Under the . new amendments, the disabled person's dependents will be paid the same benefits they would receive if he were 65 and drawing benefits as a retired worker. Benefits can be raid to any of his children who are under age 18 (or who have been totally disabled since before their 18th birthdays), and to his wife regardless of her age, if she has in her care children who are eligible for these dependent's benefits. If there is no child in the family eligible for benefits, the wife of a disabled person can qualify for benefits when she (Continued on back page)
