Danny Tackles Doggondest Job!

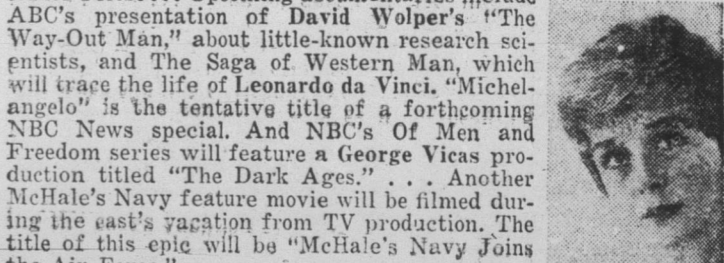

Danny Thomas suggests that unless pet owners want to make a comedy act out of washing their dog, they follow these helpful hints to soften the job. Don't use heavily scented soap, or too much water, unless you like to go swimming with your pet, says Danny. The comedian also points out not to use water that is too hot, or dunk the sensitive nose. The big assist, Danny mentions, is Culligan soft water in his home, which makes lots of lather that rinses away quickly. Do yourself and your dog a favor by making it a speedy job.
