## "The Crucible"

Continued

done on furniture used during the Puritan era, on costumes and hair styles. Practice make-up sessions have been held in order to learn to apply make-up properly. Both the facial and bodily appearance of each cast member is important in the portrayal of each character.

Numerous posters have been made and distributed by the publicity committee so that the public may be well informed of the production. Tickets have gone on sale and can be obtained by contacting practically any student.

The students have put forth a tremendous effort and feel that the production can be successful only if it is well attended.

The attention of the audience will be held from the moment they see Betty Parr's, "possessed by the devil," through the courtroom scene and on to the powerful conclusion.

See "The Crucible" at East Yancey. Curtain time is 8:00 p. m. on Thursday and Friday nights.

**eye on fashion**  
by Phyllis Kay

With mini-skirts on the minds of women of all ages this Spring, young and high-spirited sweater knits of Durene cotton are going to new lengths. Although fashion dictates, it is up to the wearer whether she hems her skirts just above the knee

or goes three inches higher. And shown here is a short, quick little knit dress of 100% Durene cotton by Garland. It comes in bright shades including a combination of orange and white. There is a mad mix of patterns with bold checks on raglan sleeves, a skinny rib bib, and more bold checks for the skirt bottom.

All of the new mini-dresses, mini-sweaters and short dresses currently popular are enhanced by Durene cotton, a high quality mercerized yarn which imparts lustrous beauty to finished fashions. And because of mercerization, Durene is a stronger yarn, providing greater comfort through absorption and evaporation qualities. Durene cotton also has a high dye affinity, which enables the yarn to take to the glorious, bright colors which are so important this season.

## Shrinks Hemorrhoids Without Surgery Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain — without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all — results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug counters.
