIPPER SIX; New LOW-FRICTION design. 212 cu. in. Available Series F-1 thru F-5. 145-H.P. CARGO KING V-8; New LOW-FRICTION design. 279 cu. in. Standard in Series F-7. 155-H.P. CARGO KING V-8; New LOW-FRICTION design. 317 cu. in. Standard in Series F-8.

New, ultra-modern overhead-valve engines give you more horsepower per cubic inch displacement. Designed for modern Speed Hauling! Engineered to save up to 14% on gas!

Ford Truck engineering has always been step-ahead engineering!
Example: Ford pioneered V-8 power for trucks!
Example: Ford built longer life into Ford Trucks and proved it with registrations... "Ford Trucks Last Longer!"
Example: Ford demonstrated Power Pilot economy in 50-million-mile Ford Truck Economy Run... and made the results available in an exclusive Book for every operator's benefit!

NOW Ford offers 3 new LOW-FRICTION truck engines—two new Cargo King V-8's and new Cost Clipper Six—that save up to 1 gallon of gas in every 7... deliver more power per cubic inch... time-saving power tuned to today's Speed-Hauling needs!

New LOW-FRICTION design liberates "captive" power!
Ordinarily, engine friction steals as much as 30% of the power your engine develops. Ford short stroke LOW-FRICTION design cuts

piston travel up to one-fifth, reduces friction drag and heat and wear.
Other friction-fighting features: New Super-fitted Autothermic Pistons; New Precision-molded Cast Alloy Crankshafts; New Full-Flow Oil Filters! New Cooling!

Ford's economy-proved, world-famed 239 cu. in. V-8 engine rating is increased to 106 h.p. And the 254 cu. in. Btc Six is upped to 112 h.p.

Now five great truck engines... over 275 series power combinations... in the new 1952 line, there's a new Ford Truck that's right for your hauling job!

Ford Trucks for '52 cost still less to run!
