Letter To

We would appreciate your publishing a copy of the following resolution:

RESOLUTION

Be it remembered that at a meeting of the Burnsville Men's Club held on October 3rd, 1972, the following proceeding was had:

A discussion was had as to the departure of Mr. Ned Jestes from Burnsville by reason of his having retired. The members of the Club expressed regret at losing Mr.

Jestes, former member of the Club. Therefore, upon motion made, duly seconded and unani-

mously carried it was resolved: 1. That the Chib express to Mr. Jestes the appreciation of its members for his faithful service to the Club as its Secretary-Treasurer and in all activities of the Club.

2. That the membership of the Club express to Mr. Jestes the hope that he will enjoy his retirement and that he will endeavor to visit in Burnsville at each opportunity available

3. That copy of this resolution be sent to The Yancey Journal, a copy sent to Mr. Jestes and a copy recorded in the minutes of the Burnsville Men's Club.

BURNSVILLE MEN'S CLUB By Herbert Allen, President

Dear Editor:

I would publicly like to thank the many individuals who made phone calls and personally expressed approval of my letter to the editor last week regarding Yates Bailey, Chairman of the Social Services Board, and an employee of Proffitt's Store, Bald Creek. I found that many citizens of Bald Creek read the letter with much concern for the people being subjected to threats of checks (Welfare and Social Security) being terminated, low wages being paid in inflated groceries, and being told how to vote. Many individuals have already signed notarized affidavits regarding their relationship with Yates Bailey. low-income and low-functioning people have the right to be free of harassment from self-

the affidavits for proper disposition. Several people have asked why nothing was said last week regarding John Powers (South Toe), the third Social Services Board member. Mr. Powers has the potential of becoming a positive factor if he will break from the influence of Mr. Bailey. I reiterate my gratitude to Mr. Bob Helmle for his support and concern for individuals and the Social Service

serving individuals. A federal and state agency are studying

Agency. One way to improve our political process in local affairs is by education and publicity is demonstrated by the excellent edition of The Yancey Journal last week. Thanks again to the many wonderful citizen of Yancey County. I hope we continue to see improvements in our schools and public agencies in the days ahead. *

Sincerely, Randall Peacock

Students Tour MAY Tech

A group of 36 seniors from Cane River High School, accompanied by the Business Educa tion teacher, Mrs. Elaine Boone, toured Mayland Technical Institute last Friday. The group toured the administrative offices, the Library, Learning Lab, the Auto Mechanics Department, and the Business Department, along with other classrooms and offices. Mrs. Flora B. Roberson, Director of Student Personnel, conducted the tour. Dr. O. M. Blake, Jr., president of Mayland Tech. spoke briefly to the group. A tour of the offices of Brad Ragan, Inc. was also arranged so that the group, primarily interested in Business Education, could observe various activities in office work, including computer operations.

Employees At Two-Day Workshop

Employees of the Farmers Home Administration met at the Sheraton Hotel and Motor Inn at Asheville, North Carolina, for a two-day workshop on methods for implementing a greatly expanding Farmers Home Administration program.

Attending the meeting from Yancey County were Paul Laughrun, District Supervisor; Wilbur G. Howard, County Supervisor; Naomi L. King, County Office Clerk; and W. Clyde Bailey, Construction Inspector.

State Director James T. Johnson addressed the meeting and praised the employees for making the North Carolina FHA program one of the largest programs in the nation. He stated that Farmers Home Administration

Cox Is UF Chairman

last year provided some 150 million dollars to farmers, rural residents and communities in North Carolina. Iohnson said that Farmers

Home Administration in North Carolina had the best overall program in the Nation. He cited several "firsts" for the State FHA, such as having the first solid waste disposal project in the nation, being first in total number of solid waste projects and having the largest dollar volume for rural housing loans of any state in the nation.

Johnson compared the agency's program over the last three years and said that in 1969 FHA loaned 65 million dollars in North Carolina. In 1970, it increased to 81 million dollars.

to organize, the county would

be faced with the necessity of

bus drivers. Radio station

ther Line will also be used.

For Schools

In 1971, it went to 123 million dollars and in 1972, to a record 150 million dollars for North Carolina. This year's programs are projected to exceed 180 million dollars or triple that of three years ago. 'These services have provided thousands of North Carolinians decent homes, improved rural communities by providing central water and sewer systems and assisting rural areas in cleaning up the countryside by providing countywide waste disposal systems to some 50 North Carolina counties. In addition, thousands of farmers received financial assistance for real estate and operating type loans in a farm loan program that doubled over the

three year period. Johnson pointed out that these increases have been made with only a slight increase in personnel and praised the employees for their increased production and efficiency.

Employees received infor mation on new lending authorities provided FHA by the new Rural Development Act which extends FHA services for essen tial community facilities, broadens the rural housing program, provides loans to young farmers or rural youths, and authorizes Farmers Home Administration to make business and industrial loans in places up to 50,000 population.

Johnson said that existing and new authorities now give the agency the opportunity to provide financial assistance to the total rural sector in administration efforts to make rural development a reality and is expected to double the present volume over the next few years.
