OR BABE RUTH LEAGUER WILL BE  
ADMITTED TO THE PERFORMANCE  
Free

Tickets Can Be Reserved By Calling 682-6151 Now!!

**Library  
Notice**

Pictures must not be too picturesque. Nothing astonishes men so much as common sense and plain dealing. All great actions have been simple, and all great pictures are.

The CHILDREN'S HOUR will not be held in the Yancey Library for the month of August. It will resume its regular schedule on Monday, September 8th.

BROADLOOM FOR  
INDOORS AND  
OUTDOORS

**Peterson Studies Wildlife  
Biology In College Program**

Ann Peterson has been studying wildlife biology. She was one of 49 high school seniors participating in the intensive, four-week, college level program at Berea College. Ann is the daughter of Mr. and Mrs. T.J. Peterson of Route 2, Green-Mountain. She will be a senior at Cane River High School this fall.

The program was sponsored by the National Science Foundation. Students were selected for high ability from those nominated by their high schools, primarily from eight southern Appalachian states. The program provided an academic course for college credit, a work experience in conservation, and an experience in college living. Students stayed in the dormitories and studied with the regular Berea College faculty. And it was fun. There were field trips to the Cincinnati Zoo, the Cave Run State Fish Hatchery, and the Kentucky Wildlife Center in Frankfort, where quail, wild turkeys, and pheasants are

bred. Red River Gorge was visited, and the students learned of the area's unique

Ann Peterson

plant life which comes from distant wildlife regions and is not found anywhere else nearby.

They visited the Bald Rock area of the Daniel Boone National Forest and saw a

forest management research area, a wildlife sanctuary, virgin timber, and the site for a power-generating dam and lake.

There was hard work. Students combed the Berea campus, learning to identify every tree and shrub. In their classes, they studied everything from edible wild plants to noxious weeds to soils.

Students at Berea pay no tuition but all work at least ten hours a week. The wildlife biology group was no exception. They did conservation work in the Berea College forest.

They bridged a ravine, and built steps up to the bridge. They completely relocated 1,000 feet of trail on the steepest part of East Pinnacle. The old trail had become badly eroded.

Two other intensive programs for high school seniors were held this summer on the Berea College campus, in industrial technology and astronomy.

**Two Educational  
Scholarships Given**

The James G. K. McClure Educational and Development Fund has awarded Freshmen Scholarships to Karen Elizabeth Huskins and Carolyn Janet McKinney who will be entering Mayland Technical Institute this fall.

Karen Huskins

Miss Huskins is the daughter of Mr. and Mrs. James H. Huskins of Route 2, Burnsville. At East Yancey High School, Karen was an honor student and a participant in numerous school activities. She plans to enter the Executive Secretarial Program at Mayland Tech.

Carolyn McKinney is the daughter of Mrs. Pansy McKinney and the late R.H. McKinney of Bakersville. Miss McKinney graduated from Bowman High School, where she was a member of the National Honor Society, Glee Club, Dramatics Club, and other school activities.

Carolyn McKinney

McClure Scholarships are awarded to academically promising residents of rural Western North Carolina who want to pursue their formal education beyond high school. Evidence of Christian charac-

ter and the desire to be of service to one's fellow men are also considered of basic importance in the selection of the recipients.

**Treadway  
Entered  
In Contest**

Janet Treadway from the Cane River 4-H Club is representing Yancey County and the Western District in the State 4-H Automotive Skill Driving contest this week. The contest is in conjunction with competition in many other areas during North Carolina 4-H Congress. Janet is the daughter of Mr. and Mrs. Robert Treadway of Route 4, Burnsville.

The annual Congress began Monday on the North Carolina State University campus. The program for the week consists of recreation, discussions, competition, election of state officers and a lot of fellowship. During the week state winners are determined in some 35 demonstration programs and various judging activities.

"North Carolina 4-H Congress offers an excellent opportunity for personal growth and development," comments Dr. Chester Black, state 4-H leader. "It is an event that 4-H'ers look forward to each year with great anticipation."

**Piano  
Student**

William Gouge, son of Mr. and Mrs. William Gouge of Route 2, Burnsville, is a piano student in the Advanced Music Program at the North Carolina School of the Arts summer session.

The school of music, under Dean Nicholas Harsanyi, offers intensive study for advanced high school and college students who receive private instruction and attend ensemble classes.

**Miller And Garnett  
United In Marriage**

The marriage of Miss Ina Gail Miller to James Garnett Jr. took place at 2 p.m. Saturday, July 19, at the home of her mother, Mrs. Ernest Miller.

The Rev. Frank Phillips conducted the double ring ceremony.

The bride is the daughter of Mrs. Ernest Miller, and the late Ernest Miller. She is a graduate of Cane River High School and Cecil Business College.

The groom is the son of Mr. and Mrs. James Garnett Sr. He is retired with 20 years service with the Marine Corps, and is now employed as an instructor with Grumman Air Lines in New York.

The bride was given away

by her brother, Jerry B. Miller, who is attached to VF-143, NAS Oceana, Va. Beach, Va.

Best man was Michael Raymond, also attached to VF-143, NAS Oceana, friend of the bride's brother.

Mrs. Jerry B. Miller of Virginia Beach was her sister-in-law's matron of honor. Bridesmaids were Gail and Dale Chaney, sisters of the bride, both of Burnsville.

The bride wore a blue polyester street-length dress.

A small reception was held at the home of the bride's mother. Those serving were Nancy Wright, Pam Garnett and Dale Chaney.

The couple will make their home in New York.

**Real Log Homes:**

**Models Open For Inspection**

Horton Construction and Development Company in Yancey County is the franchised dealer for Carolina Real Log Homes. These log homes, created by a one-time boat builder, inspector of wooden whip construction for the Navy, and post-war building contractor of New Jersey, Jesse Ware is the individual responsible for bringing the log cabin out of the picture books and the museums.

In 1961, Jesse made the first sketches and plans for an easily erected, pre-cut log cabin which he thought he might sometime develop as a possible business operation. He built his first cabin in the spring of 1963, working with

hand tools.

Word got around, of course, that "some fella's building a log cabin out Hartland way" and inevitably there were onlookers. So much so, that before the cabin was finished, Jesse had orders for six more.

Since these early days of the inception of Real Log Homes, changes and progressive attitudes have been the key to growth and success. Modern production methods are continually instituted in line with the demand.

But when all is said and done, what remains is a log cabin that an average man, handy with his hands and

tools, can build himself-made of whole logs throughout, rather than half logs or log siding.

That first model that Jesse built in Hartland Four Corners was swamped by more than a thousand visitors during two days of open house in June of 1964. And the log homes literally sell themselves, especially to enthusiastic nature-lovers.

Several models are open for inspection in Green Mountain Estates. Those interested in the modern application of the "old-time" log home construction can call 704-682-6211, 682-6720, or 682-3976 for information. Or write Horton Construction and Development Company, P.O. Box 171, Burnsville.
