

VETERAN'S INFORMATION

EDITOR'S NOTE: Below are authoritative answers by the Veterans Administration to some of the many current questions from former servicemen and their families. Further information on veterans benefits may be obtained at any VA office.

Q — When a beneficiary of VA does not receive payments, what action should he take?
A — Call or write the VA Regional Office in his state.

Q — My son enrolled in college Sept. 14, 1966, taking 13 semester hours. He expected to receive \$100 per month educational assistance. He was advised that he would only receive \$75 per month. His first check was only \$42.50. Why will he not receive \$100 a month, and why was his first check only \$42.50 when he was advised he would receive \$75?

A — Your son received the correct amount for the month of September since he was enrolled for only 17 days and not the full month. He was paid for the actual days of attendance during September at the rate of \$75 a month. Seventeen days at this rate amounts to \$12.50. To qualify

for the full amount of \$100 he must be enrolled for at least 14 semester hours. Since he is taking more than 10 but less than 14, he receives 50% allowance, at \$75 per month. Payments are made on a calendar month basis, and if he does not have excessive absences his future checks will be \$75.

Q — I recently converted \$100 of "E" bonds which I had owned for 20 years to "H" bonds. Must I report interest paid on "E" bonds as income for pension purposes this year?

A — No. Interest should be reported when "H" bonds are cashed.
