IF YOUR DEALER WON'T PROVIDE PAY ANY DAY SIMPLE INTEREST FINANCING,

1. You sign a loan note for only the exact amount of money you borrow. No interest is added in advance to your note.
2. You pay only simple interest on your monthly declining balance. And only for the number of days you use the money.
3. You may make your loan payment any day of each month. Unlike loan plans at other financial institutions, with PayAnyDay loans there's never a delinquency charge for late payment. Simple interest simply accrues from date of last payment. This gives you maximum flexibility in repaying each month.
4. You can save money. By making early payments, or extra amounts in advance, you reduce the loan balance and the amount of interest you pay.
5. You may pay off the entire amount of your loan at anytime without a prepayment penalty. And without rule of 78's or short rate rebate of unearned interest.
6. It's possible to skip monthly payments. Simply notify us in advance. You do not have to pay extension charges...simple interest simply accrues from date of last payment made.
7. You may select your monthly payment amount. Just tell us how much you wish to pay each month. We'll tailor the loan to fit your request.
8. You can select your own number of months to repay your loan. In addition to the standard time periods of 12, 18, 24, 30 and 36 months offered by other financial institutions, we provide the widest choice in financing. For example, 19, 27, 32, 48 or more months. On mobile homes and certain other purchases, you may select any number of months up to 120.
9. No more coupon books. You receive each month a two-part statement showing principal balance, current payment due (your payments are the same amount each month), and how your previous payment was applied. You return one part of statement with payment in return envelope provided. You keep the other part of your statement for record purposes.
10. You receive full tax credit for the interest you pay. Because your interest paid is shown separately on each copy of the monthly statement you retain, you have ready access to the total amount of interest you may deduct for tax purposes. Your January statement gives you total interest paid in the previous year.
