Fancy... Yet Quick and Easy

THIS FRUIT CREAM CAKE is quite fancy and looks and tastes like a dessert that has been fussed over. But good news... it can be made quickly and easily. Cake layers... made from a mix, or store-bought... instant lemon pudding mix and canned or fresh orange sections prove the point. The instant lemon pudding mix takes one minute to mix, then it sets to perfect consistency for filling the cake while you split the sponge layers and whip the cream. Arrange orange sections in a decorative swirl and serve the cake proudly to the family or guests!

FRUIT CREAM CAKE
 1 1/2 cups cold milk or light cream 1 cup fresh or drained canned orange sections
 1 package Jell-O Lemon 1/2 cup cream, whipped and sweetened to taste
 Instant Pudding
 2 eight-inch cake layers
 * Or use 1 cup prepared dessert topping mix.
 Pour milk or light cream into mixing bowl. Add pudding mix and beat slowly with egg beater just until well mixed, about 1 minute. Let stand to set—takes 5 minutes.
 Split cake layers horizontally to make 4 layers. Stir filling until creamy. Spread between layers. Chill about 1 hour. Just before serving, spread whipped cream on top of cake and garnish with orange sections. Makes 10 to 12 servings.

Inside Look

Laboratory technician uses X-ray to check position of coils within sealed electric range surface cooking unit. To assure dependability, Frigidaire borrowed this technique from the medical profession to analyze new designs and double check manufacturing processes. Painstaking scrutiny, such as this, is carried out by an army of engineers and quality control technicians for every part and component, as well as the finished appliance.
