You Can Make Hay In The Winter

Those long winter days and evenings, when the wind howls and the snow blows, are just right to make hay in the way of fixing up around the farm and home. There are a lot of things you had to let slide in the good old summertime, and spring and fall, because you didn't have time. Take time this winter and while away those indoor hours with hammer and nails, saw and paint brush, fixing up everything for the year that's coming. We can help you with our complete line of builders' supplies.
