Farmers Home Administration

The Farmers Home Administration basic objectives in making Farm Ownership loans are to assist eligible farmers to become owner-operators of family farms, to make efficient use of their land, labor, and other resources, to carry on sound and successful operations on the farm, and to afford the family an opportunity to have a reasonable standard of living. The operation includes establishment or enlargement of nonfarm enterprises on the farm to supplement the farm income. These objectives of the FHA are accomplished through the extension of credit and supervisory assistance.

Farm Ownership loans may be obtained through the FHA to purchase or to enlarge a farm, to construct or improve building and facilities on the applicant's farm; to purchase and/or install a domestic water and sewage disposal system; and to provide land and water

development essential to the operation of the farm and any nonfarm enterprise; facilities such as fencing, land clearing, forestry purposes, including establishment of approved forestry practices; establishment and improvement of permanent hay or pasture, drainage and irrigation facilities; basic applications of lime and fertilizer, and farm pond construction. Farm Ownership loans are also available to refinance secured and unsecured debts; to finance nonfarm enterprises which will provide another source of necessary income, and to pay expenses incident to obtaining plans and making the loan such as fees for legal, architectural, and other technical services, which are required to be paid by the borrower.

These Farm Ownership loans are available to the borrower at an interest rate of 5 percent per year on the unpaid balance of the loan. Real estate mort-

gages will be scheduled for repayment over a period not to exceed 40 years from the date of the note or such shorter periods as may be necessary to assure that the loan will be adequately secured, taking into account the probable depreciation of the security. A loan of \$2500.00 or less that is not secured by a real estate mortgage will be scheduled for payment over a period not to exceed 10 years from the date of the note.

To be eligible for a Farm Ownership loan, the applicant must be a citizen of the United States, must possess legal capacity to incur the obligations of the loan, must have recent farm experience or farm training sufficient to assure reasonable prospects of success in the proposed farming operations, must be an applicant who is not already earning sufficient income to have a reasonable standard of living, must possess the character, ability and

industry necessary to carry out the proposed operation and honestly endeavor to carry out the undertakings and obligations required of him in connection with the loan, and must be after the loan is closed an owner-operator of a family farm which will produce not less than a substantial portion of his total income. The eligibility requirements also require that the applicant be unable to obtain sufficient credit elsewhere to finance his actual need at rates and terms he can be reasonably expected to fulfill, taking into consideration prevailing private and cooperative rates and terms in the community in or near which he resides for loans, for loans for similar purposes and periods of time.

Funds are available for Farm Ownership loans based on appraisals.

Farm Ownership loans may now be made to eligible applicants at 18 years of age.
