Many People Benefit From Adult Education Program

By: Shirley Anne McAllister I. P. D. (W.A.M.Y.)

Many people can and do benefit from the Adult Basic Education Program. Some enrolled may be learning to read and write or some may be reviewing English, social studies, math or science. In other words, some people only need a refresher before taking the high school equivalency test which is the objective of the program. This is the case of Mrs. Christine Robinson, Route 1, Relief, who attended Adult Basic Education Classes at Bee Log School for only 72 hours. After this period of time the teacher felt that Christine could pass the test. Therefore, arrangements were made for her to go to the testing center in Asheville—she went, took the test and passed.

What is the High School Equivalency Program? It is a program whereby an adult who did not complete his High School education may take a series of tests to demonstrate his general education competence and be awarded a certificate recognized and generally accepted as equivalent to a high school diploma.

The State Department of Public Instruction issues the certificates. Christine will receive her certificate soon. The certificate is recognized almost without exception by industry, agencies, employees, colleges, etc.

If you, for some reason or another did not get to finish high school or cannot read or write, why not enroll in an Adult Basic Education Class? For some, it may mean only a few weeks of classwork. For others, it may mean more time. However, the sooner you enroll the sooner you can take the High School Equi-

valency test.

Classes are held at South Toe, Burnsville, and Bee Log Schools. Classes at Bee Log will begin a new quarter Tuesday night, September 19 at 7:00 p. m. If there are no classes in your area, call 682-2610 and request that a class be set up.

Classes are sponsored by W.A.M.Y. and Asheville-Buncombe Technical Institute.
