Holiday Time Is Fruit Cake Time

By: June Street, Home Agent

Holiday time is fruit cake time. Whether you're preparing gifts for neighbors, leaving a snack for Santa or stuffing stockings, home made fruit cake is always welcome. Fruit cake is a life-saver when guests arrive during the holidays. The beauty of a fruit cake is that it can be kept for mon-

ths, that is if you know the secret of creating a cake that is flavorrich and slices neatly and easily. All fruit cakes are mixtures of fruit and nuts bound together with enough batter to hold the fruits

together, others have more.

of fruit cakes: a dark, light and white. The dark fruit cakes contain more spices and molasses than light ones. Both have a plain or pound cake base. White fruit cakes have a silver or white batter, using only the egg whites and not the yolks. Only fruits and sometimes nuts that are white (such as almonds and Brazil nuts) are used and no spices; red cherries are added to white fruit cakes for contrast in color.

The success of your fruit cake depends os how well you prepare the ingredients and the way you

Points on Preparing Fruit Cakes Cut fruits for all fruit cakes in small uniform pieces. This will give you a sample of all the different fruits and nuts in even a small piece of cake.

Use 1-3 to ½ of the flour given in the fruit cake recipe to coat and separate (dredge) each piece of fruit and nut. Be sure no extra flour sticks in the wrinkles of raisins and currents.

Tips on Cooking Fruit Cakes There are two general ways of cooking fruit cakes. You may bake them the whole time or use a combination of baking and steaming.

Baked fruit cakes scorch easily because of the large amount of fruit and sugar in them. To prevent scorching, line pans with greased paper and bake cakes at a low temperature (250 degrees-300 degrees F.) A pan of water placed in the oven under the cake during baking gives you a cake with a moist, shiny, uncracked top. Any loaf or round pan may be used, but one with a tube in the center helps you get a more uniform baking throughout the cake. The heat gets to the center of Churches in this association which the thick mass of batter more was scheduled for Monday night quickly. Fill cake pans up to 3-4 has been postponed to Thursday inch of the top.

Steamed fruit cakes may be cooked at West Burnsville Church due to in a steamer or pressure cooker. a conflict with another meeting. pital last week included Kate live turkey for your Christmas They are more moist and have a All associations in the Southern Huskins, Coy Sparks, Frances closer, heavier testure than a Baptist Convention observe M night Lowe, and Troy McIntosh of baked fruit cake.
