

Aerial View Shows Excavation At Site Of New Mountain Heritage High School

New High School Plans Go Forward

[Cont'd from page 1] examples of vocational courses a student could choose. Additional federally-funded teaching positions which can be filled only when additional space is provided will mean a large expansion of the career education department. Enrichment programs in the fields of music, including band, and art will also be part of the curriculum. A special feature of the school will

be a seven-hundred, seventy-five seat auditorium. In other areas of the Yancey County School system, repairs and renovations of existing schools have been made in the past year. Floor coverings of tile and carpet have been placed at South Toe, Bald Creek, Bee Log and Clearmont. Ceilings have been lowered and fluorescent lighting installed at Burnsville, Micaville, Clearmont and Bald

Creek. An enclosed play area is being planned for Pensacola and restroom facilities have been improved at Burnsville Elementary. Beginning with the 1973-74 school year, fees were eliminated in all elementary schools. The year also marked the employment of a county-wide library coordinator for the elementary schools along with a music teacher and a band

leader. By the end of the school year, some 80 sixth, seventh, and eighth grade students from various elementary schools had, under the leadership of the director, formed a band and played at a number of functions. During the year there was much policy making by the Board of Education particularly in the fields of personnel, finances, and facilities.

Craftsmen To Exhibit At Fair

Mae Laws, Relief, Dolls, Stuffed Animals, Plants
 Yancey County Extension Homemakers, Homecrafts
