VIOLET RAYS ON OUR WAYS

By H. M. Alley

Note: This column is written with malice toward none, but with the common good of all in mind.

A report from The American Bible Society reveals that since 1818 the Society has supplied the men and women of our American Armed Services with 40,000,000 copies of the Holy Scriptures.

Among things one should keep to himself: What one knows about the other fellow's affairs; what one does not know about anything under discussion; and of all things—a bad cold!

A scientist insists that man originated some 50,000,000 years ago. Could it be possible that it has taken man that long to learn how to control himself, and all the world besides?

An advertisement says that, "Paint will save your home." That being the case there surely must be a considerable amount of aversion to paint on

the part of many husbands and wives. Of course the advertisement... intended "house" instead of "home," but they should be reminded that there are many painted houses, with people living in them which could never properly be called homes.

Many people have gone bankrupt by spending what they had tried to make the public think they had, when they never did possess it.

Seemingly the hardest things for some women to remember are their birthdays—that is how many they've already had!

We read of one woman who was fined \$50.00 for pulling her neighbor's hair. Well, wagner that many women have paid more for less satisfaction!

A Psychologist advises, "If you want to be popular, learn to be a good listener." He might have added that this was also a mighty good way to be bored to death.

One thing that is causing so many highway fatalities, and putting people deeper and deeper in the Red financially is that too many folk are driving their cars the distance around the world without really going anywhere!

Many people are crippled for life by falling in love!

Over and over somebody gets badly burned by picking up a hot bargain!

And as might have been ex-

pected some smart guy has come forward with the idea of "Drive-In" churches. At least that should have its appeal to "courtin' couples".

Back in 1900 uranium was considered worthless. But that was almost a half century before men discovered how useful it could be as a destroyer.

In the eyes of the world a man is a big shot when he drives a costly car, lives in a mansion, and operates a big business, even though he may not own the title to any of them. Of course in his own eyes a Big Shot well-nigh owns the town title or no title.

Nuff Sed

TWO YANCEY BOYS JOIN THE NAVY

Two graduates of Clearmont High School, Keith Letterman and Richard Dayton, left for the Navy, May 30.

Keith is the son of Walter and Ruetta Letterman of Day Book and Richard is the son of Mr. and Mrs. Euranus Dayton of Rt. 1, Burnsville. They are now stationed at Great Lakes, Illinois.

POETRY CORNER

Conducted By Edith Deaderick Erskine

TRESPASSING

I wandered past the highway Of my neighbor's hated house; I glowered at the windows And I ruffled like a grouse. My neighbor'd gone to city And his windows caught the sun; My cursing came back empty And my thoughts began to run. I trespassed in his birches And I crossed his dew-lawn; I trembled at the beauty Of a stratled dappled fawn. I wondered what my neighbor Felt when he went walking down— Light dappled through white birches On his lonely way to town.

Manfred A. Carter, Hampden, Maine

(Poetry for this corner should be sent direct to Edith Deaderick Erskine, Weaver ville, N. C.)

4-H AWARDS

(Continued from page 1)

of 4-H Club work to the attention of the community. Participation may include writing speaking, acting or production for radio and television; writing for newspapers; taking part in group discussions; or other public relations activities.

Awards, provided by Gene Autry and the Wm. Wrigley, Jr. Company, consist of certificates of honor for the state winning boy and girl; expense-paid trips to the National 4-H Club Congress for eight sectional winners; and two national scholarships of \$300 to a boy and a girl.

Both programs are conducted by the Cooperative Extension Service, and the awards arranged by the National Committee on Boys and Girls Club Work. Full information is available from county Extension offices.

CHECKERBOARD NEWS

by

Os Deyton

and

Royce Lee Howell

It looks as though Oliver Hensley has challenged all other hog growers to a contest to see who can make the best hog by fall. Oliver says he started a very small pig on Pig Startena and later switched to Hog Fatena. His cost per pound of gain is very low and people are guessing his hog to weigh 400 pounds now. Any challenge's had better get busy.

Some people prefer a smaller hog at killing time and it is no trouble to make a top market hog in 5 months by following the Purina hog program of feeding and management. If you have corn feed the supplement and if you have no grain feed Hog Fatena after the hog weighs 100 lbs.

HEAT CAN MELT AWAY YOUR PROFITS

Cattle, hogs and poultry are most productive when the thermometer reads about 60 degrees. At higher temperatures, 75 and 80 degrees, they begin to have difficulty. Appetites lag and efficiency decreases.

Provide all animals and poultry with plenty of fresh, clean water.

Shade and wallows or sprinkler systems do most to help hogs keep cool. Place feed and water in shade, if possible.

It may help to put straw or hay over the poultry house roof, if uninsulated. If birds hold wings out from body and pant, water the roof with sprinklers

or garden hose as quickly as you can.

Provide shade and freedom from flies for cows. Dairy cows do best when temperature is 40 to 60 degrees. And, of course, be sure there's plenty of water.

Fitting stock for the County Fair

We've got a half dozen, or more 4-H boys and girls who are fitting their stock for the Cayuga County Fair. We've seen some of the animals and it looks like competition will be keen this year. Any of you kids need some tips, stop by and see Jake Moser our trained feeding advisor. He'll be happy to help.

HEALTH HINT

It's easy to kill house flies, county or city breed, the Purina way with Home Aero-Spray. Just press the top valve and presto they turn up their heels and die. All fooling aside, it's a good product. Try it today.

DON'T FAIL to stop in and see our Pullet Derby next time you're in town.

Many of our customers swear by the good results they get from Purina disinfectant. It's colorless and odorless...tops for cleaning and sanitizing feeders, waterers, brooders and other poultry and livestock equipment. Dairymen like it for cleaning and disinfecting milk processing equipment, too.

YOU CAN SAVE UP TO 50% BY USING OUR RECAPS YOU'LL SAVE YOUR CAR, TIRES, AND MONEY BY HAVING YOUR WHEELS BALANCED NOW.

LET OUR EXPERTS INSPECT YOUR TIRES TODAY AND SHOW YOU HOW TO GET MORE ENJOYABLE DRIVING FOR LESS MONEY.
