Spring Fire Season

By Wm. A. Tuttle, Forester Toecane District

The annual spring fire season in Western North Carolina is now in full swing. Due to wet weather, no real fire danger has existed in this area until the last week or two. As the weather improves and sun and wind have their drying effect on the woods, the danger of fire increases and use of care in handling of outside burning must be emphasized. High winds coupled with warm sunshine work to greatly increase the flammability of the forest fuel, and fires are more apt to get loose and out of control resulting in destruction of valuable woodlands, wildlife and other resources of the forest areas. Burning permits are required for burning between the hours of midnight and 4:00 P. M. during fire season and may be obtained from the County Ranger of the North Carolina Forest Service or from the U. S. Forest Service in Burnsville.

The fire record on National Forest land in this area has been excellent, with no fires during the last year. This is due in large part to the fine help and cooperation of local residents. Their cooperation is greatly appreciated and is requested again during the coming weeks of increased dryness and fire danger.

125 Dogs Taken In At Animal Shelter

Since the opening of the Animal Shelter in the county about two months ago, approximately 125 dogs have been picked up by the dog warden. Over half of these were stray dogs and the rest came from owners who did not want them. R. B. Deyton, county dog warden, stated.

Mr. Deyton makes every effort to locate owners of dogs he finds. Three dogs taken in at the shelter have been returned to their owners.

All dogs are held seven days before being disposed of. Anyone wanting one of the dogs not claimed after seven days, may have it by paying for having it vaccinated and the board bill while at the shelter, making a total of \$4.

Mr. Deyton may be contacted at the shelter on Green Mountain Road any week-day morning, Monday through Friday, between the hours of 7:00 and 9:00 a. m., and most every afternoon from 3:30 to 5:00 p. m.

A \$450 motor has been donated by Aldridge Motor Co., Spruce Pine, for use at the shelter in disposing of dogs not claimed by owners or taken by other people after the 7-day period. The method used at the shelter for disposing of dogs is the recommended method of the Society of Prevention of Cruelty to Animals.
