**Help For
 Child With
 Problems**

Our children are our most valuable resource—they are our future. For that reason, we need to provide our mentally and physically handicapped children with the best available help.

The Child Advocacy Section of the Office for Children is interested in finding help to meet these children's needs regardless of race, economic status or the extent of the problem.

Each county in this state is assigned to a field consultant. Yancey County's Field Consultant is Shirlee Gaines at 264-1290.

Child Advocacy Section also depends on the Department of Human Resources CARELINE, an information and referral system. Anyone needing help in solving a child's problem can call Careline's toll free number 1/800/662-7030.
