to consider plans for its next year of operation. The meeting will be held at 7:30 p. m. at the Crossnore High School Cafeteria.

The Community Action Program now in operation will be completed on September 30, 1967. The new program will run from October 1, 1967, to September 30, 1968.

Plans that will be presented by the W.A.M.Y. staff to the Board for action call for continuation by the W.A.M.Y. staff of all programs now in operation.

Some changes in administration of the programs have been proposed to improve their effectiveness, and to provide closer teamwork and coordination with other local agencies.

After the Board approves a final version of the new Community Action Program, the plans will be submitted to the Office of Economic Opportunity in Washington for funding. The OEO provides most of the money for W.A.M.Y. programs, although about 12 per cent comes from local sources—mostly in the form of free office space and volunteer work.

All W.A.M.Y. Directors are urged to attend this meeting. The meeting is open to the public.

Wright With N.C. State Park

By: Shirley Anne McAllister
N. Y. C. enrollee, Darrell Wright from Bee Log was sure there was something bigger in life than setting trees with the Refrestation Crew. Not that they're not doing a good job, but there was something else for him. He was placed with the N. C. Division of Forestry. From there he even went further, he is now employed by the N. C. Division of State Park at Mt. Mitchell.

Mr. Robert Wilson, Park Supervisor, says, "Darrell has worked out fine in his work." "He's doing a real good job; shows initiative and is well natured," says Bob Ensley, Ranger, II.

Darrell says, "I'm really enjoying my work. I work 6 days on Mt. Mitchell policing the grounds, clean up, etc. I am also tending a tobacco patch. As you can see I'm pretty busy."

Yes, Darrell has found a place for himself. If he decides to stay at Mt. Mitchell he can learn and grow as well as work.

The olive tree is highly-valued as a landscape ornamental for yards and gardens.
