DEAR MR. PUBLISHER, PARSON JONES

Dear Mr. Publisher

Our little community is getting lots of attention these days. We have been chosen by the government as a spot to build a model city. As I understand it, they're gonna build the kind of town that will serve as a pattern for the rest of the country to follow. I shore hope it works. God knows we need a good model to follow.

This approach may seem new, but Jesus invented the hole idea 2,000 years ago. He done it when He gave the Lord's Prayer. Remember when He said for us to pray, "Thy Kingdom come—Thy will be done on earth as it is in Heaven"? Well sir, He was telling Christians that they oughta build their communities like Heaven. Then when the world saw these little models of Heaven on earth, they would have something to follow. Well sir, I don't have to tell you that church folks didn't take Jesus' plan too serious. Instead of copying Heaven they built just like their neighbors, and now we've got a terrible mess.

Mr. Publisher, can you imagine what it would be like if church folks really tried to copy Heaven?

I'm sure folks in Heaven don't gossip about one another or try to cheat one another. And, I can't imagine the citizens in Heaven fighting among themselves. Certainly there would be no war. Another thing, Mr. Publisher, I'm positive there ain't no slums in Heaven. Can you see the folks dividing up among themselves by race or denomination? Another thing I can't imagine in Heaven is folks ignoring their next door neighbor.

If all this is true, Mr. Publisher, Christians are supposed to be copying it. God made Heaven the model city. I don't know what went wrong. Either church folks have eyes so bad they can't read the blue prints, or else they're too lazy to work at it. Shore seems to me that it would be cheaper in the long run to build things right in the first place.

Well, so much for that. I've got to sign off and go to a meeting of the model city planning committee. I'm gonna ask the committee where we're gonna find the model people to put in this new model city. Ain't no sense putting pigs into a nice clean bed! Maybe we oughta come up first with a plan on how to build some model people.

Come see us when you can, and at least think about us when you can't.
