

GARDEN TIME

BY: M. E. GARDNER

A White House Conference on Natural Beauty was recently held in Washington. Dr. Seibert, of the American Horticultural Society, attended the conference and was concerned that none of the participating panels stressed a consideration of plants and their importance in maintaining natural beauty. Most of the discussion centered around auto graveyards, billboards, etc.

He prepared a statement and requested that it be included in the Proceedings of the White House Conference on Natural Beauty. I am quoting, in part, from his report.

Cultivated plants, and plants growing in their natural environment, are important in creating, restoring and maintaining the natural beauty of our national landscape. Nature, alone, can seldom be restored to its former natural beauty without the assistance of all citizens in helping heal the ravages caused by man's own neglect in protecting our natural resources and his failure to

practice sound measures of conservation.

More research is needed to test and evaluate plants that are suitable for use in the beautification programs in all sections of America. This is essential due to the wide range of environmental differences we find between Maine and Florida, as one example.

Horticultural education and the training of competent plantsmen must become a part of America's effort to restore and preserve our natural beauty.

The current national attention which the President is placing on "A More Beautiful America" must be brought to the attention of all citizens if it is to be effective. Whether or not it is effective will depend upon how much individual responsibility each of us is willing to assume.

Dr. Seibert makes one suggestion which I think has merit. He suggests that collaboration with Walt Disney in the production of "a hard hitting movie stressing

CANE RIVER HIGHLIGHTS

By: Pat Letterman

The Cane River Rebels met the Cranberry Wildcats on the Cranberry field Friday night. In the first half the Rebels scored two touchdowns and made the extra points. With only four minutes left in the first half Cranberry scored leaving the score at half time 14 to 7 in favor of the Rebels. In the second half the Rebels slowed down and the Wildcats began to score. The Rebel team played a very fine game, but the final score was 21 to 25 in favor of Cranberry.

The seniors received the proofs of their pictures on Wednesday. The whole student body received their report cards on Friday.

On Thursday, October 21, The Cane River Rebels will meet Hot Springs on the Cane River field.

natural beauty, garden courtesy, and a return to the respect for the property of others might have an encouraging effect at this time."

NOTICE OF EXECUTION SALE

IN THE SUPERIOR COURT NORTH CAROLINA YANCEY COUNTY

BEN BANKS, Plaintiff

vs.

RHODA PROFFITT, Administratrix of the Estate of M. H. Proffitt, Defendant
