Makes It On Time

BOONE, N. C. — A director can fire an actor who doesn't show up for a performance, but what's he going to do when a horse doesn't make it to the theatre on time?

When old Polly, the "Horn In The West horse," disappeared one night last week, there was more panic backstage at the outdoor drama than if one of the leading actors had broken a leg. They have understudies ready to fill their roles, but Polly doesn't.

Thanks to a passing truck driver, however, Polly faced the footlights on schedule.

The nine-year-old farm horse, who has been in the Kermit Hunter outdoor drama for the past four years, is kept on the theatre grounds during the summer months. But just after intermission last night, she broke her tether and headed for her winter home some four miles away.

The truck driver spotted Polly about a mile from the theatre and postponed his haul long enough to lead the horse to a near-by motel.

Polly, a paint with one brown and one blue eye, was easily identified by the motel owner, Carl Fiddler. He had the mare returned to the Daniel Boone Theatre — with three minutes to spare. Then Polly pulled her wagon across center stage in the Horn's exodus scene as if nothing had happened.
